WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 2 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Naright, N. J.

Those timid beings who are haunted by apprehensions of being buried alive may take courage, for science has supplied an infallible means of determining whether or not the vital spark of heavenly flame has quit the mortal frame. Electricity enables us to distinguish with absolute certainty between life and death. For two or three hours after the stoppage of the heart the whole muscular system has completely lost its electric excitability. When stimulated by electricity the limbs are no longer contract. If then, when faradism as the treatment with induced currents of electricity is called, is applied to the muscles of the limbs and trunk, say five or six hours after supposed death, there be no contractile response, it may be concluded with certainty that the subject is really dead, for no faint, trance, or coma, however deep, can prevent the manifestations of electric muscular contraction. Hence there is no possibility of a mistake as there certainly was when the old tests were applied.

Copyright.

A sea-serpent, 175 feet long, was seen to coil itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr. Pierce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the lungs, which is really scrofulous disease. If this wonderful medicine does not do all we recommend, when taken as directed, we will cheerfully and promptly refund all money paid for it. Can any offer be more generous or fair? No other medicine possesses sufficient power over that fatal malady—Consumption, to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alterative, or blood-cleanser, known to medical science, but also possesses superior nutritive and tonic or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For all cases of Scrofulous, Throat and Lung Diseases, accompanied with lingering cough, it is absolutely unequaled as a remedy. For Weak Lungs, Spitting of Blood, and kindred affections, it surpasses all other medicines.

$500 REWARD

is offered by the manufacturers of Dr. Sage's Catarrh Remedy for a case of Catarrh in the head which they cannot cure. By its mild, soothing and healing properties, Dr. Sage's Remedy cures the worst cases, no matter how long standing. 50 cents, by druggists.

Getting cheated yesterday is what teaches a man to cheat today.

Don't blame a man for being vain; he is only what others have made him.

A British countess advertises that she is willing to present Americans at court and to society generally during the coming London season, in consideration of the sum of $5,000 a head, paid in advance.

A Chinaman in a letter home, descriptive of the people in this country, says: "The Americans are so industrious that they have no time to do anything. The English blister about all morning trying to get to work, but are apt to get drunk before they get at the intended job. The Dutch look innocently stupid, but are dangerous people to trade with. The Irish, having starved out at home, try to rule every land they go to for something to eat. The women look like inverted funnels sliding along the sidewalks. The boys are meaner than devils, and grow worse the longer they live. The people are good every seventh day; the rest of the time their Josh is asleep and don't bother what goes on. When a bad man dies he goes down into the ground where it is all fire. A good man when he dies, goes up in the sky, where there is nothing to do but sing and wear white shirts. The people eat all manner of trash, but seem to be eternally hungry."
