A Pleasant Way to Travel.

The above is the usual verdict of the traveler using the Missouri Pacific Railway between the Pacific Coast and [illegible] and we believe that the services and accommodations given merit this statement:' From Denver, Colorado Springs and Pueblo there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up to date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going East or South, write for rates and full information. W. C. McBRIDE, Gen. Agt.
124 3d St., Portland, Or.

See Frank E. Alley for land scrip. Guaranteed perfect, and ready for delivery. Lowest market price.

O. R. & N.

PORTLAND OREGON

An Editor's Opinion of the Royal Gorge.

Edyth Tozier Weatherred, in describing a recent trip over the Denver & Rio Grande Railroad, says in "The Exposition":

"At last the goal of the ambition of years has been reached—marvelous, wonderful, grand and inspiring Royal Gorge is on either hand. The only disappointing thing is you only have one pair of eyes, while the train darts in and out of the tremendous chasm. If any who have never seen it are wondering how it looks just go and see. Thousands have tried to describe it, yet every attempt falls short of giving the subject justice."

If you contemplate a trip East, write W. C. McBride, 124 Third street, Portland, Ore. for booklets picturing Colorado's famous scenery, and any other information you may desire. d-tf.

FARM, FIELD AND GARDEN

ORCHARD AND SMALL FRUITS

Spraying, Planting Cuttings and Other Early Spring Work.

The San Jose scale must be squarely met. Early spring applications of the lime, salt and sulphur mixture have given very good results in Maryland. T. B. Symons of College Park says this season seems the most favorable time, on the whole, for applying the wash.

Dr. John B. Smith of New Jersey clings to his faith in the oil sprays, believing them to be "the most reliable of all scale killers." Of course they must be applied while the tree is still dormant, and many persons distrust the oil spray at any time, claiming that it often kills the trees. For the pear especially Dr. Smith recommends the crude petroleum spray, 43 degrees test, slightly warmed and used through a fine vermorel nozzle any time after Jan. 1, before the trees start into growth.

Set the Cuttings Out Early.

Cuttings made in the fall or winter should be planted out very early in the spring before the weather warms up much. As a general rule, in inserting cuttings only two buds are left above ground and in the vine only one. Long cuttings are set sloping to be in reach of heat and air.

A Generous Fruit Supply Is Easy.

Some fruits are so easily propagated that if one grows them at all there is really small excuse for not having them in generous profusion. Layering is a sure and simple way to increase the grape, the quince and the gooseberry. It is done in the spring, before vegetation begins, using a shoot of the previous year's growth. Dig the ground up light and fine, bend over a branch and make a cut through the bark and part of the wood at the base of a bud, splitting the shoot for an inch or two. Lay the branch down, keeping the cut open, and cover with two or three inches of soil.

Don't Begin Unless You Can Hold On.

There is one thing to be remembered about the new mulch method in orchards, and fruit growers are now passing the weaning round. The mulch encourages root growth near the surface. Therefore it is dangerous to practice it for a few years and then discontinue it, for this leaves the roots exposed to injury from freezing in winter.

Items of Value.

Prune fruit trees early, preferably between March 15 and April 15, says Professor Taft of Michigan.

Pretty near to a razor edge is what the pruning knife needs.

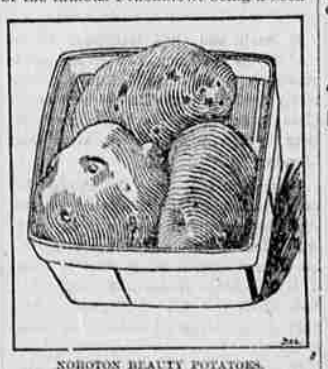
Advantages of clean culture in the orchard—fewer insects and the diseased fruit that drops can be more readily gathered and destroyed.

The Fall Beauty is a very taking, richly colored apple of good quality, originating in Virginia and, first brought into notice recently.

A NEW EARLY POTATO.

Believed to Mark an Era in Potato Growing, as Did the Early Rose.

Early Rose, Beauty of Hebrew, Rural New Yorker, the world famous Carman No. 1 and Carman No. 3, these and others have marked the path of progress in potato growing in the last forty years. With 1905 steps forward a new claimant to a place, and perhaps the first place, in the front rank. It is Noroton Beauty, "a lineal descendant of the famous Peachblow, being a seedling from a seedling of that variety," according to its introducers, who summarize its points of merit as follows:



NOROTON BEAUTY POTATOES.

"It is the earliest potato ever grown, being sixteen days earlier than the Early Rose.

"It is fully as productive as any main crop or late sort.

"It is handsome in appearance and more uniform in size and shape than any other variety.

"The tubers mature simultaneously, a fact which, combined with its extreme earliness, practically does away with danger from blight or disease or bugs.

"Its table quality is superb, and it keeps longer than any other sort, early or late.

"It is the best all around potato in existence."

Noroton (accented on the second syllable) is an Indian name and refers to the town of Noroton, Conn.

Commercial Clover Seed.

The Rhode Island experiment station calls attention to the fact of the great variations in clover plants grown from commercial seed. Not only is there individual variation, which is to be expected, but apparently much of the seed sold for Mammoth clover is not Mammoth clover at all. There is apparently good reason for taking every possible precaution to procure good seed, true to name.

RHEUMATISM ROBS LIFE of PLEASURE

Rheumatism does more than any other disease to rob life of pleasure and comfort. It is so painful and far-reaching in its effects on the system that those afflicted with it find themselves utterly unable to enjoy bodily comfort or any of the pleasures of life. Some are bound hand and foot and suffer constantly with excruciating pains, swollen, stiff joints and muscles, and often distorted, crooked limbs, while others have intervals of freedom, during which they live in constant fear and dread of the next attack, when, at the least exposure to damp weather, or slight irregularity of any kind, the disease will return.

I had been troubled with Rheumatism for two years, had been under the treatment of physicians, and tried everything recommended to me, but all to no avail. My knee and elbow joints were so stiff that I could not use them. I was unable to do my household work, and was truly in a pitiable condition. S. S. S. cured me after using it for awhile, and I unhesitatingly give it the credit it so much deserves.
Sta. A., E. Liverpool, O. MRS. M. A. DECKER.

The cause of Rheumatism is a sour, acid condition of the blood, produced by food lying undigested in the stomach, poor bowel action, weak kidneys and a general sluggish condition of the system. External applications, such as liniments, oils, plasters, etc., do not reach the cause and can only give temporary relief. The blood must be cleansed and purified before a cure can be had. S. S. S. attacks the disease in the right way—it neutralizes the poison and filters out every particle of it from the blood, stimulates the sluggish organs and clears the system of all foreign matter. It cures the disease permanently and safely because it contains no harmful minerals to derange the stomach and digestion. Book on Rheumatism and any advice you wish, without charge.

Fine War Atlas Free.

THE REVIEW has secured a quantity of fine Atlases, specially portraying the scenes of operation in the great struggle now on between Russia and Japan. Both nations are rushing immense armies to the front and severe conflicts are likely to occur at any time. This atlas contains 20 pages, each 11¾x14¾ inches in size, with fine, colored, full-page maps, and a double-page birdseye view of Japan, Korea and Manchuria. It also contains 40 important facts about each of the 40 leading nations of the world, and a reproduction in their natural colors of the flags of all nations. Other illustrations and valuable descriptive and statistical matter, and maps (all maps are in colors) showing steamer routes and distances are included. One of these fine atlases will be given FREE to every person who pays his or her subscription to the TWICE-A-WEEK REVIEW for one year in advance, or to the DAILY REVIEW for six months in advance. Send your order at once to
REVIEW Publishing Co.,
Roseburg, Oregon.
