OREGON CITY, JULY 12, 1895.

AMERICAN SUPREMACY.

Recent statistics show that the total "banking power," as it is called, of the world is £4,000,000,000, or $20,000,000,000.

Of this North America, mainly this country, controls £1,200,000,000, while all Europe, including Great Britain, France, Germany, Belgium and the Netherlands, all the great "capitalist" nations, control but £2,300,000,000.

In other words this country holds about half as much of the world's "banking power" as all Europe combined, and greatly more than any single country in Europe or the world. The control of the world's finance means to any country that holds it the mastery of the world's commerce and the chief share in the world's wealth, with all of influence which such dominance implies.

That control is within our grasp if we do not make the mistake of rendering any part of our currency unsound and thus impairing the value of our public and private securities. It is the easy task of this generation to give our great Republic the imperial place among the nations of the earth.

SINCE money can be borrowed on first-class security in Portland at 6 per cent. straight, and call loans are made in New York city at 1 to 2 per cent., it does not seem that money is scarce. It is true, however, that there is not a sufficiency of it in circulation, which can only be corrected by a gener al increase in business, which will withdraw the deposits from the banks.

THE 16 to 1 silver men are doing their cause injury by advocating that the United States restablish free silver coinage at the ratio regardless of the nations of Europe. This country will never take such a foolhardy step. International bimetallism is the only practicable course.

Our New Leader, $1.45.

Last year's demand for our Leader was so large that we were unable to manufacture them as fast as they were ordered. This year we have one mammoth factory that manufactures nothing but this line, and we are making this boot in such immense quantities that we are able to produce a much better boot.

We have many new improvements in this line: first, it is made of heavy genuine Dongola, solid leather sole and inner sole; second, it has a leather sock lining, which no other but a high-priced boot has; third, it has a back-stay; fourth, as much care is taken in selecting this stock, and in making, as in our higher-priced goods; fifth, we not only warrant but we guarantee every line to be just as represented. The above cut is an exact copy of the boot itself.

Our New Leader Ladies' Dongola Button; styles, Plain Opera Toe, Plain Common-Sense Toe, Opera Toe Patent Tip; widths, D, E, and EE; sizes, 2½ to 8.

Our New Leader Ladies' Dongola Front Lace, Opera Toe Patent Tip; widths, D, E, and EE; sizes, 2½ to 8.

Our New Leader Ladies' Dongola Button, Spring Heel, Common-Sense Last; Patent Tip; widths, D, E, and EE; sizes, 2½ to 6.

Any of the above-described shoes sent on receipt of $1.45, all postage paid by us. Send for complete illustrated catalogue of all grades of boots and shoes—free. Please mention this paper.
