## TIMBERMAN UNMOVED

**Lumber Tariff Removal No Cause for Worry, Says Weyerhaeuser.**

Spokane, Wash.—In an interview at Sand Point, Idaho, Charles A. Weyerhaeuser, member of the world's greatest family of lumbermen, declared that the removal of tariff on lumber would have little or no effect on the industry in the United States.

"I can see no reason why the lumbermen of the United States cannot easily adjust themselves to the removal of tariff without any apparent effort," stated Mr. Weyerhaeuser. "The tariff, as it stands, is so low that the removal will not seriously affect the industry. We are not worrying."

**Australian Beef Cuts Living Cost.**

San Francisco.—A nation-wide fight on the beef trust through the importation of Australian beef, which has lowered the price of meats here from 20 to 25 per cent, is believed a certainty. The first big shipment from the south seas, 200 tons, which arrived here, immediately found its way into nearly 200 butchershops. The foreign beef has met the requirements of the United State inspection laws and is in great demand by San Francisco housewives.

## STUDENT ARMY CAMPS PLANNED

San Francisco.—Details have just been made public here of the plan of the secretary of war to hold two experimental military camps of instruction for students of educational institutions during the summer vacation period, coupled with the announcement that if they prove a success they will be held annually, one in each of the four sections of the country.

The announced object of these camps is, primarily, to increase the present inadequate personnel of the trained military reserve of the United States by a class of men from whom, in time of national emergency, a large proportion of the commissioned officers will be drawn, and on whose military judgment at such a time the lives of many other men will in a measure depend.

**Wage Cut is Threatened.**

Chicago.—A cut to the starvation point in the wages of women workers in Illinois, provided an eight-hour law is passed, was threatened in open hearing before the state senate sub-committee on labor.

This week they suggest a few of many uses in the home for enamels. The display has attracted unusual attention as the sample displayed is handsomely finished and a fine example of what it is possible to do with the goods they offer.
