THE HERALD.

DAYTON, OR., JANUARY 29, 1897

A disastrous fire occurred at Philadelphia on the 26th. Thirty business blocks were burned. Loss near $3,000,000.

A little book is entitled "Money Making," published by A. Schilling & Co., the well known wholesale dealers in groceries of San Francisco. It gives hints and good suggestions as to the benefits to be derived from judicious and persistent newspaper advertising. It also shows the importance of keeping clean, stores, good manners, good goods, honesty, and generosity as a means of money making in business.

Every woman has natural curiosity to see how other women furnish their homes. To satisfy this The Ladies' Home Journal will publish during the year interior photographic views of a hundred of the most artistic, cheerful and comfortable homes in America. These will show in detail the construction, fitting and furnishing of parlors, drawing rooms, halls, reception, music, sitting, bed and bath rooms kitchens, porches, piazzas, etc. This unique series will be full of excellent ideas for every housekeeper or home maker. It will present views of the interiors of houses of moderate cost, which are fitted and furnished with conspicuous good taste, and at comparatively small expense.

In my mind the fact that a woman is out in the world earning her own living should not lessen in any degree the difference which should be paid her by men. If anything, her efforts should increase the respect and courtesy of men. A chivalrous attitude toward a woman, no matter what her position in life may be, is not a matter of principle with gentlemen; it is a matter of instinct. We cannot forget that our mothers were women, and we cannot overlook a certain fineness in the character of women which men as a rule, do not possess. The woman is cast in the finer mold, and it is natural that she should be treated accordingly. I believe that women, speaking generally, are more conscientious, more moral, more spiritual than men; and they bring into any sphere which they enter desirable qualities which did not exist there when it was occupied by men alone. In a business office they have an elevating and refining influence. I bid them Godspeed in their so called invasion of the business world. Women are more helpless than men when thrown on their resources, for the reason that their sensibilities are greater and their self-assertiveness is less; therefore they should be given every opportunity and encouragement in their efforts to help themselves. If I had a position which a woman was competent to fill, and a man and a woman applied for it, I would most certainly give it to the woman.—From "Is Chivalry Dead?" in Demorest's Magazine for February.

There is another blot being placed on the fair name of Oregon by the legislature of this state. The lower house is so divided that no legislative business can, or is, transacted. The republican and democratic members organized in accordance with opinions given by prominent members of our national congress, and legal advice of the most prominent men in the nation. The senate, through their presiding officer, Joseph Simon, fail to recognize the house as organized, which blocks legislation. It is not likely that the business transacted by the senate will be of any force. It certainly cannot be lawful and binding, as in making laws the two houses, senate and house, must work together. The action of a number of members of the legislative body would indicate a determination, to hold up and "freeze out" the well disposed members of that body, and prevent any legislation. And why is this done? The apparent reason is simply to prevent the election of John H. Mitchell to the United States Senate. As they fear would be the result should a vote be taken on U. S. senator. The littleness and utter disregard to the true principles of manhood and the obligations to the people of the state, exhibited by members of the legislature, show that they are not true representative men—such men as should be in charge of the affairs of state—lacking the intellect to make proper and just laws. What reasonable excuse have these men for their action in this matter? In the organization of the senate they secured the presiding officer. In the regular caucus Hon. J. H. Mitchell received the nomination for United States Senator. If the members who pose as honorable men, are as fair-minded as they pretend, they would throw no obstacles in the way of legislation, nor in electing of a U. S. Senator They would take the chances of electing their man the same [illegible]

If a man could not hide in a hell hole, nor behind the tavern door to take his grog, but was made to stand up in the light of heaven, he wouldn't be so thirsty all the time.

Mrs Phoebe Hearst, of California, gave $1000 to the recent campaign for the woman suffragist amendment. Besides 200,000 given to found a mining school in connection with the state university at Berkley and large gifts to the free kindergartens and college settlements, she has given $200,000 to establish a fine gynasium for girls at the state university. She says she is doing all this to help make girls fit to vote.

How it Looks to Whisky People.—The editor of the Southwest (whisky organ) gives his views of the resolutions which church gatherings pass concerning the liquor abomination. Read his paragraph. Read slowly. Read it thoughtfully. Then answer whether that pencil, soaked in rum, has not written a full-grown truth: "In fighting prohibition we do not recognize the church as our principal opponent, nor have the prohibition papers any basis whatever upon which to claim the church as a prohibition institution. Prohibition does not receive at the polls two per cent. of the votes of preachers and church members, so the assumption that the church is a political prohibition institution can be regarded only as in harmless jest. It is true the preachers at their conferences, synods etc., pass prohibition resolutions, and all that sort of slushy buncombe, the same as the politicians promulgate flowery froth in their platforms. But when it comes to voting, and to influencing their fashionable congregations as to voting, they are almost unanimously standing in with Quay."

You will Find.—I have on hand a new supply of sewing machine oil, castor oil, glycerine, Jamaica ginger, extract lemon and vanilla, essence peppermint, camphor, and a good stock of patent medicines, such as extract witch hazel, sarsaparillas, emulsions, wizard oil and other articles. Rival polish for ladies and children's shoes. Come and see.

A DANDY WIND MILL. MAKE IT YOURSELF

I have a neighbor that made one of the People's Windmills, and I have been watching it closely; it is the best mill I have ever seen, and any one can make one for less than $10. I am going to make two immediately, and don't see why every farmer cannot have a windmill when he can make it himself for so little money. The mill is durable, powerful and runs easily. Any person can get diagrams and complete directions by sending 18 two-cent stamps to E. B. WILSON & CO., Allegheny, Pa., and
