YEAR'S UNITS ARE COMPLETE

STATE ASKS AUTHORITY TO FORM MORE FORCES

Cities That Sent Men to War Will Have First Call in Organization; La Grande Named

SALEM, Or., July 14—Oregon towns that sent national guard units to the world war will have first claim on new units that will be formed, according to George A. White, Adjutant General of the state, who has asked the government for authority to organize units on the 1922 organization program, Oregon having already furnished its maximum number of organizations for 1921.

The adjutant general's action in asking for a new allotment of units brought out the fact for the first time that Oregon has met the maximum requirements of the federal government in record time under the new national defense act and has not now a single vacancy for units in the national guard.

Immediate completion of a battalion of infantry and a battalion of field artillery are first to be undertaken by Colonel White if the government will make the additional allotment of funds for this purpose. Each national guard company costs the government $50,000 in equipment and $15,000 a year in pay and upkeep. The cost to the state for each organization is only a small fraction of that amount.

Oregon towns on the priority list for companies under the adjutant-general's plan are Cottage Grove, Hood River, La Grande, Pendleton, Tillamook and Astoria.

ELECTION JUDGES ARE NAMED BY COMMISSION

Judges, Clerks and Polls Used By State Chosen—Printers Present Varied Bids

A motion was passed by the city commission last evening appointing election judges and clerks and designating the polling places for the special election to be held August 9. In order to conform to the state law the same judges and clerks and the same polling places were named that were designated by the county clerk for the last election. Notices are to be sent to the appointees and publication is also to be made of the polling places and appointments.

The city commission also let the printing contract for the pamphlets containing the measures to be voted on, a copy of which is to be mailed to each registered voter before the election. Three thousand are to be printed. The La Grande Printing company was the successful bidder, their bid being $64.75. Other bids were $145.00, $91 and $95.

SEVENTY-FOUR YEAR OLD WALKER OFF AGAIN

LOS ANGELES, Calif., July 14.—Henry Stewart, 74-year old walker, who has made eleven trips across the continent, is off again. He attended ceremonies here recently at which George E. Cryer was made mayor and then left with a letter of introduction to the mayor of New York City.

Stewart's last round trip, according to his figures, was made in 824 days including a long stop-over.

Canary's Voice Big for Size.

A man's voice could be heard 800 miles away if it had the same carrying power in proportion to his weight as that of a canary.

Just Like the Beach!

Children of New York's sweltering East Side don't have to go to Coney Island to get cool. The street cleaning department stages a daily bathing party with street sprinklers.

IMPROVEMENT WORK TO BE DONE NEXT WEEK

City Manager's Report Shows That Week Was Quiet in Many Ways But the Water Rent Poured in Fast.

The report of George Garrett, city manager, for the week ending July 8, shows that during that week the city treasurer's office collected $2,653.26 in water rentals and other items bring the total to $2,336.36, while the disbursements were only $628.92 during the week.

The week was a quiet one in police circles, according to the report. Six arrests were made, three being drunks and two traffic violations. The total collected in fines and forfeits was $21. One additional quarantine was established during the week and none were discontinued.

The fire department had an active week. Five calls were turned in. Four of these resulted in no damage, three being grass fires. The fifth fire was caused when an automobile caught fire but the amount of damage was not reported.

The report from the engineering department shows that the street and sidewalk work petitioned for this year will probably be under way soon. "I expect to have the preliminary plans and estimates made for all street and sidewalk improvements petitioned for this year by next Wednesday evening," Mr. Garrett's report says in concluding.

COLUMBIA BASIN WHEAT CROP IS A BIG ONE

Best In Fifteen Years Say F. L. Ballard—Harvest in Full Swing Next Week.

The wheat crop in the Columbia river basin will be the best in fifteen years, according to F. L. Ballard, county agent leader, who returned last night from a month's trip to the Willamette valley and a short trip through the Columbia river basin.

Everywhere farmers are expecting to harvest a bumper wheat crop and by the end of next week harvest will be under full sway. Winter wheat is yielding a crop above the average.

"SOAP MINE" FOUND IN MOJAVE DESERT

LOS ANGELES, Calif., July 14.—A "soap mine" in the Mojave desert is the latest addition to the industrial enterprises in this section. The soap mine produces a colloidal clay, which, with very slight preliminary treatment, is said to be a superior grade of laundry soap. It makes a soft powder, and is said to set colors and remove dirt.

Jud Tunkins.

Jud Tunkins says there's no more use in trying to judge a statesman by the kind of auto he rides in than there used to be in studying his personal style of whiskers.

New Animal for Far North.

The yak, or woolly ox of Tibet is soon to be transplanted into Alaska and the Canadian Northwest by Dawson men, says an exchange. For centuries the yak has been domesticated by man and its haunts are the stony highlands of Tibet, 20,000 feet above the sea. Its native food is a coarse wiry grass, but it will eat anything that cattle will. In size it compares favorably with range cattle—1,000 to 1,200 pounds. The meat is as delicious as beef and the wool and hide are valuable.

Cutting Children's Ears.

It is a senseless practice to cut children's ears, and arises from a foolish superstition. Many years ago it was thought that backward children could be cured by making an incision in a certain part of their ears. The belief exists in some parts of the country today, the operation being performed usually by a woman at the change of the moon. Needless to say, it results only in pain and misery for the child.—London Tit-Bits.

Healthy Celibs.

Of eight English clergymen whose deaths were recorded in one week a short time ago the ages represented 568 years, the oldest being ninety-two and the youngest fifty-seven, writes a correspondent. This high average of just under seventy-four years is either an uncommon record or attests the longevity of the celibate.

Legendary Island Only for Women.

In the West Indies there is an old legend to the effect that among the innumerable small islands in the Caribbean sea there exists one that is inhabited only by women.

Remove Stains.

Soften old stains with castor oil or lard and they will come out more easily. The gasoline or benzine will remove all traces of the medium.

Too Much Welfaring.

People for countless generations have survived and thriven without aid of legislation for their welfare. The world is being welfared too much. Much of the object is to create jobs for welfarers.—Portland Oregonian.

"Just Tired" Feet.

Hot sweltry days make the feet perspire, then they become distressed, they ache, they feel tired and weary. Sometimes they present a smarting, burning feeling. All these things are readily relieved by the simple application of a light dusting powder in the shoes and stocking. This powder we put up and sell under our own name. Our FOOT POWDER is undoubtedly the best relief of its kind yet packaged.
