Star Route Box Delivery.

Notice is hereby given to the public that the contracts in effect July 1, 1902, for the performance of mail service on the star routes in the States and Territories hereinafter named provide that, in addition to carrying the mails to the various post offices, the carrier will be required to deliver mail into all boxes and hang small bags or satchels containing mail on cranes or posts that may be erected along the line of the route, under the following regulations of the Department:

Any person living on or near the route and not within the corporate limits of any town or within 80 rods of any post office, who desires his mail deposited at a given point on the line of the route by the carrier may provide and erect a suitable box or crane on the roadside, located in such manner as to be reached as conveniently as practicable by the carrier without dismounting from the vehicle or horse, and such person shall file with the postmaster at the post office to which to which his mail is addressed (which shall be one of the two post offices on the route on either side of and next to the box or crane) a request in writing for the delivery of his mail to the carrier for deposit at the designated point, at the risk of the addressee. The small bag or satchel above described, as well as the box or crane, must be provided by the person for whose use it is intended without expense to the Department.

It shall be the duty of the postmaster at every such post office, upon a written order from any person living on or near the route, to deliver to the mail carrier for that route any mail matter—placing in the respective satchels, where such are used, the mail for the persons to whom such satchel belong—with instructions as to the proper mail box or crane at which said mail matter shall be deposited; but registered mail shall not be so delivered unless expressly requested by the addressee in his written order. No mail matter so delivered to the carrier shall be carried past another post office on the route before being deposited into a mail box or hung on a crane or post.

The carrier on the route will be required to receive from any postmaster on the route any mail matter or private mail satchel that may be edtrusted to him outside of the usual mail bag, and shall carry such mail matter or private mail satchel to and deposit it into the proper mail box or hang it on the proper mail crane placed on the line of the route for this purpose; such service by the carrier to be without charge to the addressee.

The mail carriers must be of good character and of sufficient intelligence to properly handle and deposit the mail along the route.

The Department does not prescribe any particular design of box or satchel to be used for this service, but the person providing either should see that it is of such character as to afford ample protection to his mail. If there is a lock attached to the box, a key is not to be held by the carrier, as he is expected to deporit the mail without the necessity of unlocking the box. The box or crane should be so located on the roadside that the carrier can deposit the mail without leaving his vehicle or horse, and yet not where it will obstruct public travel.

The carrier is not required to collect mail from the boxes, but there is no objection to his doing so if it does not interfere with his making the schedule time. The law provides that every carrier of the mail shall receive any mail matter presented to him if properly prepaid by stamps, and deliver the same for mailing at the next post office at which he arrives, but that no fees shall be allowed him therefor.

The box delivery above described is required by the contracts effective July 1, 1902, on all the star routes (with but few exceptions) in Arkansas, Louisiana, Texas, Indian Territory, Oklahoma, Kansas, Nebraska, South Dakota, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Idaho, Washington, Oregon, Nevada, California, Alaska and Hawaii.

W. S. HALLENBERGER,
Second Assistant Postmaster General.

At a risk of being put in the old fogy class, the Independent admits that it has not yet been able to see why arbitration of differences between organized capital and organized labor shall be adopted. Disputes over matters that have occurred in the past are proper subjects to go before an arbitrating jury but how can future disputes be discussed, before all the facts or any if there be, can be submitted? How can it be decreed that a manufacturing industry shall pay a fixed sum for a day's labor when it cannot be known that there will be a fixed market for the output. Contracts? Yes but these contracts have been taken on the basis of the old labor scale. What the Independent desires is that there may be free competition among laborers. If a man cares to work when he does not wish to associate with a labor organization, he ought to have the privilege of doing so. Everyone recognizes the laborer's right to quit work when he chooses and he ought to have the same right to begin work.—Hillsboro Independent.
