POULTRY

POULTRYMEN—High government and poultry officials are now concerned over a possible shortage of poultry and eggs for the armed forces and civilians. The 24% drop in 1944 chick production, heavy marketing of layers and the extension of the war have caused the expected surplus to disappear and an actual shortage result. Indications are ceiling prices for eggs and poultry in 1945 and '46 and lowered feed costs. OUR SUGGESTION: Order your normal number of chicks from a breeder-hatchery with 20 years flock improvement, resulting in chicks that mature into profitable early fryers or layers of choice quality eggs. Our free circular describes 0,000 hen cap. breeding farm, 65,000 egg cap. new streamlined hatchery and why thousands of Gent's New Hampshire and Leghorn chicks are going to Douglas county poultrymen. Hatches twice weekly beginning January 23rd. 50% of 1945 output now sold. Order early for choice dates remaining.
