PORTLAND BOARD OF TRADE SCARED.

Whereas, with the certain increase of population incident to the low settlers' rates established by the railroad companies and the effective advertising work done throughout the East by Portland's Commercial organizations and the Lewis and Clark Centenial Exposition Corporation, it is highly desirable that the comparatively inaccessable central section of Oregon, an empire vast in area and natural resources and capable of sustaining an enormous population, receive its share of the home seekers looking to Oregon for homes, and

Whereas, this section of Oregon can be made susceptible to settlement and development only through the establishment of transportation facilities, and

Whereas, through the inauguration of various irrigation enterprises large tracts of arid land in Central Oregon promises soon to be reclaimed and become productive, and

Whereas, it is of vital importance to the commercial interests of Portland that the trade of this rich, though as yet isolated inland empire tributary to the metropolis be not diverted, and

Whereas, reports of railroad activity in the southern portion of this state indicate railroad invasion from the South, that threatens the loss of the trade of Central Oregon to Portland, and

Whereas, it appears that the only means through which Portland can retain this trade and increase its volume is through the building of a railroad from some point on the line of the O. R. & N. Co. south, and

Whereas, there appears to be no disposition on the part of the officials of the Columbia Southern Railroad, the only road heading for Central Oregon from the north, to extend its line to Bend as projected and promised, and

Whereas, this apparently inexcusable inactivity on the part of the Columbia Southern Railroad Company, offers encouragement to the railroad enterprises projected into Central Oregon from the south, and

Whereas, there is grave danger that unless prompt action is taken Portland may forever lose the trade of Central Oregon, and the development of this section will be greatly retarded, the absence of transportation facilities driving home seekers into more favored localities, from a transportation standpoint in adjourning states, now therefore be it

Resolved, by the Portland Board of Trade that the commercial interests of Portland demand that the transportation situation in Central Oregon be at once investigated and that such action be recommended, urged and wished for as may result in the extension of transportation facilities to Central Oregon and the retention of the trade of this section for Portland, be it further

Resolved, that the President of this Board appoint a committee of two with full power to act, to confer with and act in conjunction with a like committee to be named by the Chamber of Commerce, said committees to select a fifth member from the citizens of Portland, and that the duties of this joint committee be:

First—To wait upon the officials of the Columbia Southern Railway Company and ascertain if possible the cause of the inactivity of said company and failure to extend its line from its present terminus at Shaniko to Bend, as projected some time ago.

Second—To ascertain the probabilities of the company taking early action looking to the extension of its line, and if such probability exists to urge all possible haste in the matter.

Third—To ascertain the feasability of other routes that might tap Central Oregon from the north in the event it is found impossible to induce the officials of the Columbia Southern Railway Company to act in the premises.

Fourth—To ascertain, if possible, the present status of railroad encroachments from the south and the possibilities of their threatened extension.

Fifth—To procure facts and figures in reference to the extent of the territory that might be opened to settlement in Central Oregon through the extension of the Columbia Southern Railroad or the building of a new road from the north, and the resources of the same and the probable volume of tonnage, if tapped by a railroad.

Sixth—To do any and all other things that might be deemed advisable for the opening up of Central Oregon to settlement and the retention of its trade to Portland.

Seventh—To report to this Board from time to time in reference to the progress of its work.

TIMBER FRAUDS.

An inspector of the Department of the Interior has been investigating the alleged timber land frauds that have been worrying the honorable secretary of the interior for the past year. Our information leads us to believe the inspector is proceeding about his work in a thorough manner. For this we are grateful. We hope and believe that every person whom he calls to testify will truly answer all questions propounded to him having bearing upon this subject of frauds. We believe the same results as were obtained at Roseburg will be gathered here. We believe the same fate will be allotted the inspector now here as befell the Roseburg inspector. Because the honorable secretary has made up his mind to have the U. S. land laws so amended that only corporations can acquire title in the future. With three million acres of lieu land script alone outstanding. How will this mighty acreage be used if the common people are to have the privilege of buying land at $2.50 per acre, when the government does not get one cent when script is used. Is it possible the Missouri attorney has forgotten he is in Washington and not in St. Louis?

The editor is away celebrating St. Patrick's day. He has been away all the present month except one day; and did nothing when he was here in the way of editorial duties. The Review is in charge of a set of amatures who have no hopes of making a record such as Judge Brink made a few years ago when he was left in charge of the paper belonging to Mr. Aldridge. The Judge's first editorial cost the paper one hundred subscribers. Our force consists of one typesetter, (she is a dandy) a lawyer, a bartender, a doctor and Ed Harbin; with the exception of the first person named the force is particularly strong in what it does not know about running a newspaper. We have no knowledge of politics, religion, nor how to raise a family, nor have we any suggestions to make as to the best methods of running the schools, the city government, or the Eastern Oregon Agricultural Association. Nor do we have any idea when the Pilot Butte Development Company is going to begin operations; nor whether the stage will get in tomorrow or not. The mail is here today. The only thing we are thoroughly informed about is the weather, and it looks fine we will not interfere with it.

PAY TWICE IN 1904.

New Law Makes Taxes Payable By December 31.

Taxpayers of Oregon will pay taxes twice in 1904. They will pay the taxes levied upon the tax roll of 1903 and also the taxes levied upon the roll of 1904. This is due to a change in the law by which taxes are to be paid in the fall of the same year the assessment is made. In order to effect this change it was necessary to make the taxes payable three months earlier or nine months later. The collection of taxes is already three months later than it should be, so the legislature decided to make the taxes payable in the preceding fall rather than in the succeeding fall. Under the new arrangement the counties will have funds earlier and will save some interest on warrants. Taxpayers will feel that they are bearing a double burden the first year, but after that there will be no difference in the amount to be paid in any one year.—Salem Sentinel.

Silver Lake.

This little berg has a population of 75 people. A school under the direction of Prof. R. B. Jackson; has 70 pupils in attendance and is one of the best schools in the state, with the largest school district in the United States.

The Central Oregonian Publishing Co. made its initial bow March 5. The Silver Lake Bulletin, Holder & Bell proprietors, one day later on March 6. Mayo Liggett of Prineville is in charge.

A livery stable will be completed March 25. Another new hotel is in course of erection. The building of the Salt Lake and Coos Bay Ry. will make Silver Lake a fine city. A metropolis of a rich section and the county seat of one of the best counties in Oregon.

A Wonderful Discovery.

One of our leading Western physicians on being interrogated as to what he regarded as the best remedy for all ailments that the human flesh is heir to, and what is the best preventive of disease, replied, PORTLAND'S CLUB WHISKEY, as I know it is a pure bourbon. Well matured and aged in wood.—For sale by all first class dealers.

Notice.

I am now prepared to furnish water from my ditch, known as the McKay Creek Irrigation Ditch, to all parties wishing it at one dollar per inch.

"I wrote to Dr. Pierce for advice though I thought surely I would die."

"After my baby came in January, 1902," writes Mrs. Nancy Abner, of St. Paul, Ark., "I suffered severely from all sorts of aches and pains until the following May, when I read one of your pamphlets treating on female diseases. I wrote to Dr. Pierce for advice, although I thought surely I would die, as our physician told me I was more liable to die than to get well. Your fatherly advice caused my health to be restored. I took five bottles of Dr. Pierce's Favorite Prescription, three of 'Golden Medical Discovery' and three vials of 'Pellets,' together with your other remedies, and I am now able to do all my work."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*, and so obtain without charge or fee the advice of a specialist upon diseases peculiar to women. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The invitation to consult Dr. Pierce, by letter, *free*, is not to be confused with offers of "free medical advice" made by irresponsible persons who are not physicians and are professionally and legally disqualified for the practice of medicine.

Dr. Pierce's Favorite Prescription is a safe and reliable remedy for the cure of womanly ills. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

FACT. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

That they will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish their claims to said land before the Register and Receiver at The Dalles, Oregon, on Tuesday, June 10, 1903.

Witnesses: Oliver H. Prescott, Eugene B. Sweeney, John S. Hilpatrick, Lorine L. Mattoyce, Homer H. Wells, Harry V. Rosebrook.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before the said 10th day of June, 1903.
