COLONIAL PIPELESS FURNACE

Many homes in Roseburg are being heated by this Oregonian furnace, and every user is booster. Burns coal or wood. Takes 24-inch wood, which fits long fire box, covers the complete grate, and will not hang up fire pot, which means cheap fuel and less trips to the basement to attend furnace. Will burn wood more economically with less attention and more satisfaction to user than any round fire pot made. We sate, install and guarantee these furnaces. Let us look at your house and give you an estimate. We can install pipe furnaces in houses where arrangement makes a pipeless one impractical. Two substantial reductions since Feb. 1st.

ASKED TO RULE ON THE VALUE OF WINE

(International News Service).

SANTA ROSA, Cal., June 16—Question of how much wine is under prohibition may soon be settled.

Suits were being taken today preparatory to the filing of recovery suits against Sonoma County for taxes collected on wine during the five years.

There are 2,000,000 gallons of wine in Sonoma County vaults. When it was assessed at twenty cents a gallon. In 1921, on the ground that prohibition has made it valuable, it was assessed at $1 per gallon.

The wine remained in the vaults and no means has been found for its legal disposal.

This year it was assessed at one dollar gallon.

The wine grower will seek to recover all of the taxes paid on the ground that with the advent of prohibition it completely lost its value as property.

(By Associated Press.)

PORTLAND, June 16—Miss Alice Robertson, Oklahoma congresswoman, arrived today as the guest of honor at the Rose Festival, which opens next Tuesday. She came as the representative of President Harding. She will address a mass meeting of Oregon women next Wednesday. In an interview she gave her views on current political questions and said that she did not favor a women's party, but urged the women to enter the party. Says World is Too Busy.

Viscount Kato of Japan is not only a nobleman; he is a philosopher. As evidence of this fact listen to a remark attributed to him by a traveler recently returned from Japan:

"What's the matter, anyhow, with the world?" the traveler asked in the course of a conversation.

"Too many events," said the viscount.

This, we submit, is a rich distillation from oriental thought. Isn't part of the trouble that we are bestirring ourselves too frantically for our own good, and running around in circles, and getting in one another's way, and starting things we can't finish—instead of waiting in patience until Nature re-asserts itself and the world regains its health?—The Nation's Business.
