

**SCIENCE:** An active week awaits Sisters science fans

*Continued from page 3*

Deschutes Land Trust.

On Friday, April 21, Boeing test pilot Capt. Michael Carriker will visit local schools to talk about the science and history of aviation. An aeronautical engineer, Capt. Carriker was the chief test pilot for Boeing's "Dreamliner" and was at the controls for the 787's first flight. Now Boeing's Chief Engineering Project Pilot for New Airplane Product Development, Carriker is a former Navy fighter pilot and the recipient of the Society of Experimental Test Pilots 2010 award for outstanding professional accomplishment in the conduct of flight testing.

To round out the week's celebration, community members are invited to join the Sisters Science Club at the traditional Earth Day

## Concert benefits Circle of Friends

A performance featuring the music of Melanie Rose Dyer and Daniel Cooper will benefit the mentorship program Circle of Friends on Thursday, April 20.

Melanie recently move to Central Oregon from Nashville. Her music is full of life, incorporating a blend of soulful ballads, blues and

Americana into her original compositions.

The performance will be held at Hood Avenue Art Gallery, 357 W. Hood Ave. in Sisters, as part of its spring salon series. Suggested donation at the door is \$10 (or more). Appetizers will be served and beverages will be available for purchase.

## Jazz Choir sallies forth across Oregon...

PHOTO PROVIDED

The Sisters Jazz Choir took their Northern Oregon Coast Performing Trip last week. One feature was a concert in Fort Clatsop where they sang a piece of music from a Lewis and Clark mini-musical. They also took a guided tour of the Fort with an emphasis on the music that the Lewis and Clark Expedition would have enjoyed.

## District offers smoke alarms

The Sisters-Camp Sherman RFPD has received a donation of 40 smoke alarms from Kidde Fire Safety. Kidde's mission is to provide safety solutions that protect people and property from the effects of fire and its related hazards, and the company is committed to educating families about fire and carbon monoxide safety.

The donation is crucial in helping the District's Fire Corps members continue their smoke alarm campaign projects within the

Sisters-Camp Sherman fire district. The latest smoke alarm statistics for Oregon show that in 2014 there were 1,774 injuries and 30 fatalities from residential structure fires. Of the 30 fatalities, in only three instances there were working smoke alarms.

Also, according to Underwriters Laboratory (UL), 40 years ago residents had approximately 17 minutes to escape a house fire. Due to current construction standards and the materials used in the contents of

homes today, that number is less than three minutes.

Sisters-Camp Sherman Fire District Fire Corps members are available to assist homeowners with checking their smoke alarms by appointment. New battery powered alarms are available for free, as well as replacement batteries for wired units. If your alarms are older than 10 years, they should be replaced.

To schedule an appointment or have questions about your smoke alarms, call 541-549-0771.
