"The Poetry of the Orange."

"It appeals to you, when the fruit hangs ripe and sweet on the tree late in February or early in March. Then the blossoms break out, and the treesa re yellow with golden globes, and with with orange flowers. It may be that flurry of snow has whitened the mountain to,s, and then you have an artistic background for a tropical forest. The air is full of sunshine, and heavy with fragrance as night comes on, and then, if the moon be shining, you may hear at midnight through open windows the song of the mocking-bird in the scented grove, and it never seemed so melodious before.

An experience like this is possible any winter and it is worth a journey of a thousand miles, while you can have it, by taking the scenic Shasta route through the grand and picturesque Siskiyou and Shasta mountains to Southern California. Complete information about the trip and descriptive matter, telling about California, may be had from any Southern Pacific agent or

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflmation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflimed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
