WOMEN LEARN TO OPERATE AIRPLANES

At the West End Y. M. C. A., New York, women are now being taught the rudiments of the driving of airplanes. They are much interested in the work and are showing good progress.

POSITIONS OPEN TO WOMEN

Examinations Cover Places as Draftsmen and Marketing Experts.

New opportunities for women to serve the government are offered through Civil Service examinations to be held before January 1, 1919. These include geologic aid, assistant in the economics of marketing, assistant in market business practice, junior architectural draftsmen, architectural tracer, clerk qualified in modern languages and ordnance copyist draftsman.

The examination for geologic aid and assistant geologist, which will take place December 11-12, will be in two parts. Those who pass both parts will be eligible to appointment as assistant geologist, salaries ranging from $1200 to $1800 a year. Geologic aids receive from $75 a month, when actually employed, to $1200 a year.

Open competitive examinations for scientific assistant in the economics of marketing, December 4-5, will be held in the various states. Salaries range from $1200 to $1500 a year, with occasionally higher pay not to exceed $1800.

Applicants for junior architectural draftsman must have been graduated from a college or university and have had at least one year's experience in making working drawings or in lieu of such graduating experience, at least one additional year for each year lacking in college course. The salary is from $1200 to $1800 a year.

The United States Civil Service Commission announces an open competitive examination December 4 in many states to fill vacancies in the Bureau of Markets, Department of Agriculture, with headquarters at Washington, D. C., at entrance salaries from $1200 to $1800 a year. The duties of appointees will be to assist in conducting investigations in regard to market business practice, in demonstrating uniform systems of accounts devised by the Bureau of Markets, in examining accounting records of business establishments and in preparing material suitable for publication relating to business practice and accounting.

Junior architectural draftsmen are needed, and women are eligible for this work. Appointees will be called upon to design frame structures for cantonments to assist senior architectural draftsmen in the completion of work. Applicants must have graduated in architecture from a college or univeristy of recognized standing and have had at least one year's experience in making working drawings, or in lieu of graduation, they must have had a year's experience for each year lacking in the college course. Salaries are from $1200 to $1800 a year.

Architectural traces are employed to complete working drawings after they have been designed and carried to completion by the architect in charge of the squad, and also to do tracings of mechanical, electrical and civil engineer drawings. Applicants must have graduated from a high school or have completed a course of study equivalent to that required for such graduation. Salary is $1000 to $1200 a year.

ENROLLS EIGHT THOUSAND

Good Reports From This Locality Are Received in Portland

Union county, in a message received yesterday morning, advised state headquarters that it had enrolled 800 memberships, and presented its claim as the first county of the state to have attained success. The county has since established the war chest system of handling patriotic drives, and the Christmas membership call meant nothing more than lifting the lid of the strong-box and dipping the cream therefrom.

Chosen to capitalize the campaign in Multnomah county outside of Portland, as he has in other drives, Dr. H. C. Fixott has perfected a district organization that started strenuously to work at the tick of the opening hour.

"Multnomah county, outside of Portland covers an area approximately seven times the size of the city," said Dr. Fixott in discussing his job. "The population is scattered and, in many instances, hard to reach, but those who have been in charge of the past drives are again in the harness and expect once more to demonstrate their ability and patriotism."—Oregonian.

SPANISH INFLUENZA IS MORE DEADLY THAN WAR

Said That Epidemic Cost More Lives Than American Loss in Battle.

The appalling ravages of Spanish Influenza in this country are perhaps best realized by the statement recently made, that more deaths have resulted in little more than a month from this disease than through our whole eighteen months participation in the battles of the European war.

Our greatest danger now, declare authorities, is the great American tendency to forget easily and to believe the peril is over. Competent authorities claim the coming of cold weather is very apt to bring a return of this disease and there should be no let-up throughout the winter months of the following easily observed precautions, remembering that influenza is far easier to prevent than cure.

Influenza is a crowd disease. Avoid crowds as much as possible. Influenza germs spread when ignorant or careless persons sneeze or cough without using a handkerchief. Cover up each cough or sneeze. Do not spit on the floor, sidewalk, in street cars or public places. Avoid the use of common drinking cups and roller towels in public places. Breathe some reliable germicidal and antiseptic oil to destroy the germs that do find lodgement in your nose and throat.

Remember, no safer precaution against influenza could be employed in this manner than to get from the nearest drug store a complete Hyomei Outfit consisting of a bottle of the Pure oil of Hyomei and a little vest-pocket hard rubber inhaling device, into which a few drops of oil are poured. You should carry this inhaler about with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure, healing germ-killing air into the passage of your nose, throat and lungs.

By destroying germs before they actually begin work in your blood, you may make yourself practically immune to infection.

By destroying germs before they actually begin work in your blood, you may make yourself practically immune to infection.

All these suggestions about Spanish influenza are equally true in the prevention of colds, catarrh of nose and throat, bronchitis and even pneumonia. Don't become careless. Do your part. Keep the germs away. You may save yourself a serious illness and the loss of several weeks work.—Adv.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Musterole in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size $2.50.

MUSTEROLE

WELCOME TO MY NEW OFFICE

I have just completed moving all my abstract records and office equipment into the building one door south of the Observer office where I shall be pleased to meet all my friends and business clients. Still have money to loan, make abstracts from complete set of records, write your insurance and do a general office business. Call in and see me at my new office, 1708 Sixth street.

11-19-tf. J. R. OLIVER.

During these days of so much influenza and other seasonable complaints the people generally could keep in much better health by being thoughtful and using these simple home remedies and antiseptic washes, rather than the so much advertised patent medicines and nostrums, which is only a sly way of helping you to get rid of your money. We notice in at Silverthorn's Drug store that they are careful not to offer anything but real simple and yet effective remedies that are inexpensive and reliable.

Andy used to buy the biggest plug for the money

'till one day Barney gave him a chew of Real Gravely.

It was an hour or more before Andy said anything. "How much longer does this Gravely hold its good taste?" he says.—"Two or three little squares last me all morning," answers Barney. "This class of tobacco lasts so much longer it costs no more to chew it than ordinary plug costs."

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.
