"I knew him when he was a boy"

What one is there of us that has not felt the glow of satisfaction over the outstanding success of a life-long friend! Often a surprise—seemingly "all of a sudden." Yet neither surprising nor sudden, when you stop to think back over each step of his progress.

THE United States Rubber Company—makers of U. S. Royal Cords—were first to conceive, make and announce the *balanced tire*. A tire in which there is such complete unity of action in tread and carcass that neither will give way before the other.

First to conceive, make and announce a *complete line* of tires—a tire for every need of price and use under one *standard of quality*.

First to tell the public about the good and bad in tire-retailing. (You remember the phrase "Go to a legitimate dealer and get a legitimate tire.")

First also to arouse industrial and trade minds to the need of a *new kind* of tire competition. (Competition for better and better values. Greater and greater public confidence.)

* * *

THESE high spots along the U. S. road to leadership indicate the *intent*—the will to win by the *quality route* in a price market.

Now that so many car-owners have given their verdict for quality tires in general, and U. S. Tires in particular—a number of dealers and car-owners whose vision has been clouded by "discounts," "sales" and what not, are beginning to remember that they "knew him when he was a boy."

IF JAW TWISTED FIX IT, SAYS DENTIST

(International News Service Staff Correspondent.)

CHICAGO, Sept. 13.—Do you feel yourself to be a leader of men but never seem to get an opportunity to show that you can lead?

Go to a dentist, have him change your jaw, and you'll be given the opportunity, is the latest scientific "dope," on the authority of Dr. George N. West, of the public health service committee of the Chicago Dental Society.

Too many men have gone through life as failures, in the opinion of Dr. West, because of a misformed jaw, a crooked mouth or protruding teeth.

Cause of Failures.

Many a brilliant man or woman, in the doctor's opinion, because of the misfortune of a slack jaw has failed to gain the confidence of friends, employers or associates.

"On the other hand, how about this fellow with the bulldog jaw?" said Dr. West. See his crooked canines? Would you hire him as a bank clerk? You would not, and yet he may be as honest as the day is long. It's his jaw!

"And this fellow here—he whom you call chinless and therefore believe to be brainless. He may have more brains than some others, but his protruding teeth give him that vapid appearance.

"The world judges one by his looks, and if his teeth make his looks sneering, savage, or foolish it classifies him that way, and will have a difficult battle in getting out of that classification.

Guard Children's Mouths.

"If, especially, children's teeth and jaws were cared for while they were still young, the coming generation would be freed of many of the handicaps that are holding down many a good man and woman today.

"You see a man whose lips are twisted in an ugly snarl and who, when he smiles at you, really only snarls the more. You would not want him as a friend, and yet he may be the most pleasant person in the world, and the snarl may be only a facial disfigurement caused by the failure of his upper and lower molars to cooperate."

The modern dentist, said Dr. West, can remedy a great many defects in the appearance of the jaw.

Marriage Is Declared Void

The marriage of Ethel Stubbs to Richard Stubbs was annulled today by order of the circuit court, after hearing Mrs. Stubb's application for annulment on the grounds that the marriage occurred before sufficient time had elapsed following Mr. Stubb's divorce from his first wife. Mr. Stubbs failed to wait the required six months before being married the second time and after learning this wife number two filed suit for annullment. The case came up for hearing today and Judge Hamilton after taking the evidence and testimony into consideration declared the marriage void. Mrs. Stubbs was represented in court by her attorney, John T. Long.

Suicide Due to Poor Health

SALEM, Sept. 13.—Ill health, resulting from injuries received a short time ago when he was attacked by a bull and possible grieving over the death of his wife, who died May 28 from injuries received the evening before when an automobile gasoline tank exploded, are believed to be the reasons why Milford Harvey, aged, living near Zena, Polk county, Crawford, a farmer, 36 years ty, committed suicide at his home this morning about 8:30 by shooting himself in the head with a 1-guge shotgun. No message was left stating the actual reasons for the act.

George H. Crawford, father of the deceased, is said to have heard the shot and as soon as he saw what had happened he reported the case by telephone to Coroner Chapman. It is understood that the coroner after investigating the case reported that no inquest would be held. The body is now at the Rigdon Mortuary. Funeral announcements will be announced later.

Mrs. Crawford's death resulted when Mr. Crawford with a blow torch endeavored to thaw some mechanism under the automobile which had frozen and in some way the flames ignited the gasoline, with the explosion following. She lived but about 12 hours.

Judging from the mangled condition of Mr. Crawford's face and the back of his head it appears like he had the muzzle of the gun against his head. His face was torn beyond all recognition. Besides his father, who was living with him near Zena, the deceased is survived by three brothers, Edger C., William M., and S. D., all of Salem, and a baby girl who was born a short time before Mrs. Crawford's death.

Auto Manufacturers Donate Parks to State

DETROIT, Sept. 13.—Candidly acknowledging its own substantial contribution to the flood of motor cars which the automobile industry has turned loose on the highways of Michigan, causing a serious congestion of the few remaining open parks and bathing beaches within 50 miles of Detroit, Dodge Brothers, inc., has bought up 11 of the finest park sites in the lake district north of here and donated them to the state.

The purpose of the donation is to provide a memorial to the late John F. and Horace E. Dodge and to "give motorists places where they may have their picnics, games and bathing without being constantly driven from pillar to post by indignant owners or private property."

Ten of the 11 parks have large lake or river frontage and the other is a rugged, almost mountainous parcel noted for its beautifull scenery. The parks will be known as Dodge Brothers State Parks No. 1, 2, ect.

In a letter to Governor Alex J. Groesbeck, formally presenting the parks to the state, Chairman Howard B. Bloomer of the board of directors of Dodge Brothers, intimates that he would like to see other automobile manufacturers follow Dodge Brothers example and do something to provide outdoor recreation for motorists. Under present conditions, he says, it is almost impossible for the man who does not own a summer home to find a suitable place to spend the week-end.

"Both John F. Dodge and Horace E. Dodge were lovers of the great outdoors. Had they lived to see the growing need of outdoor accommodations for the motorists who have no summer homes to which they can drive with their families for the week-end, they would have personally provided for such accommodations, without doubt. Therefore the Board of Directors feels that it can establish no finer memorial for these two men than to provide a system of parks which will give health and happiness for all time to thousands of workmen from Detroit and vicinity in whom John F. Dodge and Horace E. Dodge were so intensely interested and to whose welfare they always devoted so much of their time and resources.

The properties presented consist of 22 acres at Island Lake, Livingston county; 26 acres at Walled Lake, Oakland county; 13 acres at Crescent Lake, Oakland county; 30 acres at Cass Lake, Oakland county; 80 acres at Reed Lake, Oakland county; 35 acres in Township of Southfield, Oakland county; 50 acres on Clinton river, Macomb county; 30 acres front on Huron river in Monroe county near Rockwood; 78 acres on Elizabeth Lake Oakland county; 240 acres on Horseshoe Lake, Oakland county.

The gift has been formally accepted by the governor on behalf of the people of Michigan, who, in his letter of acceptance, paid a high tribute to the memory of John F. Dodge and Horace E. Dodge.

R. V. Klein, justice of the peace and resident engineer at Reedsport, arrived in Roseburg last night and spent several hours today conferring with the roadmaster and the county court concerning road matters in the lower Umpqua district. Mr. Klein was the county's engineer on the grade work of the lower section of the Roseburg-Reedsport highway. He went to Portland this afternoon to spend a few days there attending to business matters.

Carnagie

Said:—

"Business can be carried on best in a happy and contented atmosphere." He was referring only to working conditions, but we carry the same idea on to include our customers. If a person goes away thinking, "Well I had to have it, but that is a —— of a price," their goodwill would not be worth much to a business. If, on the other hand, a person is absolutely sure that they have bought at a fair and reasonable price, their goodwill and the advertising they give a business is worth a lot of money. We want you to be absolutely sure. If at any time you think you are not getting your goods at a fair price we are perfectly willing to show you what they cost us. We will feel that you are doing us a favor to let us remove that doubt from your mind. We must take a reasonable profit in order to stay in business and grow as a healthy business should, but it is not enough for us to be ashamed of.

See us first, we can save you money.

Few Horsedrawn Vehicles Found

SALEM, Sept. 13.—For every horsedrawn vehicle passing over the state highways of Oregon 30 motor propelled vehicles chug their way along over these same thoroughfares. Of these 30 motor propelled vehicles 24 are automobiles, the remaining six being trucks of various capacities. Motorcycles, a traffic census conducted by the state highway commission on August 17 show, are a comparative negligible quantity there being only one of these vehicles to every three and one-half horse drawn vehicles.

The August count of the highway department, which was taken at 139 points of observation on 30 of the principal state highways, totalled 57,580 vehicles of every description. Of those 1688 were horsedrawn, 528 motorcycles, 36,971 Oregon automobiles, 11,537 foreign automobiles, 3775 light trucks and 2790 heavy trucks.

Have you heard the news? It is printed daily in the Roseburg News-Review.

LETON ALL DOLLED UP FOR BIG ROUND-UP

DLETON, Sept. 13.—Pendle-n Round-Up dress.

itizens have discarded the so-re of the humdrum business and are gay in the fancy vests hirts and broad-brimmed som-of the cowboy. Local busi-ouses are showing cards pro-g that their employes are "100 per cent for the Round-

s the "biggest little city in the lacking in gala attire. Street ions are being put in place and blored banners and pennants are g in the clear air of September. he Round-Up grounds the shiny-l racers are daily being put h their paces. They have won s on tracks throughout the Unit-ates and give promise of some less races at this year's show. can steers a-plenty are ready, and rs as well.

re is a coyness in the eyes of emucca and Hatfoot, two of the st buckers, that presages ill for -be riders. Both are acclaimed e cowboys as a "coupla wild and have already spilled a score of horsemen in the try-outs.

Besides the usual world championship bucking contest, there will this year be a Northwest championship as well. In this, only residents of Oregon, Washington and Idaho may compete and no one who has ever been in the semi-finals at the Round-Up is eligible.

An innovation this year will be the "cowboys' milking contest." For this, each cowboy is allowed a helper and must rope a cow, milk into a bottle enough milk so that the fluid can be poured from it, and ride with the bottle to the judges' stand. The cows are not to be "busted," but roped by horns, half head or neck.

A marriaeg license was issued yesterday to Calvert T. Applegate and Blanche Slater, of Yoncalla.
