AT THE COVEY MOTOR CAR COMPANY PLANT

Owing to the acknowledged fact that used car prices have not kept abreast with the steady advance in new cars, it is only a reasonable deduction and correct analysis of circumstances to presume that to purchase a good, reliable, rebuilt and refinished used car at this time will undoubtedly secure the permanency of your investment to a far greater extent than to tie up the same amount of capital in a new car.

The price on new cars may advance or decline. The market is quite unsettled. Some manufacturers advanced their prices but 30%, while others went as far as 44% and are in a much better position to cut prices and hunt for cover.

N prices are going down on the car you may select, you will be much better protected in the purchase of a good used car at their present low prices, for your immediate use. Should prices continue to advance, it will be still better for you to buy a used car, because the high level, without a doubt, is close at hand and before you could get reasonable service from your new purchase you would be called upon to suffer considerable loss.

It is much safer, in our opinion, on a seemingly unsettled market, to buy of the present offerings in underpriced used cars.

CADILLACS
To have attained such a high development in rebuilding and refinishing our Cadillac motor cars is a great source of pride with us and we know, through the success of our efforts, that we are in a position to pass along to the eventual owner the same pride in ownership.

Owing to the easing up on the formerly strenuous delivery conditions surrounding new Cadillacs, we have greatly reduced our prices on these used cars so as to move them quickly and make room for additional new business.

The cars we now have to offer will not only be a great surprise to you because of their unusual condition and appearance, but the prices you will find are much lower than you have probably thought it possible to purchase such a car.

May we not show these cars to you at your earliest convenience?
