OPENING SESSION—Ambassador Alexis Johnson (right) shown as he conferred for 45 minutes with Red Chinese envoy Wang Ping-nan at opening session of talks on reducing Far East tension. Johnson planned to start talks by discussing 11 American Airmen and 40 other American civilians held by Red China, but an hour before meeting began, Red China announced Airmen were freed.

Salk Polio Vaccine About As Good As That Used For Whooping Cough, Report

By FRANK CAREY

WASHINGTON (AP) — According to the 1954 field trials, the Salk polio vaccine is about as good as that for whooping cough, a Public Health Service doctor said today.

It isn't quite as effective as smallpox vaccine and diptheria toxoid.

But Dr. Joseph Bell, who made the comparisons, hastened to add that "this is the first polio vaccine and we can expect that an improved vaccine will eventually be developed."

Dr. Bell is chief epidemologist of the National Institute of Health.

He made the comparison on the basis of the report from last summer's field trials saying the Salk vaccine was 60 to 90 per cent effective in preventing paralytic polio.

He said it is still too early to draw any conclusions about the efficacy of the vaccine on the basis of its use during the present summer.

Furthermore, he said, it is not yet known how long whatever degree of protection is afforded by the polio vaccine will last beyond the first year.

Concerning other inoculations commonly given children, Dr. Bell said:

1. Smallpox vaccine: "I don't know of any case where, after a successful 'take' of smallpox vaccine, the vaccinated person has gone down with the disease within the first year after vaccination.

"However, smallpox immunity wanes with time and varies with individuals. It is estimated that more than 50 per cent of people will have lost substantial protection by five to ten years after the original vaccination, and therefore they should be revaccinated."

He declared, though, that "because of the adequacy of the vaccination program, very little smallpox occurs in this country."

2. Diphtheria toxoid: In general he said, this material appears to afford protection to "well over 90 per cent" of children, at least for the first year following inoculation.

3. Whooping cough vaccine. The evidence is, he said, that this vaccine protects about 75 per cent of those inoculated with it, at least for the first year.

He said he knew of no instance where smallpox or whooping cough vaccines or diphtheria toxoid caused any one of those diseases in inoculated persons.

Oregon's Unemployment Declines During July

SALEM (AP) — Oregon's unemployment dropped last month to 20,200 persons, lowest point in almost two years, the State Unemployment Compensation Commission said.

Payments to the unemployed dropped to $533,820, lowest July total since 1952.

The jobless total was 2,200 less than the preceding month, and 14,700 fewer than a year ago.

Fifty-six per cent of the unemployed are in the Portland area.

The payments were down 47 per cent from a year ago.

Make-It-Yourself Paris Fashions Announced Plans

PARIS (AP) — Do you long for the latest Paris fashion creation without spending a fortune?

Soon you can make it yourself, if a new French-American idea works. For the modest sum of $15 to $20 you may be able to order a Paris package containing a ready-cut dress of French fabrics, complete with trimmings and Paris label, "Gaston de Paris."

The do-it-yourself plan is the brainchild of French designer Serge Kogan and American "angel" Philip Gelb. The two held their first collection of "pre-cuts" in Maxim's swank restaurant.

While guests drank champagne and ate their way through the menu, mannequins squeezed between the tables and a seamstress in a corner stitched up a coat, to show how quick and easy it could be.

Gelb, who has worked in France for 10 years, was a New York industrial and theatrical designer before coming to France 10 years ago. He has lately managed a blouse and accessory export business.

Space Traveling Will Be Easy In 50 Years

COPENHAGEN, Denmark (AP) — Traveling through space 50 years from now will be easy—"just like changing trains at Times Square."

A scientist at the International Astronautical Congress made that prediction here and explained how it will be done:

"First, we establish manned space stations above the earth. That will be easy. Then rocket ships designed to push through the earth's atmosphere land on the space station which is travelling around the earth at 15,625 miles an hour.

"The rocket ship, besides carrying passengers in specially designed suits, will carry prefabricated space ship parts and the space ship will be assembled near the space station.

"The passengers get off the rocket ship and into the assembled space ship, which will take off at the same speed as the whirling space station. It will be the same thing coming back."

Sweden Irritated Over Visits By Foreign Subs

STOCKHOLM, Sweden (AP) — Irritation is mounting in Sweden over recent frequent visits by unknown foreign submarines to Swedish coastal waters in the Baltic.

Swedish officials have suggested privately that the mysterious submarines could only belong to Russia, which keeps the major part of its more than 300 submarines in the Baltic.

Observers noted that the visits coincide with fresh indications that Russia is placing increased stress on submarines armed with atomic torpedoes and guided missiles in an "atomic age revision" of her naval construction program.

CONSCIENTIOUS

SALEM (AP) — A group of conscientious employes of the state motor vehicle department took an alarm clock to the capitol coffee shop Thursday afternoon.

When the alarm went off, they knew their 15-minute coffee break was over.

Lookingglass Visitor Leaves For Washington

Mrs. Hayward Hansell of Washington D.C. left recently after a 10-day visit at the home of her parents, Mr. and Mrs. O. G. Rogers. Mrs. Hansell was accompanied by her son, Dennett, who will remain with his grandparents for an additional two weeks.

Mrs. Hansell is the wife of Maj. General Hansell of the U.S. Air Force, who since his retirement recently, is serving as a consulting engineer for the General Electric Co. Mrs. Hansell and Mrs. Rogers were taken to Eugene by the latter's daughter, Mrs. Durnwood Owen (Virginia).

The group visited Mr. and Mrs. Ovid Rogers through the day after which Mrs. Hansell boarded the West Coast plane for Portland and then went to Washington by United Air Lines.

Returns From Trip

Mrs. John Mathis returned recently from a two-week trip which included a visit with her children in Portland. She went to Emmett, Idaho, to visit her mother then proceeded to Klamath Falls where she visited a daughter and her family, Mrs. Yundt, another daughter living in Roseburg, drove to Klamath Falls Sunday to bring her mother home.

The Misses Lorna, Ruby Ann and Martha Kay Vance spent the weekend visiting relatives in Portland.

Mr. and Mrs. Elton Grass and daughter, Nancy, Nadine and Marilyn, went to Yoncalla to visit friends and to attend the services of the Methodist Church there. They were accompanied by Patsy Elliott.

Guests in the home of Mr. and Mrs. George Marsh recently included the latter's mother, Mrs. Lewis Dowd, of Athena, and her brother, Cecil Clemmons, and children, Martha Ann, Stephen and Geoffrey, of Berkeley, Calif.

ACTOR SUED AGAIN

LOS ANGELES, (AP) — Actor Sonny Tufts, who has twice been sued by women who claimed he bit them, has been named defendant in a $10,000 damage complaint filed by Mrs. Adrienne Formar, 22. She said Tufts insisted on sitting at a restaurant table occupied by her and her mother, and that when she objected he mauled and pinched her.

LESSON TAUGHT

ATLANTA (AP) — Alice Montgomery, 15, of Thomaston, Ga., was baby sitting and teaching her young charges the alphabet via plastic blocks. She sneezed with an A in her mouth and it lodged in her windpipe.

Doctors here retrieived it but Alice now has her doubts about combining education and baby sitting.
