# WATER AND FISH BILLS OPPOSED BY MANY GROUPS

PORTLAND, Oct. 22.—Until the last month, the water and fish bills received little attention among the initiated measures on the ballot to be submitted to the voters of the state at the coming election. Since then, opposition has been lining up against them strong and fast. It was a case of treading on too many toes and now the group in the State Game Protective association, which sponsored them, find opposition lining up on all sides.

The bills would close to all uses except fish propagation, and recreation, the Deschutes, McKenzie, Rogue and Umpqua rivers and their tributaries, with unimportant exceptions. When it was realized that this meant no water for use in irrigation, lumbering, mining, manufacturing, power and possibly for domestic use of municipalities, Bend, Redmond and Prineville in the Deschutes water shed and Eugene and her large interests on the McKenzie were aroused to place negative arguments in the Voters' Pamphlet. Later, the Chamber of Commerce of Eugene called a conference on the bills at Portland at which a league in opposition to the water and fish bills was organized.

The campaign committee of the league now lists an impressive array of representatives of powerful organizations and numerous groups have gone on record against the bills and are actively fighting them.

The State Federation of Labor passed a resolution against the bills and Ben F. Osborne, executive secretary, is a member of the campaign committee. W. G. Ide and C. A. Brodersen, Forest Grove, represent the State Chamber of Commerce on the committee.

Both the State Farmer's Union and the state grange are opposing the bills. H. C. Jackson is committeeman for the Farmer's Union and R. W. Gill for the grange.

W. P. Feif of the Eugene Water board and J. C. Stevens representing the Oregon Technical Council of American Engineers, are active members of the committee.

A. A. Smith, William Duby, and W. A. Stewart, all of Baker, represent the Baker county Chamber of Commerce and Geo. H. Flagg The Dalles-Wasco county Chamber of Commerce. Representing their various chambers of commerce are J. R. Hanny of Oregon City, D. E. Nebergall of Albany, M. A. Lynch of Redmond, Thomas Nelson of Junction City, Stanley Chapin of Reedsport, Robert L. Withrow of Fort Orford.

The executive committee consists of J. E. Shelton, president; T. J. Flippin, secretary, both of Eugene; C. C. Chapman, Portland; Dr. J. R. Vandervort, Bend, and O. S. Blanchard, Grants Pass. Frank Fay Eddy of Eugene is campaign manager.

The Portland branch of Associated Contractors and the Portland Chamber of Commerce as well as numerous local other chambers of commerce have passed resolutions against the bills. The effect of all this opposition is causing widespread interest and a much larger vote than was anticipated will probably result.

## Rheumatic Neuritis

Trunk's Prescription is designed to relieve your trouble promptly without dieting. It doesn't ruin the stomach nor depress heart. Once nerve-racked, sleepless people from torturing pain now certify to relief. Clarence Bates, Rigby, Idaho, declares: "I am well today after using Trunk's wonderful prescription." Nathan Fullerton recommends Trunk's Prescription.

### TRAFFIC MISHAPS KILL TWO; 12 IN HOSPITALS

(Associated Press Leased Wire)

PORTLAND, Ore., Oct. 22.—Two were dead and a dozen in hospitals here today as the result of week-end traffic accidents in and near Portland.

J. W. Kane, 56, Portland lumberman, and Mrs. Katherine Bracy, Portland, were killed Saturday night, while Earl Faus, Portland, and G. W. Comer, Kelso, were injured in a header crash on the Pacific highway two miles north of Toledo, Wash.

W. R. Brown

WARD THREE—
Jack E. Dent
A. G. McMillin

WARD FOUR—
W. F. Harris
S. J. Shoemaker

(Paid Adv. by above candidates.)

# BOW AND ARROWS USED KILL BIG GAME N. UMPQUA

A trio of archers, Prof. B. G. Thompson of Corvallis, and Ward Cummings and Earl L. Ullrich of Roseburg, returned yesterday evening from a trip into the Fish creek desert country, where they have been hunting with bows and arrows for big game during the past week. They succeeded in killing a large cougar and two kittens, and a lynx cat. Prof. Thompson killed the cougar, his arrow penetrating its chest, while the animal was crouched in the limb of a tree in which it had taken refuge from the dogs. Mr. Ullrich killed the two kittens, which were of quite large size. Mr. Cummings killed the lynx cat with a beautiful shot, picking it out of the top of a tree at a distance of more than 75 feet. Only one arrow was used for each animal, except a final arrow in the throat of each to provide a quick death after the animal was down.

The cougar, Mr. Ullrich says, had been preying upon goats belonging to E. H. Best, World War veteran whose efforts to establish a homestead on forest lands has resulted in a good deal of publicity.

All three of the archers have had a good deal of experience and have made several hunts in the North Umpqua district. They were accompanied by Perry Wright, well known packer and guide, whose dogs were used in locating the animals. They had hoped to be able to kill a bear and some deer, but they did not see either.

## Stomach Troubles

"There are many symptoms of ulcers of the stomach, some of which are a typical chronic pain which occurs from one to three or four hours following the meal. It is a sharp, cutting excruciating type of pain, present as soon as the stomach has emptied itself of food.

"Chemically it is usually due to a hyperacid secretion. We also find a great deal of gaseous distention, a feeling of discomfort, distress and sometimes nausea which is characteristic of this ailment." The above is an extract from editorial by Phillip M. Lovell, N. D.

PEERLESS STOMACAL REMEDY has afforded thousands of people relief from Hyperacidity of the Stomach, Gas on Stomach, Heartburn, and Gastric Distress due to Hyperacidity. On hand at W. F. Chapman's and other good druggists.

# SEEDING TESTS BY AIRPLANE TRIED IN COOS COUNTY

Seeding tests, which may result in a plan for reseeding many thousands of acres of overgrazed forest lands, have been carried on in Coos county by Harold Adams and J. F. Dillard, local Travelair dealers. Mr. Adams, the local pilot, was the first flier in the state to take a seeding contract, and was so successful in seeding a large tract in Coos county a few years ago that he was engaged for several other large jobs. In each instance the cost was reduced to more than one-half, and a far superior job was done.

Until last week, however, there had been no attempt made to seed weed and brush lands, and this new experiment is attracting a great deal of attention. Two small tracts, one of 120 acres and the other of 100 acres were selected for the experiment by F. H. Findley and the Beard estate at Coquille. The lands were brushy and overgrown with weeds. One tract had been freshly burned and the other was an old burn where there was no preparation whatsoever for the land.

The plane used for the work was equipped with a special hopper which regulates the flow of seed so that there is an even distribution. An inspector on the ground follows the plane and checks on the distribution.

It was thought that seeding by airplane would prove to expensive for small tracts of lands, but it was found that there was a 20 per cent reduction in the cost of the seed and a 50 per cent reduction in labor so that there was an actual monetary saving plus the advantage of having the work done speedily. The distribution of the seed was perfect, far more thoroughly than could have been done by hand.

The Western Oregon logging have many thousands of acres of lands that have grown up to brush and weeds with their value for pasturage destroyed because of overgrazing. If it is found that seeding from airplanes can be done successfully on such lands, without preliminary preparations, there is an opportunity for reclaiming a great deal of land that is now of little value.

### FALL RAINS SAVE LARGE WHEAT CROP IN AUSTRALIA

(Associated Press Leased Wire)

ROME, Oct. 22.—Australia's wheat area this year amounts to 13 million acres, about 22,000 more than last year, a cablegram informs the Institute of Agriculture.

This is the highest record for the country, exceeding last year's by 18.4 per cent and a five-year average by 34.6 per cent.

The crop passed the critical period of spring growth under poor conditions owing to the long drought but general rains falling at the end of September and the beginning of October came in time to avoid the serious damage threatened.

The yield, it is announced, is expected to be satisfactory.

Corn shellers for both hand and power use are sold at Wharton Bros.

### CHILD, PLAYING WITH MATCHES, BADLY BURNED

(Associated Press Leased Wire)

PORTLAND, Ore., Oct. 22.—Three-year-old Edward Vandervoorting, Forest Grove, was brought to a hospital here today suffering from severe burns. He was not expected to live. The child's clothing caught fire while he was playing with matches, it was reported at the hospital.

### STAMPED GOODS

New items and new patterns. Fine qualities at popular prices. See the big line of fancy work at Carr's.

### MUSSOLINI AIDS CHILDREN

(Associated Press Leased Wire)

ROME, Oct. 22.—Premier Mussolini has donated 100,000 lire $5,270, which he announced were his royalties from his writings for American papers and magazines to charitable works of the fascist party.

The money will be used particularly for vacation colonies of children at the seashore or in the mountains next summer.

### REWARD

$100 standing reward will be paid for anyone caught stealing or killing sheep or goats on property of Al Creason, Sunshine Ranch, Louis Kolshagen, J. H. Sucrt, J. M. Weatherford, Frank Harger and Son, T. A. Troxel, or Jones Estate.
E. J. ROHR, Treas.

### 3,500 CASES SPANISH FLU IN SAN FRANCISCO

(Associated Press Leased Wire)

SAN FRANCISCO, Oct. 22.—Dr. William C. Hassler, city health officer, today reported a severe recurrence in San Francisco of Spanish influenza, of the same type that swept the country in 1918. More than 3,500 cases, with eight deaths, have been reported within the past week, Hassler said.

### BRITISH CORNER NICKEL SURPLY AS PEACE MOVE

(Associated Press Leased Wire)

TORONTO, Ont., Oct. 22.—The Toronto Mail and Empire today published the following:

"Canadian control of international nickel, gained by a spectacular battle on the stock exchanges of Toronto, Montreal and New York, is but a part of great Britain's policy to ensure world peace by dominating the source of supply of one of the essential implements of war. While the public watched the sensational rise of nickel on the money markets, the significant move back of it all was a British fight for peace, and the results will be world-wide.

"The skirmish in the world's drama of peace was fought out on the money markets. It has been under way for several months, but all the public saw of it was the gradual rise of nickel and last week's fireworks."

## Stricken Suddenly!

Almost daily we hear of it—the story of some man, probably a friend, suddenly cut off in the prime of his usefulness, in the very prime of life. That's what heart weed pressure will do, snap off life without warning. All due to our abnormal living habits which put too great a strain upon the vital organs, especially the liver. The liver becoming weak and sluggish fails to cleanse the blood of the poisons introduced in food waste. The whole system then becomes toxic, a condition known as auto-intoxication. High blood pressure, hardening of the arteries, chronic headaches and dizzy spells are symptoms.

The liver, especially at middle life, needs a little help, and there's nothing better for this, as physicians today know, than a little oil pill. Oil pills is a great natural stimulant to the human liver, promoting its normal active functioning, so essential to health and vitality. Dodd tablets are genuine cod liver oil in dainty sugar coated form. Each tablet represents 10 drops of pure cod liver oil and costs less than 2c each. One or two days use will prove a revelation. Genuine Dodd's has picture of dog's head on package. On sale at all good druggists. Special agent Chapman's drug store.

# RICE CREEK P. T. A. IMPROVES LOOKS OF SCHOOLHOUSE

The Rice Creek P. T. A., which was recently reorganized, completed a very fine piece of work last Saturday, practically every resident of the community turning out to aid in the project. The men graded a roadway 50 feet wide by 150 feet long, and hauled gravel for it, connecting the school house with the road. This gives ample parking space, and makes a fine driveway up to the standard school which that district maintains. The ladies were also present and at noon they served a most delicious luncheon. Millard Meredith, the president of the association, outlined the project as one of the first of several improvements that are to be made in that district.

Page woven wire fencing, hinge joint, full gauge and full weight wire, highest quality galvanizing at 35c per rod at Stearns & Chenoweth, Oakland, Oregon.

### ASHLAND MAN TO EDIT STATE BUSINESS PAPER

(Associated Press Leased Wire)

PORTLAND, Ore., Oct. 22.—E. C. Harlan, former executive of the Ashland chamber of commerce, joined the state chamber of commerce today. Announcement by W. G. Ide, manager, said Harlan would have charge of the publicity service and is to edit Oregon Business, the official publication of the chamber.

Eat barbecue sandwiches and live forever. Brand's Road Stand.

### WINTER TOURISTS FLOCK COASTWARD

The winter vacation vogue, now spreading throughout the east, will materially increase travel to the Pacific coast, according to F. S. McGinnis, passenger traffic manager for Southern Pacific, who has just returned from the Atlantic seaboard.

"Continued prosperity in the eastern states," McGinnis said, "is assurance of a satisfactory winter tourist season for the entire Pacific coast. The national advertising campaign of the railroads and of California, Inc., have attracted widespread attention to California and the growing interest in the tourist attractions of Arizona and Oregon is marked.

"Of importance to the Pacific coast is the growing habit of taking vacations in the winter months. In vacations there is a distinct trend from summer to winter. California continues to be the main winter tourist attraction; but the guest ranches of southern Arizona and the national parks of the northwest also will benefit from this trend.

"During my three weeks visit in the east I found no signs of business depression, and all indications apparently are for continued prosperity."

### STUDENT ARRESTED

Ralph Clyde Heater, whose car was wrecked recently at the corner of Rose and Lane streets, at which time Miss Vernita Pickens of this city suffered minor injuries, was arrested by State Traffic Officer Thurber and arraigned today in the local justice court on a charge of driving his car on streets not included in the school permit which he held. Under the present vehicle law students between 14 and 16 years of age, who need a car for travelling long distances to school are able to secure a special permit, which enables them to travel designated roads and streets on their way to and from school. They are forbidden to drive except on their way to and from school, and are restricted to the thoroughfares between the school and their home. Heater entered a plea of guilty to the charge of driving on a non-designated street and his special permit was revoked for a period of 30 days.

### Y'SEE, IT'S THIS WAY
