Eisenhower Gets Full General Rank In Nomination

WASHINGTON, Feb. 11.—(AP)—President Roosevelt today nominated Lieutenant General Dwight D. Eisenhower to be a full general, coincident with Prime Minister Churchill's disclosure that allied forces opposing the axis in north Africa would be unified under Eisenhower's command.

The promotion, expected to receive prompt approval by the senate, will make Eisenhower the fourth full general in the American forces, counting General John J. Pershing, commander of the first AEF in Europe, who has been accorded that rank for life.

The others are George C. Marshall, army chief of staff, and Douglas MacArthur, in command in the Australian area.

ALLIED HEADQUARTERS IN NORTH AFRICA, Feb. 11.—(AP)—General Eisenhower, allied commander in chief in the north African theater, commented today on his new command that "I consider that I have been given the stars, so far as I know them, of Britain's military strength."

He was referring to the appointments of General Alexander to be his deputy commander in chief, Admiral Cunningham to command naval operations and Air Vice Marshal Tedder to be air commander in chief in the Mediterranean zone.

"Of course I am intensely satisfied," Eisenhower said. "It is all one battle now in Tunisia and we are fighting together in it.

"On our side we are going to throw every American soldier we can get into the fight."

The designation of such ace commanders on land and sea and in the air to assist the American commander in chief was taken here as showing the striking power the United States and Britain are aiming at Hitler's vulnerable southern defenses.

OWI's Magazine 4th Term Booster, Holman Charges

WASHINGTON, Feb. 11.—(AP)—A charge of Senator Holman that the office of war information's overseas magazine "Victory" was booming President Roosevelt for a fourth term brought a denial from OWI Director Elmer Davis as Rep. Taber (R., N. Y.) leveled a fresh attack at the publication.

Davis, replying to Holman's recent charge, asserted yesterday the magazine had "no political purpose whatsoever." Referring to an article about Mr. Roosevelt in the first issue, he said it was impossible to publish a magazine for overseas distribution without mentioning the president and added:

"You can't elect a president of the United States with votes in foreign countries."

Taber described the magazine as useless and declared its publication and distribution was "criminal." Estimating that the 950,000 copies of the first two issues represented 402 tons of shipping space, he said:

"It is a sad state of affairs, when shipping space is so short that our soldiers cannot receive a carton of cigarettes or a box of candy or the hometown newspapers from their families, but plenty of space seems to be available for such foolish publications as 'Victory'."

Furthermore, Taber said, dyes, paper and everything that goes into publication of the magazine are scarce. Davis estimated that on a bi-monthly publication basis, the magazine would use about 800,000 tons of paper stock annually.

Shoe Supplies Must Be Conserved, Public Told

Confident that citizens here will cooperate with the wartime shoe rationing program, Chairman H. A. Stark of the Roseburg war price and ration board declared that there are plenty of shoes now to take care of all civilians but these supplies must be conserved.

"All retail sales on rationed shoes were stopped from Sunday, February 7, until Tuesday morning, February 9. This freeze period allowed the dealers to sort out rationed shoes from unrationed types," Chairman Stark explained.

Any man, woman or child can now get shoes by presenting Stamp 17 in war ration book one, the same book now used for sugar and coffee. Ration stamp No. 17 will be good through June 15 for one pair of rationed shoes," Chairman Stark explained, "so there is no need for rushing to use the stamp until footwear is actually needed.
