LOCAL CHURCH GROWING FAST

CHRISTIAN CONGREGATION TO ENLARGE BUILDING

Good Sum Raised At Banquet For Work Made Necessary by Development of Interest.

Raising a sum of close to $1300, or almost half of the amount which is the objective in the minds of the church officials, the congregation of the Christian church launched last night a campaign that is intended to open a great offensive against all forms of indifference and lethargy in the church life, and incidentily against all derogatory influences in the city life which it naturally falls to the lot of the church to combat. The congregation gathered in the church basement at the dinner hour and enjoyed a fine repast served them by the Loyal Sisters, and with a few brief talks then the primary purpose of the meeting was communicated.

Since resumption of church activities last fall, when the present pastor, R. L. Coker, arrived to take charge all departments of the church life have begun to develop in a manner that is highly pleasing to the officials of the church, and they feel that they have in Mr. Coker a man who, if properly supported and encouraged, will be sure to make his abilities apparent by bringing the church into a new era of wonderful progress. One speaker summed up the whole problem when he said, "The Church has become too large for the building; we must make the building large enough for the church." That is what the congregation of the Christian church has set for itself as the first task to be accomplished.

While defeinite plans have not been made for the improvements which will be undertaken, or to what extent improvements shall be made, the congregation realizes that the church is not large enough to accommodate the numbers who come to attend the services. The basement at present is used for the smaller children's Sunday school classes, and the first thought in the minds of the pastor and the church officials is to provide a more satisfactory arrangement than this. This, it is rather expected, will be in the nature of an addition to the church. Other alterations of the main body of the church are likely to be undertaken, but the board has not passed upon these as yet.

The amount that it is hoped to raise for the work is between $2500 and $3000, and from the spirit manifested at last night's meeting the officials are very confident of complete success. A canvassing committee will be at work for the next few days rounding up contributors who were not present last night.

R. J. Kitchen was chairman of the meeting, and impressed upon his hearers the necessity of forging ahead with the work of the church if they desired the church to remain in existence. The officials of the church feel much encouraged by the evident success which has attended the work their pastor has done during the few months he has been here and they believe their congregation has prospects of a bright future under Mr. Coker's leadership.

Finger Saver.

Some one who has realized the danger in touching an electric fan while it is in motion has patented one with a guard equipped with a handle with which to move it.

CANNIBALS DID NOT EAT HIM

THAT IS WHY HE WILL LECTURE IN LA GRANDE TUESDAY

Dr. J. M. Taylor, World Famous Missionary, Will Relate Interesting Experiences.

On Tuesday evening, April 29th Dr. J. M. Taylor, world famous missionary who has concluded an evangelistic tour of 75,000 miles for Methodism and has, during his life, traveled 450,000 miles, will present in La Grande his illustrated lecture entitled "The World as I have seen and photographed it."

Dr. Taylor's lecture will be illustrated by the pick of 10,000 photographs which he has taken in every country on the globe in which Methodism is working or is contemplating work. He is accompanied by his own operator. Dr. Taylor's plan did not include a visit to La Grande, but because of three vacant days between his engagement at the big Municipal auditorium at Portland and a similar gathering in San Francisco, arrangements were made for him to speak here.

As a missionary and as a writer, as well as a dynamic speaker, he has a world record. His missionary career has not been devoid of excitement. He had the unpleasant experience of being captured by cannibals and hearing them discuss whether to eat him or not.

Dr Taylor will tell how Methodism expects to spend a part of its $40,000,000 foreign appropriation of the coming Methodist centenary fund of $105,000,000.

He is described as the most notable Methodist speaker in the west for many years.

CASUALTY FOLLOWED SERVICE

BILLINGS, Mont., April 25.—Raymond George is a "devil dog." As a private in the United States marine corps, he saw some of the hottest fighting in France. He returned home a few days ago and shortly after fell 16 feet through a marquise glass roof, at a public gathering, and was seriously injured. He served through the war without a scratch.

LADIES WAISTS Bought Right

Backache? Rheumatism?

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime salts in the Arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new prescription, "Anuric," is bound to give immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store, by simply asking for "Anuric" for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.

Send to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for a 10c trial package.

Modoc, Cal.—I recommend Doctor Pierce's Anuric very highly. I have suffered for the last three years with catarrh of the bladder, having tried every remedy I heard of but without relief. Your Anuric advertised in the paper, and like a drowning man clutching at a straw I thought I would try it also, which I did with great success. It relieved me almost immediately, before I had taken all of the first package, and having great confidence in the remedy I immediately sent to the drug store and bought a full size package. I can say it will relieve any one from any disease of the kidneys or urinary troubles, try this remedy and suffer no longer. I have great faith in it.—J. F. Rogers.

They Grow....

We read in the paper the other day about a man who had planted cucumber seeds in his garden, "being surprised later by the appearance of sunflowers." He should have been more careful where bought his seed. Our seed supply is absolutely reliable—northern grown—superior hardy varieties waranted to grow as represented. We have on hand full fresh stock of seeds for about every thing that grows—we have them in liberal size packages; also in bulk—and the price, as you know, is always unusually low.
