Bevo

Look for the Pipe on each crown

Keep in mind the fact that Bevo, being a soft drink, will freeze at 32° Fahrenheit—just like any other non-alcoholic beverage. Be careful about this, as freezing affects the rich fullness of that delightful Bevo flavor which goes so particularly well with a meal or a bite to eat.

If Bevo were merely a summer beverage this warning might not be in time,—but, as all who drink it know—

Bevo is an all-year-'round drink

Everybody enjoys it for more than just its thirst-quenching qualities—the pleasure it gives comes from its flavor, purity and wholesome nutritiousness—the enjoyment of these qualities is independent of time or season.

To get full pleasure out of Bevo's bouquet, Welsh rarebits, oysters, clams, lobsters, sausage, cheese and many other such delicious edibles, Bevo should be included.

You will find Bevo at fine cafes, restaurants, groceries, department stores, soda fountains, dining cars, steamships, clubs, soldiers' homes, navy, and other places where refreshing soft drink beverages are sold.

Your grocer will supply you by the case. Demand the genuine—have the bottle opened in front of you—see that the cap is a brown covering the crown top and see that the crown top bears the Pipe.

Bevo is sold in bottles only, and is bottled exclusively by
