Turkeys chicks, salads, pies cakes, and everything that could be desired was spred in abundance, and those who were fortunate enough to be present agreed that they were getting a two dollar dinner for fifty cents. M. C. GRAY,

News of the death of Judge Frazer, of Portland, will be received with more than ordinary regret by all who are familiar with his work as judge of the juvenile court of Multnomah County, and understand its effect upon the future citizenship of the State. It is often said that no man is indispensable to a community, and this is doubtless true, but it is also true that some men are peculiarly adapted to certain lines of endeavor, and that there are periods in the history of every endeavor when the cause must suffer from the removal by death or otherwise of its chief advocate. Judge Fraser created the public sentiment that made the juvenile court possible and he had a heart interest in the work. His ability seems to have been unquestioned and there is no doubt he has been the means of saving some whose course tended downward and directing them into better paths. "An ounce of prevention is better than a pound of cure" is peculiarly applicable to the work of the juvenile court, and the good Judge Fraser has accomplished can not now be estimated.

Here's Good Advice

O. S. Wolver, one of the best known merchants of LeRaysville, N. Y., says: "If you are ever troubled with piles, apply Bucklin's Arnica Salve. It cured me of them for good 20 years ago." Guaranteed for sores, wounds, burns or abrasions 25c by Houlton, Deer Island, Warren and Scappoose dealers.

The average farmer regards moles as something of a nuisance, if not actually enemies. Such will be surprised to learn, on the highest authority, that they are friends to be valued. A distinguished naturalist carefully examined the stomachs of fifteen moles, caught in different localities, but failed to find therein the slightest vestige of plants or roots. On the contrary, they were filled by the remains of earthworms. Not satisfied by this fact, he shut up several moles in a box containing sods of earth, on which fresh grass was growing, and a smaller cage of grubs and earthworms. In nine days two of the moles devoured 349 white worms, 193 earth worms, 85 caterpillars and a mouse (skin and bones, which had been slipped in the box. He next gave them nothing but vegetables and in twenty-four hours two moles died of starvation. Another naturalist calculated that two moles destroyed 20,000 white worms, or grubs, in a single year. In view of this, it is evident that moles should be multiplied rather than destroyed. They do not hurt vegetables or any kind of vegetation, their food being principally confined to the noxious varieties of worms.—American Farmer.

This is a sort of a topsy turvy old world. No one seems to be satisfied. One man is struggling to get justice, and another is flying from it. One man is saving up to buy a house and another is trying hard to sell his dwelling for less than it cost to get rid of it. One man is spending all the money he can earn taking a girl to the shows and sending her valuable presents in hopes that he may eventually make her his wife, and his neighbor is spending all the gold he has saved trying to get a divorce. One man keeps a pistol to protect himself against burglars, while his neighbor doesn't keep one for fear of shooting himself or some member of his family. One man pays for his paper in advance because he can read it with greater relish, while another takes it four or five years without paying one cent for it, and enjoys stealing it hugely all the time. Surely this is a queer old world.—Kelsonian.

After the holidays are over there will be some remarks in the Oregonian about tin cups.

President Roosevelt assures the world that there is no danger of a rupture between the United States and Japan. Of course not. The fleet has just started.

The loblolly politicians of Portland seem to be particularly anxious this year to monkey with the primary election buzz saw.

Mr. Stephen A. Lowell pauses in the contemplation of his own greatness long enough to remark that he considers Congressman Ellis of too small calibre to merit re-election, and suggests that Tall Timothy, Jonnie Rand, or Malcolm Moody are about the right size. In this we see evidence that there are no more factions in the Republican party in Oregon.

lies in keeping the skin protected as well as cleansed. Just washing is not enough—that only leaves the delicate surface more exposed to the irritation of dust and germs; to merciless attacks of sun and weather. After washing, apply Robertine and experience its delightful refreshment. You will admire the line-less softness it imparts to face, neck and arms. It not only stimulates a radiant glow, but protects the skin from becoming coarse. Prevents burning, tan and freckles.
