If I Were a Farmer

If I were a farmer I would keep at hand a few reliable medicines for minor ailments that are not so serious as to require the attention of a physician, such as Chamberlain's Colic and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds and croup.

Chamberlain's Liniment for sprains, bruises and rheumatic pains.

Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow.—Adv.

A WANT AD will do it.

580 Acres For $7500.00

100 acres in good state of cultivation.
60 acres more adjoining can be broken out.
Balance is all fine bunch grass pasture.
Small creek running through one corner; several springs; small, nearly new, house; on a main road; 3 miles from shipping station; 2 miles from school; all fenced and cross-fenced.

This is only $12.00 per acre, just a fair price for pasture land. The tillable land on this tract will yield as much per acre as the land in the valley that is now selling at $150 per acre.

This is one of the best and cheapest propositions we have ever handled. There is a mortgage on the property now for $3500, which can be assumed and the owner must have a good substantial cash payment for his equity.

SECURITY LAND AND SAVINGS COMPANY

COLLEGES RETAIN MILITARY ANGLE IN SCOUTMASTER TRAINING

Universal military training, may or may not be a part of our national policy in years to come, still America finds it hard to get clear away from the military spirit which has ruled for a year and a half. Prof. Elbert K. Fretwell of Columbia University, has started a training school for Scout Masters of the Boy Scouts of America. This movement is to be universal with all large schools. Boy scout activities are first steps in military training. Photo shows Fretwell training his first squad of recruits.

California Man Gains 18 Pounds

Smith Feels Like New Man Since Taking Tanlac—Suffered Thirty Years

One of the strongest and most convincing evidences of the popularity of Tanlac throughout America is the large number of letters that are being received daily from well known men and women, telling of the remarkable results they have derived from its use.

Among the many received in the past few days is one from John Smith, 313 Eighth Street, Richmond, Calif., which is especially interesting. Mr. Smith states that he had suffered for twenty years, with his stomach, liver and kidneys, and had reached the point where he wished each breath would be the last. He also says that when he began taking Tanlac he weighed only one hundred and forty-eight pounds, but that he now weighs one hundred and sixty-six—making a gain of eighteen pounds—and that he feels like a new man. Following is his letter in full:

"To whom it may concern: I, the undersigned, can truthfully say that the wonderful medicine known as Tanlac has done more for me in thirty days' time, than any other medicine I have ever taken before in all my life. I have been a sufferer from stomach, liver and kidney troubles for twenty years. I have taken six bottles of Tanlac, and today I feel like a new man.

"Before I started using Tanlac it didn't make any difference what I would eat or drink, it distressed me so much that I wished the next breath would be my last. Also when I started taking this wonderful medicine, I only weighed one hundred and forty-eight pounds. Today I weigh one hundred and sixty-six pounds—have gained eighteen pounds already—and am still gaining. Also before taking Tanlac I couldn't sleep either night or day, but now I average about nine hours steady sleep and I have an appetite like a horse. I am now fifty years of age and I can't praise Tanlac too much for what it has done for me."

Tanlac is sold in La Grande by Silverthorn and Richardson Drug stores; in Union by L. A. Wright; in North Powder by L. A. Russel and in Elgin by Scott E. Harris and in Telocaset by Telocaset Grocery Co."—Adv.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. Prof. Hermeter says: "The liver is an organ, secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloe, jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

STOCKTON, CALIF.—"For constipation, sick headache, inactive liver, I have used all kinds of medicine but I find nothing equal to Dr. Pierce's Pleasant Pellets. I have tried other things but nothing like the Pellets. I have recommended them to my friends and they also find them the best of all pills." Mrs. A. Lee Fox, 1 Sonora Place.

LIST REGIMENTS ON PATROL DUTY

Charts Show Thirteen Infantry and Eleven Artillery Organizations Not Yet Ordered Home.

WASHINGTON, April 7.—Official charts covering the homeward movement of the American expeditionary forces show that thirteen infantry and eleven artillery regiments and six machine gun battalions, all additional to the seven regular divisions comprising the army of occupation, have not yet been designated for return by General Pershing.

War department officials indicated Sunday that most of these units were being retained only temporarily and their release might be expected as the organization of the military force which is finally to represent the United States in France and Germany is determined.

Units Not Yet Released.

Divisional combat units which have not yet been released specifically by General Pershing follow:

Eight division: Eighth regiment infantry.

Thirty-second division: 57th artillery brigade; 119th, 120th and 121st artillery regiments.

Thirty-sixth division: headquarters; 71st and 72nd infantry brigades, 141st, 142nd, 143rd and 144th regiments infantry; 132nd and 133rd machine gun battalions.

Eighty-first division: headquarters; 161st and 162nd infantry brigades; 131st, 322nd, 323rd and 324th infantry; 156th artillery brigade; 316th, 317th and 318th artillery regiments; 317th and 318 machine gun battalions.

Eighty-third division: 158th artillery brigade; 322nd, 323rd and 324th artillery regiments.

Covers Convoys to June 30.

Eighty-eighth division: 175th and 176th infantry brigades; 349th, 350th, 351st and 352nd infantry regiments; 338th and 339th machine gun battalions.

Thirty-ninth division (skeletonized): 140th and 142nd artillery regiments.

None of the above units appear on which covers all convoys to June 30.

C. R. Hibbero wants to buy some good dairy cows. 4-7-3

April 10th last day to pay water rent without a penalty.

Mr. Smith, who as executive manager of the loan for Oregon had charge of the train, is a prominent banker of Portland. John P. Daly, president of the Hibernia Bank, of Portland, was chairman and auditor of the train, with O. W. Taylor, also of Portland, as vice-chairman. Mr. Taylor introduced the men who spoke from the cars to the visitors. Frank Irvine, the blind editor of the Portland Journal, was the orator of the party, but he reserved his speech until the mass meeting in the evening. E. E. Brody, publisher of the Oregon City Enterprise, was along as publicity manager. Mrs. Smith, Mrs. Brody and Mrs. Irvine all are accompanying their husbands as members of the party.

Wounded Heroes Interest Crowd.

Lieut. Ben Dorris, of Eugene, an officer of the 91st division, gave a fine address at the train just after its arrival. Lieut. Dorris was in the fighting in the Argonne forest, going seventeen days without a rest, and he is an example of the wonderful skill which has been displayed by surgeons in this last war. Lieut. Dorris was shot through the jaw in the Argonne. Whether it was a sniper's bullet or a ricocheted machine gun bullet, he said, he did not ask, and left further particulars to be imagined. One of the party told the writer that Lieut. Dorris' jaw was practically shot away by the bullet. The jaw bone was smashed into nine pieces. Seventy-three teeth were knocked out and his tongue cut. In spite of this injury and though he could neither speak nor write orders to the men under him he refused to stay with them for some time and then made his way back to the lines to report their whereabouts and have aid sent them.

The Marvel of Surgery

Medical skill fixed Lieut. Dorris up, however, so that to look at his face one could not imagine that he ever was injured as grievously as he was. The bones in the jaw were wired together, the flesh scraped from

OPPOSE PLAN

...EMENT ATTRIBUTED TO OFFI... BRITISH CAUSES COMMENT.

...e Terms Not to Go to Germany ...until They Have Been Presented to Plenary Conference.

Associated Press to The Observer: PARIS, April 10—The publication of the statement attributed to British officers, that the peace terms will not be presented to the plenary session of the peace conference until after completed to the Germans, has caused comment. The American mission declared itself as opposed to such a plan.

...again and new skin grafted on. The talk was vigorous and cheerful, however, and he presented some fine arguments for Victory loan. At the conclusion of his talk an opportunity was given the crowd to ask him questions. About the first one shot at him was "What do you think of the Y. M. C. A." If the questioner expected to hear a denunciation of

The Economical Corset

THE WAR HAS TAUGHT US THE MEANING OF TRUE ECONOMY

When the government urged conservation and economy, it recommended the buying of quality articles that would give the maximum wear.

The mistaken idea that economy meant the purchase of cheaply made articles was removed forever.

MODART CORSETS
Front Lace

are made from carefully selected, high grade materials only. MODART boning, cloth, thread, tape—all are quality materials. The boning in particular—that factor upon which the style and shape of a corset so much depends—is made especially for the Modart Company from clock spring steel—the most perfect boning ever produced. It will not rust or take a permanent bend at the waistline. Every MODART Corset gives a high degree of satisfaction in wear and shape-keeping qualities.

All MODART Corsets lace in front—because front adjustment means right adjustment. The absence of laces at the back gives form and wonderful smoothness in gown fitting.

A trial fitting convinces. You have to put on a MODART to see its style and feel its comfort. Style and comfort are not easily explained.

Make a request for a trial fitting in our corset department before planning your spring clothes
