URGES WOMEN NOT TO DRINK OR TO SMOKE

SAN FRANCISCO, Apr. 9 (AP) — Young women of the Latter Day Saints church were warned against indulgence of the commonly accepted vices and smoking in an address Tuesday by Mrs. Ruth May Fox, president of the Young Ladies Mutual Improvement association of the church.

"We want women companions from our fireside and firesides," Mrs. Fox said adding that young men and women attending their recreational gatherings tend to congregate with those of the church.

She urged her listeners not only to refrain from the consumption of tea and coffee but to bring their influence to bear in the same way. According to women will be influenced by their companions who wished to have pleasant and social afternoons.

Tea or tobacco was also decried by Heber C. Iverson, a member of the general board of the Young Men's Mutual Improvement association.

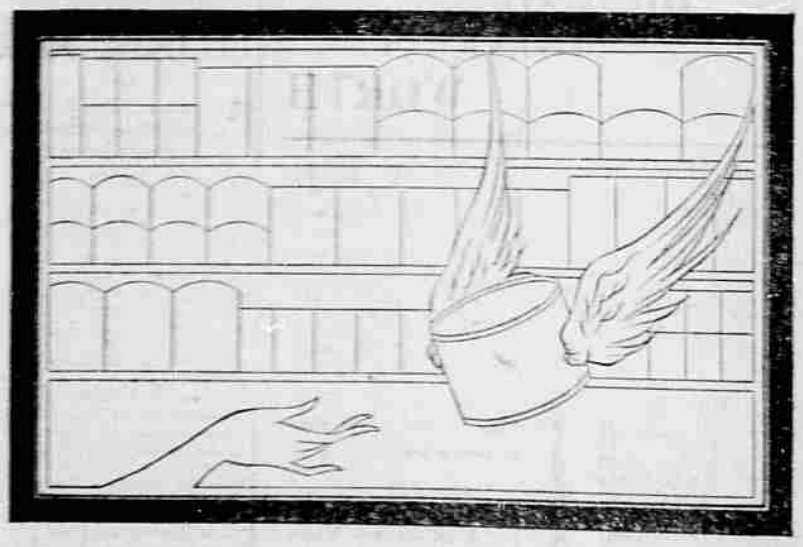
A quality you would want if you knew all of the FACTS *about coffee*



On your grocer's shelves are hundreds of delicious products. None of them harmful—otherwise the Government would step in. Few of them are distinctly poor in quality — otherwise you would detect it. But there are certain products, whose makers are not content with what you can detect. Their number is increasing. You can find them sooner or later. Any woman does, who believes that fine things are worth looking for. It would be easier for you to find them, if you knew more of the facts. Here is one of the facts. FACT 15. *Schilling produces only the first grade of coffee — but only Schilling does it. Contrary to common practice, Schilling specializes on fine coffee. There are no 2nd or 3rd grade Schilling coffees — no cheap blends — no dual standards of quality. The finest things usually come from those who devote themselves to fine things exclusively. There are many excellent coffees — but where is the finest apt to come from?*

There are 43 facts about Schilling Products — Coffee, Tea, 32 Extracts, Baking Powder, 19 Spices
