WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, health demands a pound of waste material must be carried out of the body. If this waste material is not eliminated daily, it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the circulating stream, through the bowels, which should only contain pure blood to sustain the body.

A splendid health measure is to drink, before breakfast, a large glass of hot water with a teaspoonful of Bisurated Magnesia in it, which is a harmless laxative to flush these poisons, gases and toxins from the stomach, liver, kidneys and bowels, this cleansing, sweetening and freshening the entire digestive canal before adding more food to the stomach.

A quarter pound of Bisurated Magnesia should cost but little at any drug store but is sufficient to keep anyone an enthusiastic inside bather. Men and women who have occasionally to wake up with a dull, aching head, have furred tongue, bad taste and breath, sallow complexion, and often have bilious attacks and chronic constipation are advised to try the prescription mentioned above, which is reported to work wonders in both health and appearance shortly.
