Melons Cheaper In State Market; Eggs Unchanged

PORTLAND, Ore., July 8 (AP) —The Union avenue market of the Gardeners and Ranchers association was an unusually busy place today. Huge quantities of fruits and vegetables came in from a wide radius and were disposed of at season prices.

Products sold at the following prices:

Telephone peas 3 cents; gray peas 4; carrots $1.50; raspberries $1.75; black caps $2.50; loganberries $1.25; strawberries $1.75 to $2; new potatoes 5c; old potatoes 2c; Royal Ann cherries 10; pie cherries 5; lettuce $1; cabbage 2 cents; spinach 75 cents box; radishes 25 cents; carrots 25 cents; beets 25; green onions 15 cents; garlic 10 cents; green beans 10 to 15 cents.

Butter, eggs, poultry and fresh meats were unchanged. Private sales on the Yamhill Street market were quoting standard eggs at 38 and medium eggs at 34 cents. These were the maximum quotations. Dealers may quote below but not above these figures.

The cantaloupe outlet may be cheered by the fact that the favorite fruit is being offered at an unusually cheap price for this season. Another decline brought the product down to $1.75 to $2.50 a crate of 45 melons.

Watermelons are also cheaper at 2 and 2½ cents a pound. The market is plentifully supplied.

Lettuce was firm at the highest prices quoted in some time.

Pageant Heads for Eugene Sunset Trail

—Photos by Kennell-Ellis.

Eugene is planning a pageant of state-wide interest this year, to be known as the "Sunset Trail." It will be held three days, July 26, 27, and 28. An all-Oregon pageant and industrial parade, and other events will also be held at this time. In the photo above are, left to right, upper row: Mrs. Dora Smith, director of pageant; Col. M. Young, in charge of pioneer parade; W. F. G. Thurber, author of pageant, "Sunset Trail." Below: Robert Earl, chairman of committee; A. A. Rogers, president of association; and Hugh Hanna, manager of pageant.

CLOSING TONE IN MARKET IS STRONG TODAY

CLOSING TONE

NEW YORK, July 8 (AP) — A sight feeling of misery rather prevailed considerable profit taking on the stock market in the early transactions today, but the market strengthened by midday with vigorous bullish operations in the investment rails and some of the specialties. Early losses were reduced and practically the entire list turned upward, a wide assortment of issues reaching still higher ground territory.

Call money renewed at 7 per cent, unchanged from Friday, but soon rose to 8 as banks called loans preparatory to short midyear settlement.

Although call money mounted to 8 points before the close, U. S. Steel got above 200 for the first time in a record price of 200⅝ and some of the top-peaking steels, notably Youngstown and Newton, made substantial gains. Several industrials including Vic Chemical, Snyder Packing Preferred, Mullins, American Telephone and National Cash Register were put up 2 to 6 points in the last hour. The closing tone was strong. Total sales approximated 1,300,000 shares.

WHEAT CLOSES FIRM, HIGHER IN CHICAGO

CHICAGO, July 8 (AP) —Saints checking drought damage both north and south of the Canadian line today led to early bear prices here for wheat. The initiative relief, however, was reported as still leaving a prospect of wheat yields below the average promised. Opening at ⅛ to 1⅞ setback, wheat values later showed considerable power to rally. Corn and oats were also easier, with corn starting ⅛ to ¼c off and subsequently declining further, provisions tended to advance.

Wheat closed firm ⅛ to 1⅞c above Saturday's finish, corn ⅛ to ¾c up and oats varying from ⅛c decline to an equal advance.

Provisions unchanged to a rise of 12c.

WEEK'S CELEBRATION

MOUND BAYOU, Miss., July 8 (AP) —This Negro town of 1,500 where a jail began a week's celebration of its 42nd anniversary. It was founded in a wilderness. Now it is surrounded by cotton farms worth $32 an acre. The jail was torn down recently because it has had no occupants in two years.

The sheriff of Finney county, Kansas, rides about in an airplane. That county probably gets its law from above.

Rochester, Minn., famed as a health center, has 41 factories.

PATHFINDER STARTS HOP ACROSS SEA

(Continued from Page 1)

part on ocean hops, said he had been asked by Dr. James H. Kimball, New York meteorologist and unofficial starter of all transatlantic flights, to make readings to check certain theories.

He said he would take accurate temperature readings at hourly intervals especially in and near cloud formations.

The small commercial plane returned to the beach in a few minutes.

Yancey said they planned to land at an airfield about 15 miles south of Rome. "I am a working man and I am going out to do a day's work," Yancey said when newspaper men asked him for some statement just before the takeoff. Williams, as usual, would not comment.

The Pathfinder, a Bellanca monoplane, powered with a Wright motor, bears the insignia "NX 3787" in black on the tail and underneath the left wing. The wings and tail are painted with aluminum paint and the fuselage is a light green with the name "Pathfinder" on both sides.

As the fog lifted for a moment spectators on the beach could see the Pathfinder and its two accompanying amphibians circle, apparently in an effort to gain altitude.

Fliers Cheerful

Williams and Yancey were cheerful as they ate breakfast this morning. They laughed and chatted with Mrs. Yancey and Thea Asche, German aviatrix.

Food for the flight was put aboard the Pathfinder. It consisted of one roast chicken, three quart bottles of coffee, three quarts of water, six chocolate bars, eight oranges, six apples and a bottle of liquor.

Recalling how a Portland youth stowed away on the Yellow Bird before it hopped for France on June 11, police made a careful inspection of the interior of the Pathfinder and then stayed close by the machine, until its take-off.

A wind, with an estimated velocity of ten miles, sprang up from the south to aid the fliers in getting the heavily loaded plane off the sand.

The fliers estimated the distance to Rome at 5,700 miles and hoped to reach there in from 45 to 50 hours.

Favorable winds will aid the Rome-bound plane although some fog will be met until it is 1,600 miles out, according to Dr. Kimball. Relying on these favorable tail winds Yancey and Williams had their fuel load cut from 100 to 450 gallons just before the start.

COAST GUARD PLANE DOWN

GLOUCESTER, Mass., July 8—(AP)—The coast guard amphibian, piloted by Lieutenant Leonard P. Melka, which escorted the Old Orchard-to-Rome plane Pathfinder, about 100 miles out to sea, was believed by officials of Base 7 here to be down off Portland, Maine, tonight for gasoline supply exhausted. Coast guard vessels in the vicinity were ordered to search for her.

'CUTIS' BOWLER HOPS OFF

OTTAWA, July 8 (AP) — The amphibian airplane "Cutis" Bowler, took the air today from an undetermined point in the Hudson Bay country, continuing its flight from Chicago to Berlin.

92 ABOVE IN SALEM

SALEM, Ore., July 8 (AP) — After mounting to 92 degrees, a high mark for the summer, shortly after noon today the temperature dropped to 81 degrees with the appearance of a breeze early this afternoon.

SPURNS LUXURIES

LOS ANGELES, July 8 (AP) — Writing her husband that she can't stand expensive things Mrs. Claude Derring has forsaken the luxury he gave her and gone back to the old restaurant life. She is a waitress again. Six years after she married a railroad brakeman. Oil was found on his Wyoming homestead. He has obtained a divorce.

MAKE IT SAFE TO BE HUNGRY!

TODAY, leading medical authorities are constantly advising better care of food—earnestly urging you to adopt scientific refrigeration. For, they have discovered that perishable foods must be kept at a temperature *below* 50 degrees *always*. At higher temperatures harmful germs thrive and multiply at an alarming rate. Foods become unsafe, positively harmful.
For the sake of your family's health, investigate the new *all-steel* General Electric Refrigerator. Automatically, without the slightest attention, this refrigerator keeps foods at the scientifically correct temperature safely below 50 degrees.
There are now more than 300,000 users of General Electric Refrigerators and not one has ever spent a single dollar for repairs. This was our guarantee, justified by the remarkable reliability of our refrigerator. Put the General Electric Refrigerator on the job in your home as guardian of your family's health. Visit our display rooms and examine this refrigerator.
Let us explain these 14 superiorities
1 . . . an hermetically sealed mechanism.
2 . . . an all-steel, warp-proof cabinet.
3 . . . an accessible temperature control.
4 . . . a mechanism requiring no oiling.
5 . . . troublesome machinery eliminated.
6 . . . a new standard of quiet operation.
7 . . . on legs—broom-room underneath.
8 . . . no installation problem whatever.
9 . . . a porcelain chilling chamber.
10 . . . entire mechanism mounted on top.
11 . . . maximum food storage space.
12 . . . absolutely no radio interference.
13 . . . a two-year guarantee.
14 . . . convenient easy payments.
