Fat Salvage Goal For 1945 Fixed at 250 Million Lbs.

The goal of the fat salvage for 1945 is to collect 250,000,000 lbs. of used inedible household fats. This amount will supply 10 per cent of the total requirement for inedible used fat needed in making munitions, medicines, military soap, synthetic rubber, hydraulic fluids, and printing ink, states the War Food administration. This 10 per cent will help make up the deficit of fats and oils ordinarily received from other countries. The Philippines used to supply annually more than one half billion pounds of fats and oils. The East Indies were also a source. It is impossible to supply our needs for fats and oils by importing from other places, continues the War Food Administration.

It has been estimated that prior to the war at least one-half billion pounds of used fats were poured down the drain. Huge amounts of fat have been salvaged in 1944. The armed forces' kitchens cooperated by supplying more than 50 million pounds of used fats. This year, 1945, they aim to salvage even more. The homemaker supplied 170 million pounds of used fat in 1944. In this year of 1945 she has been asked to supply over twice that amount, 250 million pounds. The cooperation of every homemaker is needed if the fat salvage goal for 1945 is to be met, states Miss Doris McWhorter, war food assistant for Douglas county.

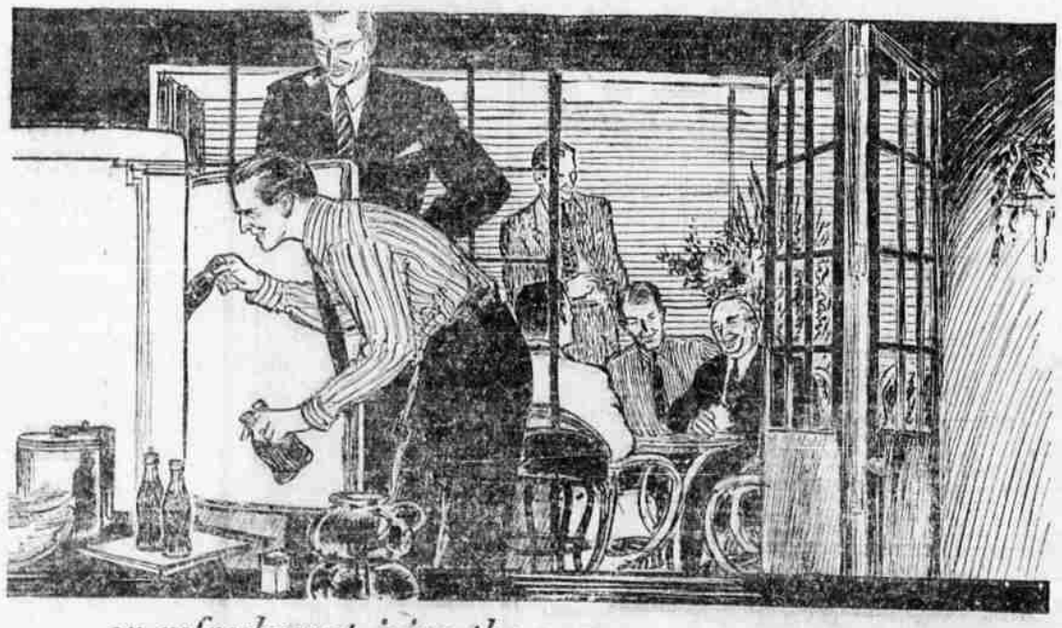
How about a breather?...Have a Coca-Cola



...or refreshment joins the game
There's one deal in the game when everybody wins. That's when the host says *Have a Coke*. Everybody welcomes the moment when refreshment joins the party. Ice-cold Coca-Cola is one of the good things of life that belongs in your family refrigerator. Next time you shop, don't forget Coca-Cola... the drink that has made *the pause that refreshes* a national custom... a friendly little moment on the sunny side of things.
