WOOL

BOSTON, April 18.—(AP)—The Commercial Bulletin today says:

"There has been a little better interest shown in wools for the woolen mills but demand from the worsted mills which consume the big proportion of the wools has been negligible. Prices are steadier on the whole, for the time being.

"Shearing has been delayed in the west and there has been little activity reported thence. Some average to good French combing territory and Texas wools have been bought in the range of 80-85c, clean landed, Boston.

"The manufacturing situation is somewhat mixed. New orders are not plentiful, although deliveries on old contracts are fair.

"The foreign markets are reported a bit soft, due to buyers' resistance to the recent price advance.

"Mohair is quiet but steady."

The Bulletin publishes the following quotations:

Scoured basis:

Oregon: Fine and f. m. staple, 85-86c; fine and f. m. clothing 79-80c.

Mohair: Oregon 55-57c.

(Foreign prices in band.)
