REELS—
RODS—
LINES—
HOOKS—
FLIES, Etc.,

is very complete. Come in and see the new things designed to add to the pleasures of the piscatorial art.

Snapp's La Grande Pharmacy

ALVIN SNAPP, Proprietor MAIN 40

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets

SPRING

FIVE IN CHAIN GANG IN WEEK

CITY MANAGER MAKES WEEKLY REPORT TO COMMISSION.

Three Fire Alarms During Week Break Recent Records— Many Prisoners Fed in Jail.

The city manager's report for the week ending April 9, 1921, shows that for the first time in many months three fires were reported by Chief C. O. Murchison in a single week. The first was on the morning of April 5, when an over heated stove in George Bell's place at 1712 Sixth street caused a fire. Eleven volunteers responded.

On the same day a car at Sixth and O caught fire, no alarm being sounded. The car belonged to Ed. Stringham. No loss was done. Another fire where no loss was incurred was at the Monsell and Harris filling station, where an oily rag in a vest caught fire. This was on April 6.

The report submitted to Manager George Garrett by Mrs. E. M. Fowler, city treasurer, showed that a total of $2462.84 was received during the week, water rentals contributing the largest amount of the total, $1,428.88. Receipts from the police department in fines and forfeits were $2.50.

Five prisoners worked out fines during the week, a total of ten arrests being made during the week. The largest number of meals served in jail for many weeks were served during the week, the total being 76. Eight convictions were made in municipal court, while two of the cases are still pending. The contagious disease situation is abating, judging from the police's quarantine record as quoted in the report, five new quarantines being established and seven houses having been released during the week.

The report from the engineering department shows that grade stakes were set for the cement sidewalk at 1308 X avenue. Good progress was also reported on the preliminary survey for the proposed Lower Beaver Creek water supply line. "The line is being so located," the report states, "that the amount of high pressure pipe to be used will be reduced to a minimum. Ten miles have been projected to date and levels have been run on the line as far as Perry.

ASTORIA GETS FOREIGN TRADE

ASTORIA, Apr. 14.—One of the first symptoms of reviving trade with the territories of Central Europe as it is carried out with the Pacific Coast is seen in the shipment of 14,000 barrels of flour from the Port of Astoria terminals to the Czecho-Slokay government.

The movement of so large a quantity of flour at a time when the market is very poor, and to one of the new-born countries of Europe, has awakened marked interest among milling and shipping men. The flour was milled in the new 4000-barrel per day plant on Pier 1 of the Port of Astoria terminals, and was shipped on the Holland-American line steamer Moerdyk for Hamburg, whence it will be sent overland to the Czech territory.

TWO SOLDIERS HAVE CONFESSED

MEN ADMIT THAT THEY BOUND NURSE'S COMPANION.

Penalty for Assault, as Made Monday Night Under the Federal Statutes is Hanging.

TACOMA, Apr. 14.—Laurence Bogart and Everett Impyn, Camp Lewis soldiers, today confessed to the assault Monday night upon Miss Eleanor Sherer, civilian nurse, the camp officials have announced. The two soldiers will be turned over to the federal authorities. The penalty for the offense under the federal statutes is hanging. The men admitted that they bound the nurse's soldier escort to a tree, and carried her off.

PORTLAND NURSE CHARGED WITH LARCENY TAKEN HERE

Miss Katherine Kuks, aged 24, was arrested several days ago by Sheriff Lee Warnick at Hot Lake Sanatarium on request of the chief of police of Portland. Miss Kuks was charged with having stolen some articles of wearing apparel from the Patton home in Portland from one of the other nurses.

Warnick located the stolen goods in the possession of Miss Kuks. The prisoner, as well as the stolen goods, was taken back to Portland by an inspector of the police department. She faces a charge of larceny.

The Happy Man.

That man is always happy who is in the pursuance of something which he cannot know to be full, which he is always going on to know. This is the necessary condition of a finite creature with intellect rooted and growth destined intelligence; thus, therefore, its happy state—not observe, a state, not of triumph of joy in what it knows, but of joy rather in the continual discovery of new ignorance, continuate self-abasement, continual astonishment.—Hinkts.

CLUB REJECTS MANY DRIVES

PENDLETON, April 14.—Since the first of March, when the Commercial Association assumed the task of passing on subscription drives to be made in Pendleton over a half dozen prospective drives aggregating $18,000 in all have been rejected with the result that those behind the moves have made no attempt to raise money here.

These facts were disclosed at a gathering of the Commercial Association managers. Of the drives rejected some were for small amounts, two asked for $1500 a year, one was a proposed $4000 drive and in one instance the sum of $9500 was desired from local citizens.

Because of present financial conditions it is held as imperative that some responsible organization pass on drives to be made here and there is much satisfaction so far with the results atained.

CONTRACT FOR NEW HOSPITAL AWARDED

PENDLETON, Apr. 14.—P. A. Bailleergeon, architect and builder of Seattle, was yesterday awarded the contract for the new hospital building which will be built by the Sisters of St. Francis as an adition to St. Anthony's hospital, 1800 East Court street.

Mr. Bailleergeon, who is well known in Seattle, built the new boys dormitory which was a recent addition to St. Joseph's Academy. The new hospital structure is to cost $200,000 and will provide quarters for 80 patients.

PENDLETON POLICE FIGHT IS OVER

PENDLETON, April 14.—Rejection of the application for the position of chief of police for the city of Pendleton was decided upon by the police committee of the council after a conference in which the whole situation was fully discussed and the present incumbent, Chief Al Roberts, was retained in office.

Agitation of a certain group in Pendleton for the removal of the present officer drew to a climax with the arrival of an applicant from Portland, who, it is understood had the endorsement of the chairman of the police committee. Upon investigation it was found that the Portland man was not even eligible to office as he is not a qualified elector in the city.

While Chief Roberts has never been reappointed by the mayor owing to a difference of opinion among the council, the majority of the aldermen are known to be in favor of the present incumbent. Members of the police committee stated yesterday that if any of the many charges placed against the present chief could be substantiated, removal would be immediate. Until such a substantiation is made, in the opinion of the councilmen interviewed, Roberts will continue in office.

LOCAL DAIRY HERDS ARE BEING INSPECTED

Following the provisions of the state law on dairy herd inspection Dr. H. W. Riley, aunder authorization of the State Livestock Sanitary Board, is conducting tuberculin testing of dairy herds in the Grande Ronde valley.

His latest report includes the Greenwood dairy, operated by E. Gaertner; Hillside Dairy, opecated by W. K. Beverage; the L. Orten Dairy, and Del McCoy dairy. For the past three years these dairies have been tested regularly and no reaction found. Whenever a cow is added to the herd according to Dr. Riley, she is tested thoroughly. His work has not been completed throughout the valley as yet.

Burmese Fond of Flowers.

Who would suspect that in the tropics, in sun-drenched Burma itself, there are acres of gardens given over to nothing else but the cultivation of roses! All through the hot weather, in Lower Burma, they flourish; not till the rains break are they beaten to earth and almost washed away. The Burmese are very fond of flowers; no Burmese house is without them; they are lavished on the pagodas, and women decorate their hair with them.
