BECAME PERJURERS TO ESCAPE INDICTMENTS.

Witnesses in Kribs-Smith Case Hurt Government—Attorney for Defense Arrested.

PORTLAND, Or., April 21.—Angered by constant repudiation of former statements and affidavits by the witnesses upon whom the Government has relied for information as to the ramifications of the alleged conspiracy by which it is charged that C. A. Smith and Frederick A. Kribs of the Lane-Lane Lumber Company, illegally acquired a large acreage of timber land near Sweet Home, Linn county, District Attorney McCourt yesterday pounced his hand at Attorney C. E. Jamison and accused him of attempting to intimidate witnesses. Jamison made no denial, though his connection with the case appeared to surprise other attorneys for the defense.

The prosecutor followed with another statement that William J. Burns, the Secret Service detective, who gathered many of the affidavits, is enroute to Portland to aid in recovering title to the lands.

It is conceded by the United States Attorney that in order to regain the lands for the Government he must show a conspiracy, and that the first step is the necessity of showing an agreement to turn the land over to some other person.

Witness Admits Perjury.

In the first investigation the evidence was gathered by Special Agent Burns in the form of affidavits. In many instances the witnesses have testified that they then swore to false statements in order to escape indictment by the grand jury then in session. E. H. Wagner was among those who said that he was endeavoring to escape indictment by telling Burns that there was a conspiracy to sell the land before they were filed upon. Thomas H. Wilson, Edward Fabre, Henry Barker and Neal Dozier gave similar testimony.

In an attempt to counteract the character of evidence the Government prosecutor endeavored in the afternoon to substitute the Burns affidavits for evidence which might be given by witnesses then in the court room. The effort failed.

McCourt announced a change in programme at the opening of court and called as his first witness Thomas H. Wilson, of Salem. The witness admitted that he was one of the men who went to Roseburg with McKinley to homestead timber land claims, that he did not advertise the final proofs or have anything to do with the payments made for the land. Wilson said that after making the final proofs McKinley paid him $75 for nightly mortgages and also $600, and that a deed was signed some months later. The deed was witnessed by John H. Shupe of Roseburg never. Wilson said he signed an affidavit before Special Agent Sheridan without reading it and in the form he special agent prepared. The witness never knew to whom he deeded the land.

On cross examination Mr. Wilson admitted that he had never made

DAY OF DOSS AND PARTY RULE IS OVER.

NEW YORK, April 20.—"Democracy in America is ended," declared Richard Croker today, just before sailing for Ireland. "The people are weary of party rule. They are disenchanted with it results. The day is coming when the well meaning people that may be formed will select the best candidates they can. Then the voters will select freely from all tickets.

"There will still be Democratic and Republican in name, but very little the parties will differ in name only.

"The time is gone when Americans will call on man to act and leave everything to his discretion. The people are going to do their own thinking pretty soon.

Croker insists that he is out of politics. His interest in affairs, he says, is that of a man who has passed the zenith and is left an interested spectator.

He predicts that the next House of Representatives and the next President will be Democratic.

"Bryan is a good mayor," he continued. "A man with his positive convictions of what the city needs is fit to occupy the position and he is sure to be called to higher duties.

"One deduction can be drawn from the election in Rochester. Rule in Indiana is welcome to the Democrats because the Republican tariff is responsible for the high cost of living and the people know it."

Saved From the Grave.

"I had about given up hope after nearly four years of suffering from a severe lung trouble," writes Mrs. M. J. Fox of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do my work, but Dr. King's New Discovery has made me feel like a new person. It is the best medicine made for throat and lungs." Obstinate coughs, stubborn colds, hay fever, la grippe, asthma, croup, bronchitis and hemorrhages, soreness and wheezing cough yield quickly to this wonderful medicine. Try it. 50c and $1.00. Trial bottle free. Guaranteed by all druggists.

NOTICE OF SEWER CONSTRUCTION.

Notice is hereby given that on the 11th day of April, 1910, the Common Council of the City of Roseburg, adopted the following resolution:

"Be it resolved by the Common Council of the City of Roseburg, Oregon, That it is necessary and expedient to construct a twenty-four inch (24) inch sewer to said City of Roseburg, Oregon, beginning at a point in the west line of Jackson street and running thence to the east bank of the South Umpqua River, as shown by the plans and specifications of the City Engineer filed in the office of the City Recorder, on the 11th day of August, 1909.

"That the Common Council of the City of Roseburg hereby declares its intention and purpose to construct said sewer in accordance with the plans and specifications of the City Engineer filed in the office of the City Recorder as aforesaid, which plans and specifications and estimate of the probable cost are hereby approved and adopted, and to assess the cost thereof to the property especially benefited thereby, except that the City of Roseburg shall pay 10 per cent of the assessment against each respective lot, lots or parcels of land for the construction of said sewer, to be allowed the owner thereof who shall grant unto the City of Roseburg a right of way for said sewer pipe line. That said estimated cost is the sum of $388.3.

Now, therefore, the owner or owners of any property to be affected by said proposed sewer are hereby notified to file their written remonstrances, if any, against said construction with the Recorder within twenty (20) days from the date of the first publication of this notice, which is April 12, 1910, which said remonstrances, if any, will be considered by the Council before any order is made authorizing the construction of said sewer.

Dated this 12th day of April, 1910.

$2,500,000 BOND ISSUE FOR IMPROVING HARBOR.

LOS ANGELES, April 20.—By a ratio of 12 to 1, according to the count revised today, Los Angeles voted to expend $2,500,000 for harbor improvements and the construction of power stations along the municipal aqueduct at yesterday's bond election.

Three million of the money realized from the sale of the bond will be devoted to the improvement of the municipal harbor at San Pedro. The remaining $2,500,000 will be used to construct the power stations.

The city engineer office will be busy today in drawing of plans for the power stations along the Owens river aqueduct. The execution of these plans will follow the sale of the bonds. The result of the election will be canvassed so that there will be no delay in their disposal.

The foundation for the Los Angeles harbor was laid by the United States Government by the construction of the San Pedro jetty. The Government has demonstrated conclusively that the policy is to improve the harbor if the city should own and improve its docks.

Lacking municipal docks, the Los Angeles harbor has been doing a business of 2,000,000 ton annually, as compared to San Francisco's annual business of from 5,000,000 to 7,000,000 tons, the difference due to the help to commerce given by San Francisco's public-owned wharves facilities.

It is estimated that the construction of municipal docks at San Pedro will double the Los Angeles shipping and will add hundreds of thousands of dollars to the money now spent here every year for ship supplies.

Backed by the Government of the United States, Los Angeles has now provision for 21 miles of deep water frontage, all improved through Federal appropriations during the past year.

The Demon of the Air

is the germ in la grippe, that, breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of grip. If suffering in this way, Only 50c. Perfect satisfaction guaranteed by all druggists.

PINCHOT IS LOADED FOR SECRETARY BALLINGER.

LONDON, April 20.—Gifford Pinchot, ousted chief forester, has something interesting to say to the American people according to an announcement today. Pinchot arrived here last evening. He and several companions with Theodore Roosevelt in Italy, was transferred in Paris to a special train and in mesaage he refused to reveal what he declares that event in revealed the United States is about ready for something important to say.

"We are now at the beginning of a great conflict in the United States," he said. "I do not want to talk subject now. There will be ample opportunity to tell what I think to the people."

Pinchot is expected to reach London on April 25, by Bernard Fanniere. The date for his departure for America has not been set.

RAISIN DAY, APRIL 30, 1910.

The above date has been set apart as an annual event by the people of California to which all are asked to join by eating raisins in the form of "Raisin Bread," or in any form that may be desired. The object of this special day is to create a widespread raisin sentiment that will result in a greater demand for this great raisin and to direct the attention of all good housewives to the excellence of the raisin as an article of food. The good people of the Northwest are invited to their participation in the pleasant exercises and "treat" raisin bread on April 30th. aw1t

Hawaiian Pineapple
Eat pineapple. It's Good for you.
Preferred Stock Canned Goods
Are Packed Wherever the best are grown.
That is the secret of their exquisite flavor. Preferred Stock Pineapple, for instance, is grown, ripened and canned all under the sunny skies of Hawaii. Pineapples brought to this country and then canned must be picked before they ripe or they won't keep—and the flavor is not. Hawaiian Pineapple is the best grown. Every morning, the ripest fruit to their "prime best" are gathered, taken into the cannery, cleaned, sliced, peeled and cored by special cutters operated by bright, lithe Hawaiian girls. All the tough, fibrous center is removed, and the sun-ripened slices from the best part of the pineapple are then packed into Preferred Stock cans.
Try PREFERRED STOCK Pineapple—a royal dessert—ready to serve.
