DAIRY MEN & FARMERS

Here is a *Cream Separator*

That Is a Time Saver, Labor Saver, A Money Maker—Look it over.

J. F. Barker & Co
Farm Implements, Vehicles, Machinery.

NATIONAL CREAM SEPARATOR

Seven hundred million dollars is the value placed on dairy products by the Federal census for one year, and it is a matter of record that more money is made from dairy cows than from any other source on the farm. Cream separators have made this possible by the great saving in time and labor and the great increase of marketable product. Which has not a separator can't afford to be without one. Which will handle with more "intelligent" ease and will produce cream of the finest density. The Lister stands at the top now, and the National has set the pace, while other makes have come and go. These facts are regarding cleaning and the best parts the cog wheels. To appreciate the value of this separator you must see it. It is now on display at the J. F. Barker & Company store, in Roseburg. It is to every dairyman's interest to see it.
