Real Rubber Goods

The veneer and finish of some rubber goods makes it impossible for the average person to judge of their quality.

When we buy such goods, we go to the very best Makers who back their products with a strict guarantee.

You will be safe in coming to us for
Household Rubber Goods, Sick Room Requisites
Nursery Supplies, etc.

JIM BOWLER INJURED BUT NOT SERIOUSLY.

James Bowler received painful but not serious injuries to his right leg yesterday, when he was struck by a car fender, as he stood on the running board of another car. He and Lyman Rice had jumped on either side of a car, and were about opposite St. Anthony's hospital going east, when a car coming into town met them. The fenders scraped and Mr. Bowler's leg was badly bruised as a result. Mr. Bowler was taken to the hospital, where he will be cared for for a few days. The accident occurred at 5 o'clock.—Pendleton Tribune.

Mr. Bowler is a brother of Mrs. A. C. Hampton of this city and is well known here, having visited here several times since his arrival home from France. La Grande friends of Mr. Bowler, join in wishing him a quick recovery.

FOUR "L" MEN SHOW ATTITUDE

COMMUNICATIONS FROM MANAGER GIVE THE SPIRIT.

Declare Strike to be a Menace to Members Who Must Work Beside Them.

Editor of the Observer, La Grande:

Dear Sir:—Today, when the blood of every true American boils because of the Centralia outrage, I wish to call your attention to two important paragraphs in the constitution of the Loyal Legion of Loggers and Lumbermen.

First, it provides that any man eligible for citizenship must legally declare his intentions of becoming such before he can become a member.

Second, it provides that no man who is a member of any organization, whose principles are not in accord with the constitution of the United States, its law and government, shall be accepted to membership.

These two paragraphs indicate that the organization stands for true Americanism, and it is against the kind of men that perpetrated the crime at Centralia.

We have been [illegible] I. W. W., the Red, the Pink [illegible] and Radical almost [illegible] workmen have been putting their money into the organization as dues, and their payments have been met on a fifty-fifty basis by their employers, with which to wage the battle against the type of men I have referred to.

The newspapers of the Northwest have as a whole been complimentary to our work. The people have realized that the organization was something that should be of benefit in stabilizing labor conditions, but as the whole they understand that little of the recognition task that we have before us, or do they appreciate fully what we have accomplished, or what it has really meant to them to have undisturbed labor conditions in the lumber industry during the nine months that we have functioned.

Today the press and the people see the necessity of some organized force to control the menace confronting them. We have the organization, and we need the support of both the press and people.

You will be concentrating editorially on the present situation, and I am writing this letter to secure you that the influence of your paper is exerting to mold public opinion favorable to the "4-L" through statement on its aims and objects, as well as what it has accomplished, will be appreciated.

Yours truly,
P. L. ABBEY,
For Manager L. L. L. L.

Follow Legislation.

Yesterday American citizens, ex-service men, defenders of their land were a hot, down without warning and without compunction, in the streets of Centralia by men who have eaten American bread, but enjoyed American freedom. Today per American blood boils at fever heat, shall we allow it to cool down until the "Reds" in the guise of high-minded citizens, decide to build another fire under it.

On March 27th Commissioner No. 23 Rice sent out frightful notice to all locals from parts of organization, others did not. The secretary of all dates to find who he where are. There are "Reds" in the locals and lumber industry. Their presence is not only a menace to our members who want legislation to the stability and prosperity of our government.

The necessity of building our own organization, loyal and stronger was never so apparent as on the 11th day of November, with disorder in our midst. Every worker in the industry must show his true colors. No better way of demonstrating the Americanism can be found than for one to become a member of the "4-L." It stands for law and Americanism, and tolerates no silly sound, and they care to more.

Make this week, November 17th one for the closing [illegible] by some for "Bolshevik" lies. Be one of the Loyal Legion to prove yourself Citizens. This week will hold a meeting during the week, especially necessary that the members be present. Let every member bring a prospective member with him. Let us make every meeting count for America's sake.

It is said that there are some in which it is necessary to call members and [illegible] by personal [illegible]. Let us be on the job, and make every meeting count for America's sake.

Yours truly,
P. L. ABBEY,
Secretary Manager.

Should Be Suppressed.

Many people [illegible] good sense of the case.

A Drop of Blood.
