Veterans Bonuses Require 16 States to Raise More Than $2 Billion to Pay Them Off

By the Associated Press.

Half a dozen states are searching for money to pay veteran bonuses.

It's a big job. They have to raise about $495,000,000.

Ten other states are paying or preparing to pay $1,590,256,000 to World War 2 vets or their survivors.

Thus the total for the 16 states comes to $2,085,256,000.

The question of how the bonus will be financed has come up in six states where the voters approved the bonus proposition in referenda — Iowa, Minnesota, North Dakota, South Dakota, Indiana and Washington.

A bill introduced in the North Dakota legislature calls for increases of eight cents a gallon in the beer tax, 50 cents a gallon in the whisky tax, and two cents a pack in the cigaret tax, plus an unspecified hike in the property tax.

A number of suggestions are being considered in Indiana. Among them are proposals to double the gross income tax rate, to tax soft drinks and tobacco, to raise taxes on beer and liquor and to legalize and tax pari-mutuel betting. The problem of providing a lot of money is complicated by a constitutional ban against state bond issues.

Iowa voters authorized the state to levy an annual state tax sufficient to retire bonds issued to pay a cash bonus in 1949. The State Tax Commission has certified the levy for this year as $1.95 per $1,000 valuation on real and personal property. The legislators, meanwhile, are considering proposals that the state buy some or all the bonds with surplus funds in the state treasury. Thus the state would save interest money.

Sales Tax Hike Proposed

Gov. George T. Mickelson's measure in South Dakota would draw $5,000,000 out of the general fund as a starter. It also would increase the state retail sales tax from the current two per cent to three per cent, extend the sales tax to beer, liquor and cigarets and place a two mill levy on property.

One bill presented in Minnesota would impose a 1.5 mill tax on income over $1,000. Two others would establish a lottery. A lottery has virtually no chance of adoption. Many lawmakers figure it would not be profitable without use of the mails, and such use of the mails is prohibited by federal law.

The Washington State bonus is stalled, at least temporarily, by a test of its constitutionality. The State Supreme Court must decide, among other things, whether the financing plan is legal. The bonus would be paid with a $100,000,000 bond issue and the bond would be retired by a ten per cent tax on retail tobacco sales.

Pennsylvania has one foot in the bonus parade. The 1947 legislature approved a $500,000,000 bonus bond issue proposal. But before the program can go into effect, it must be approved by the legislature this year and also in a state-wide vote.

Louisiana is setting up machinery to send checks to veterans. The money will come from a $50,000,000 bond issue. To pay off the debt, legislators put an additional tax of about 2½ cents a bottle on beer.

Nine states—Vermont, New Hampshire, Massachusetts, Rhode Island, Illinois, Michigan, New York, Connecticut and Ohio—are paying bonuses now. Most of the money already has been distributed.

Boat Upset Drowns Two Americans in Tokyo Bay

TOKYO, Feb. 1.—(AP)—Miles W. Vaughn, 58, United Press vice-president for Asia, and Maj. Thomas R. Haddock, of the Army Dental Corps, along with three Japanese, were drowned Sunday when a small sampan was overturned in Tokyo bay. The party was on a duck hunting trip.

Legislators' Pay Boost Rejected by Committee

SALEM, Ore., Feb. 1.—(AP)—The Senate Elections Committee voted 4 to 1 yesterday against a proposed constitutional amendment to boost legislators' pay to $1,200 a year.

If the Senate accepts the report, as expected, it would kill the measure. Legislators now get $8 a day for the first 50 days of each session, and nothing after that.

The bill was sponsored by Sen. Richard L. Neuberger, Portland Democrat. The House has a measure, by Rep. Lloyd R. Crosby, Milwaukie Republican, to increase the pay to $600 a year.

Neuberger was the only member of the Elections Committee voting for the pay increase measure.

Boeing Delivers First 75-Passenger Plane

PORTLAND, Feb. 1.—(AP)—The Boeing Airplane Company delivered the first 75-passenger Boeing stratocruiser-type clipper to Pan-American World Airways yesterday.

The plane, the "Clipper America," is the first of 20 to be delivered between now and August. The huge new planes will cost Pan American a total of $30,000,000, or about $1,500,000 apiece.

First public demonstration of the plane will be in Washington, D. C., in February. Passenger flights between the West Coast and Honolulu are scheduled to begin late in March.

The four-engine planes have a normal operating altitude of 15,000 to 25,000 feet. Its speed is over 300 miles per hour and the payload approximately 25,000 pounds.

Atomic Bombs Superior To Those Dropped on Japan Now Possessed by United States

By FRANK CAREY
(Associated Press Science Reporter.)

WASHINGTON, Feb. 1.—(AP)—The United States has new atomic bombs which have much more explosive energy than the old ones.

The Atomic Energy Commission, which has hinted previously that it had developed more powerful weapons than those dropped on Japan or at Bikini, announced it outright yesterday in its fifth semi-annual report to Congress.

And it said "further developments are now in progress."

It related for the first time that the three weapons tested at Eniwetok atoll last spring demonstrated "a substantial gain in (explosive) energy release" over previous models.

Chairman David Lilienthal made it clear at a news conference that "as used in this report" the term atomic weapon means "bomb."

But he declined comment when asked whether the United States is seeking to obtain atomic weapons other than bombs.

Reporting an "expansion and improvement all along the atomic energy development chain from the mines to the ultimate use made of fissionable material," the commission said:

"By the year's end the United States atomic energy program had attained a momentum which, if sustained, the commission believes will maintain and increase the nation's lead in atomic energy development."

And the commission hinted at details undisclosed in the report, commenting:

"(The report) is prepared against a background of world affairs which makes it necessary for the American people to maintain self-imposed restraints on the dissemination of a vast amount of data acquired since the beginning of the atomic energy enterprise in 1939."

Lilienthal noted that the report contained considerable information, thus marking a "turning point" in the problem of balancing security against the need to inform the people.

If secrecy were carried to extremes, he said, it "could actually blacken out Democracy."

The report said the commission has been cooperating with defense officials "in taking measures to assure a maximum state of readiness in the field of atomic weapons" to the armed forces whenever necessary.

Lilienthal said he knew of no recent request from the military for custody of atomic weapons. He also asserted that "very few people in the commission and in the military know the number of weapons in the stockpile."

Mexico Outlaws Militant Pro-Catholic Party

MEXICO CITY, Feb. 1.—(AP)—Mexico Saturday outlawed the militant pro-Catholic Sinarquista Party, Fuerza Popular.

An official report by the Interior Department said the party was undemocratic, seditious and a threat to public order.

The Sinarquistas organized in the 1930's and are particularly strong in the more backward rural areas. In early pre-war days they openly praised the regimes of Hitler, Mussolini and Generalissimo Franco of Spain. At the outbreak of the war they claimed to have 1,000,000 members.

They teamed with the Conservative Accion Nacional Party to oppose President Miguel Aleman in the 1946 elections.

They organized along military lines with the leaders calling themselves "chiefs," and the members calling themselves "soldiers."

In accordance with a new election law they reorganized into a national party, Fuerza Popular, and registered with the government. The registration now has been canceled by the government.
