FEBRUARY 15, 1907.

Did you read the editorial on Lincoln in last Sunday's Oregonian. If not, look it up and be thankful.

Its a great country. John D. Rockefeller donates $32,000,000 to the General Education Board, and on the same day raises the price of coal oil half a cent per gallon, which will net him $40,000,000 in one year.

The trial of Singer Herman is on at Washington this week. Here's hoping he gets all that's coming to him, and that's a good deal. Of all the land frauds he is the worst of the bunch.

What is the source of the "special" telegrams to the great dailies? The Oregonian published one from Paris on Sunday last giving some exceedingly sensational statements regarding Harry Thaw's treatment of women. It was evidently intended to prejudice public sentiment in this country against him, and probably inspired by the friends of Stanford White. During the Russo-Jap war those "specials" were almost invariably on the side of the Japs, and they were absolutely unreliable. It would be interesting to know who sends out those "specials."

THE GOVERNOR'S LUCK.

Certainly Governor Chamberlain was born under a lucky star. Not only is he personally popular, but his political enemies seem determined to do everything in their power to increase his popularity and advance his political interests. The people adopted the direct primary law, and one of its main provisions is to place in their hands the power to elect United States Senators. Those who subscribe to Statement No. 1 pledge themselves if elected to the Legislature to vote for the candidate for United States Senator who shall have received the greatest number of votes at the general election. Candidates do not have to sign this statement. They can oppose it and thereby lost the will of the people. It means just what it says. If the people prefer a Democrat to a Republican they have the right and the power to elect one, and it must be admitted that a Democratic Senator who would represent the people is to be preferred to a Republican who represents the corporations. Always the main issue is to be considered, and at present the main issue is the control and regulating of corporations. The little fellows at Salem are doing their best to bring disaster upon the Republican party by attempting to amend the direct primary law so that it will bind candidates for the legislature to vote for United States Senator the nominee of their party who receives the greatest number of votes at the general election. It would be more honest to insert the word "Republican," and pledge all members in the Legislature to "vote for the Republican candidate who shall receive the highest number of votes at the general election." This would show either parties the trouble is putting up candidates and, to make how large a majority the people may give to any candidate other than a Republican, it would have no effect. The people be damned, say these little bosses. They don't know what is good for them. We know we need have no fears on their will, but to exercise our intelligence and wisdom for the benefit of the ignorant masses of that ignorants asses. These little fellows with but vision begins are doing their best. Though unwittingly to promote Gov. Chamberlain to the United States Senate. If they succeed in passing the bill the governor will veto it. I consider an emergency clause, otherwise he will probably be the senator from this state. Through the intervention, and they will have it under the biggest majority ever given to any senator in Oregon, and then they will give the Republican party in Oregon a lesson that it will be able to remember for a few years. If the little fellows at Salem could see the Republican party they will do well to keep their hands off the direct primary law.

AN UNDERSTANDING.

There is an old adage that "Every dog has one bone and will get that bone." We don't claim there will be anything interesting in this statement, but it serves to introduce what we believe to be a very important matter. There is a Senator Gordon, who is undoubtedly expected to represent Columbia county, introducing a bill in the Oregon Senate to declare the Columbia River a navigable stream. He says he is doing this without instruction, because he is not a stockjobber nor the member of a corporation who would use his influence to promote his own interests. We suppose he has to build up homesteads, the forests, or possibly the Chinaman's chance. The idea of a United States senator in the latter years is laughably ignorant. However, the Oregonian refuses to give Senator Gordon credit for pure motives and claims that it is a very base way of injuring the Republican association, as representative of supporting citizens of Salem. He Senator from Multnomah and occasionally from Columbia, is a prominent member. The Franklin Association, it insists, is a combine whose purpose is to make the business men of Portland pay an exorbitant price for printing, and put out of business any printer who does not become a member and conduct his business in conformity with its rules and regulations. Like the commission merchants on Front street, it has a telephone system by which news is forwarded from one member to the other, so that the prospective customer will get exactly the same deal wherever he goes. In addition to this it is said that those who do not belong to the Franklin can not buy paper except at a higher price than is charged members of that association. It is probable that they are both right in their contentions, but it is more than probable that they are both associated by petty spite rather than a desire for the public good

Rising From the Grave.

A prominent manufacturer, Wm A. Forswell of Lacona, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe electric bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed by all druggists. Price only 50c.

Reading for Troubles.

"Our boat in California Winters and are still handling the troubles in the way of burns, scars, wounds, boils, skin specialties or a case of piles that Bucklen's Arnica Salve won't quickly cure," writes Charles Walters of Kingsburg, Sierra Co. The powerhouse station is one hot place and rightly so at the month of the river for many months you indicated quite clearly that the port was suffering a handicap which should be removed. There has been a shifting of blame and with big and pillar interests conflicting as usual it has been impossible to accomplish much in the way of relief. The Port of Columbia bill now before the Oregon legislature was drafted for the express purpose of maintaining an efficient working and pilot service at the mouth of the river. We have reached a point in our maritime growth where it is absolutely essential that the charges should be no higher here than at the ports whose competition we are contending for. It is impossible to achieve our charges under the existing order of things and if the Port of Columbia bill cannot be passed we should at once abolish all compulsory charges. The service at the mouth would not bring the port into any greater disfavor than that in which we now stand with foreign ship owners.

Neighbors Vol. Testify.

"I was literally coughing myself to death, and had consumption so bad I could never have lived to see Spring, but one good neighbor prevailed on me to try Dr. King's New Discovery. I took one bottle and was entirely cured. I took two more and now enjoy perfect health," writes Mrs. Tom Champion, of Greenville, Stark Co., Ind. This King of cough and cold cures and healer of throat and lung troubles is guaranteed by all druggists. 50c and $1.00. Trial bottle free.
