DEVELOPS NEW KIND OF FRUIT

Negro and Chinaman Develop New Fruit that is Hoped to Fill in Fruit Calendar Gap.

(By Associated Press.)

ATLANTA, Ga., Sept. 7. — Two Florida horticulturists, one a Chinese and the other a negro, have developed a new variety of fruits which the former believes is destined to fill a gap in the fruit calendar of this section, and the other to introduce a new variety of grapefruit.

Lue Gim Gong the Chinese, whose estate near DeLand is one of the show places of Central Florida, gained international prominence some years ago when he disclosed the development of a new variety of orange possessing unusual qualities, from the viewpoint of the citrus fruit grower. The orange, which was named the "Lue Gim Gong" in honor of its developer, now is produced throughout the state. In March, 1921, Lue Gim Gong announced the production of and exhibited, a grapefruit remarkable for the penetrating power of its fragrant aroma. His experiments with citrus fruits are continuing.

Hezekiah Brooks, negro gardener and fruit grower of Miami, recently announced the successful conclusion of his attempts to produce a new variety of mango. The result is destined to fill a gap in the fruit calendar of this section, because, he claims, the fruit ripens between November and January, a period during which the mango is not to be found in this market.

The Brooks' mango is similar to the Mulgoba in appearance and texture but is declared to be superior to that variety in flavor. Some experts pronounce it a cross of the Mulgoba and Sundash. Brooks has presented some of the new mangoes to Charles Deering for propagation and experiments on the Deering estate here.

PRINEVILLE TO GET PEOPLE

PRINEVILLE, Sept. 7.—A colonization scheme operating on a large scale, is being fostered in co-operation with the Oregon Development board. To organize and investigate the situation, Watson P. Davidson, president of the Oregon and Western Colonization company, with headquarters at St. Paul and Co. A. A. White, formerly associated with the Hill lines as townsite manager, were in Prineville Monday. Interested in the scheme is John L. Karnopp of Portland and president of the Bank of Prineville.

It is expected to list all lands for sale on the Ochoco to settlers on easy terms. The tracts will consist of about 100 acres at present.

That fifty or seventy-five families will be brought on to the Ochoco within the next year is the opinion of Davidson. The Oregon & Western Colonization company owning lands under the Ochoco and Warm Springs irrigation projects has agreed to let the committee in charge set the price of its lands.

With Davison and Colonel White were W. D. Shanks of Lebanon, former law partner of Senator Garland ex-Governor Burke of North Dakota, and son, Daniel Burk, M. J. Nye game warden and keeper of the toll gate of the Oregon & Western Colonization company's roads.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Wasps never make noises. They only cause them.
