The suggestive sign, "To Let," on the doors of the buildings formerly occupied by the disappearing sausagemen, shows as well that they have gone never to return; have slid elusively into the mysterious elsewhere.

The pleasant winter weather, while it has been greatly enjoyed by every one, has not been so much of a picnic for Pendleton wood dealers, who have laid in an immense stock of fuel. It will pay, however, unless wood-thieves get their work.

Workmen are engaged in "wiring" the opera house, preparatory to putting in electric lights. It will be fitted with both arc and incandescent lights, and will be most brilliantly illuminated. Manager Cusher proposes to keep apace with the times in this regard, as in everything else.

The report in Baker City recently that Pendleton was the scene of a fierce and raging conflagration, consuming everything in its path, was started by the two Pendleton operators. They had fixed up the job on the key manipulator at La Grande, wiring "hot as blazes," "can hardly keep my seat," etc., wishing to get him to reply and ask particulars, when they would wire the words, "hot stove." He did not bite, but the Baker City young man did, and was so eager to glean exciting news about the fire that the two operators here evidently took his measure and filled him up. Hence the whyness thereof.

Agitation has been commenced on the town-clock question, and will probably result in its purchase. All the people of Pendleton would be compelled to "put up" is $500, Umatilla county furnishing the remainder, and for this amount Pendletonians will be more than compensated by the feeling of pride which a town clock would occasion. It will be placed in the new court-house tower, with dials facing north, south, east and west, and will strike forth the hours in deep, sonorous tones that can be heard throughout the entire city.

On the 26th inst., the State encampment of the G. A. R. will be held at Portland, and that the old veterans will have a grand time at their reunion goes without saying. J. L. Carroll, J. A. Gettysburg Post at Centerville will send Comrade Kern and Comrade Clark Walter as its representatives. Eastern Oregon will be well represented at the the grand encampment.

Baker City contains many cultivated and refined musicians, whose influence tends to raise the public taste to a full appreciation of the higher grades of pianofortes, and it is with pleasure that Allen Bros. & Co. represent the Haines as such. Mr. Herrick also sold a couple of Kimball organs.

IT'S COMING.

Sentimental People Losing Their Grip and the Day of Retribution is at Hand.

From the Tacoma Globe.

The following extracts are made from the old Connecticut "blue laws," which were so called because they were printed on blue paper.

The governor and magistrates convened in general assembly are the supreme power, under God, of this independent dominion. From the determination of the assembly no appeal shall be made.

No man shall be a freeman or have a vote unless he is converted and a member of one of the churches allowed in the dominion.

Each freeman shall swear by the blessed God to bear true allegiance to this dominion, and that Jesus is the only king.

No dissenter from the essential worship of this dominion shall be allowed to give a vote for electing magistrates or any officer.

No food or lodging shall be offered to a heretic.

No one shall cross the river on the Sabbath but an authorized clergyman.

No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day.

No one shall kiss his or her children on the Sabbath or fasting days.

The Sabbath shall begin at sunset Saturday.

Whoever brings cards or dice into the dominion shall pay a fine of £5.

No one shall eat mince pies, dance, play cards or play any instrument of music except the drum, trumpet or jewsharp.

No gospel minister shall join people in marriage. The magistrate may join them in marriage, as he may do it with less scandal to Christ's church.

No man shall court a maid in person or by letter without obtaining the consent of her parents; £5 penalty for the first offense, £10 for the second, and for the third imprisonment during the pleasure of the court.

There is an element in this city which would like to have just such laws enacted here with even far more sumptuary additions. They would like to say what sort of bread others shall eat, and they would like to say that a glass of wine at dinner should be prohibited. They would like also to say that certain organizations of feeble-minded men and strong-minded women should be the governing power mentioned in the first paragraph.

Then there are others who would like to affiliate and rule with the above-mentioned, while they get drunk and gamble on the sly; dance, clad in the brief authority of an undershirt with women of the town at unseemly hours; cheat their neighbors at any opportunity and revile, slander and misuse those to whom they owe gratitude all the time.

Thank the reign of right and reason, that such things as blue laws and everything akin thereto are losing their grip, and the day of retribution is at hand.

The Falls City Booming.

An enthusiastic resident of Oregon City writes as follows:

"The city is spreading southward at a rapid rate. The time has arrived when a motor line to Portland is needed, and at the termini and in the settlements along the route there is warrant that would pay handsome interest on the investment. The magnificent water power at the falls is being rapidly utilized. The woolen mills represent a capital of $300,000; the flouring mills $160,000; the saw mill $25,000; the cement mills $100,000; excelsior mills $25,000. Electrical works are being erected at a cost of $100,000 and a nail factory at a cost of $50,000 is nearly assured. In addition to these, the grandest view of our majestic snow peaks is to be had from the hills just west of the falls overlooking Oregon City.

"The farms and fruit lands along the river equal in fertility those of France, and are probably better, as insect pests do not prevail here. Chances exist anywhere south of Portland for a man to get rich by going into the fruit or berry culture.

"When the electric power is furnished cheaply and our city is liberally lighted, and when visitors can ride from Portland to Oregon City on cars driven by electricity, Portland and Oregon City will take their places at the head of the procession."

What on Earth

is the reason people will use, eat or do not see any difference in cheap medicines put up by Chean John houses or irresponsible parties, a concern as profits, rather than take a good line of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such universal satisfaction for purifying blood as BEGGS BLOOD PURIFIER & BLOOD MIXER and every bottle that does not do its work will cost you nothing. F. J. Donaldson, Druggist.

The New Year's Paper Did It.

From the Little Rock Woman's Chronicle.

Hon. E. D. Boyd, for years a resident of Little Rock and at one time State Senator of Arkansas, is now engaged in the real estate and insurance business at Pendleton, a beautiful little city of Eastern Oregon. Pendleton is situated upon the Umatilla river, county seat of the county bearing the same name, and judging from a view upon the supplementary sheet of the EAST OREGONIAN must be entitled to the honor of being called a gem, among the young and thriving cities of the far West.

Indian Agent Coffey Removed.

Colonel J. C. Saunders, the government inspector, who arrived here a few days ago, as stated in this paper at the time, to look after matters on the Umatilla reservation, has come to the conclusion that a change in agents is necessary to the best interests of the government and Indians, so he has removed Mr. B. Coffey from office, also Paddy Miles, the clerk on the reservation for many years, to take effect at once. Further particulars are not to be had at this writing.

How Can Parents

allow their children to cough and strain and cough and calmly say: "Oh, it is only a little cold," and keep giving them cheap and dangerous medicines until they are down with lung fever or consumption, when they can be so easily relieved by BEGGS CHERRY COUGH SYRUP? It has no superior and few equals. F. J. Donaldson, Druggist.

There has been introduced in the Senate a bill providing for the relief of Geo. Hunter, late captain of Company A, Columbia county, W. T., volunteers. The bill provides that the secretary of the interior is authorized to put the name of Captain Hunter on the pension roll, at a pension of $77 a month. Captain Hunter served as captain of the Columbia county volunteers, otherwise known as the Dayton volunteers, in the war against the Nez Perce Indians in 1877.

Senator Dolph has been informed by the third auditor of the treasury that a settlement of the war claims of the State of Oregon for expenses incurred in the suppression of Indian hostilities during the war of 1877 and '78 had been made in that office, and $38,132 recommended for allowances, and a report, together with papers, forwarded to the second comptroller for his action.

The President has sent the nomination to the Senate of Hugh S. Thompson, of South Carolina, to be United States civil service commissioner in place of Alfred P. Edgerton, removed. President Cleveland requested Edgerton to resign and he would not do so, and the President caused his removal. He was unfitted for the duties of the office.

Articles of incorporation have been filed in the office of the Secretary of State by the Grand Ronde Lumber Company. The principal place of business will be at La Grande; L. C. Stanley, J. S. Sherman, Cornelia A. Stanley, George W. Dwinnell and Fred S. Stanley, incorporators; capital stock, $100,000.

Senator Mitchell has introduced a bill in the Senate, which was referred to the committee on pensions, which provides that the same pensions and benefits granted to Mexican veterans be extended to survivors of all Indian wars who served thirty days or more in any Indian war since the year 1845.

Friday night the Idaho Legislature remained in session the entire twelve hours, making a forty-five hours' steady session. County division bills, and bitter fights in consequence, prevented adjournment.

Michael Schreck, of Colfax, W. T., is suing Whitman county for $10,000 damages for alleged false imprisonment.

Cough! and Cough!! and Cough!!!

What in the world is the reason you will cough, and keep coughing, and still keep trying inferior medicines when BEGGS CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact and we guarantee it. F. J. Donaldson, Druggist.

Mr. and Mrs. A. E. Dart will leave on this morning's train for San Francisco. Mr. Dart will return to Pendleton in the course of a fortnight, leaving his wife in Mariposa county, where her relatives reside, in the hopes that an extended sojourn in the genial clime of Southern California may restore her shattered health.

The department at Washington has decided that Capt. John Mullen is the agent of California, notwithstanding that the governor of the State has authorized them to appoint him as such. The Legislature made him agent and the department claims the governor cannot annul their act.

Cashier Fraser, of the Tacoma National Bank, is expected back in a few days from his trip to British Columbia, says a Tacoma dispatch to the Oregonian. Something new under the sun—a cashier returning from the Canadian possessions. Ye gods, what next!

Manager Fletcher is making arrangements to secure a date with the famous Lydia Thompson Opera Company, which consists of fifty people composed of the most talented stars in the operatic world. The company will probably appear in Pendleton about the first of next month.

Thomas Johnson, familiarly known as "Tommy," has been engaged as night clerk at the Villard House, a position which he will no doubt fill satisfactorily to his employer and the public.

T. J. GoBaber, the merchant at Adams, was in town to-day. He reports crop prospects fine in that neighborhood. Indeed, that may be said of every portion of the county.

The Rev. Mr. Downey, who has been under the weather for the past week or so, is now recovering and will soon be able to again minister to the wants of his flock.

The regular meeting of the board of fire delegates occurs to-morrow evening and the "fire department dads" are expected and requested to turn out in force.

The weather to-day is enough to persuade a man to pay his I. O. U.'s, follow the golden rule, and forgive his enemies. It has been glorious, divine.

Oregon City is on the boom. It already contains enterprises which represent $750,000 of aggregated capital.
