Elder and Mrs. Coker Have Baby Boy Born to Them in Washington

The La Grande Observer has received an announcement card from Elder and Mrs. R. H. Coker, formerly of La Grande but now working with the government in Washington, D. C., which reads as follows:

"Washington, D. C., 3024 O. Street, N. W., Aug. 19th.

"Dear Friends:—We beg to announce that 'Unto us a child is born, unto us a son is given.' His name is Charles Milton Coker. He weighed eight pounds and twelve ounces. He was born August 1 at the Columbia hospital, Washington, D. C. I am glad to say that Mrs. Coker and the baby are now at home and are just fine.—R. H. Coker."

IT'S TIME TO THINK OF SCHOOL BOOKS

Two Reel Comedy.

CHICKEN MAN IS QUITTING GAME

Schools to Open September 11th; Grande Ronde Lumber Co. Makes Improvements on Yards.

(Special to The Observer)

UNION, Aug. 28.—The funeral of Marion Davis, mayor of the city of Union, who died at Hot Lake last Friday morning after a long period of illness, was held at the Methodist church Sunday afternoon.

"Gene" Reuter and his boys have been up in the mountains along Catherine Creek for the past week hunting and fishing. So far he had not succeeded in bagging a deer, but did kill a bear and sent home some of the meat. The hunters will come home some time this week.

W. A. Feiser, who works in the A. A. Wright drug store, has been off duty for several days nursing a lame back.

Felix Evans, who has been running a chicken ranch in South Union for the past three years, is selling off his entire outfit and will quit the business at the end of this month. Mr. Evans and his family will spend some time visiting and winding up his business and then they expect to go to California to make their future home.

Mrs. W. V. Connor arrived home last Saturday, after spending a little over a month in La Grande, where she had been under a doctor's care owing to a severe felon on one of her fingers.

Jess Spencer went to Baker Saturday to witness the third game in the series between Baker and Boise. Mr. Spencer was the guest of the Baker team while in the latter place, he having been secretary of the league to which the Colts belong.

Work is progressing on the new bungalow at the Experiment Farm. The outside is being painted and the inside is ready for lathing and plastering. When completed this dwelling will be occupied by Fred Brown, foreman at the farm.

C. P. Holly is having the dwelling rooms at the rear of his harness shop on Main street remodeled to give a little more room and also to help the appearance of his property.

School is scheduled to open on the 11th of September and the buildings are being renovated and cleaned up preparatory to being placed in use for the term. At the last report the teaching force was almost complete, there being a few places to fill and Superintendent Conklin was in touch with several applicants. No doubt by the time school opens all these places will be filled and everything in readiness for the year's work.

Among those registered at the Union hotel during the past week were: M. B. McCarty, J. R. Seecock, J. H. Michaels and wife, B. H. Hallock, Mrs. H. H. Hallock, Elizabeth Michaeels, H. G. Sheneck, W. M. Lemmon, W. Perkins and wife, Mrs. R. Frisbie, Jean Lottridge, Kendall Lottridge and E. R. Wright, of Baker; Fred Meyers, S. D. Clinton, Giles Harnden, J. K. Wright and wife and L. C. Wright and wife, of La Grande.

Frank Connor, proprieton of the Connor Cash store, has sent out two men with a supply of army goods to canvass the county and also Wallowa county. The two young salesmen, Francis Dobbin and Reid Dallan, have succeeded so well that Mr. Connor says he is thinking of sending out another car with more of the army goods.

The Grande Ronde Lumber company's sheds here have been improved by the erection of a fence around the yards, a coating of paint on the front and the company's name placed on a signboard on top of the shed.

John Martens, who has been living in an apartment house, recently purchased the W. H. Hutchinson property and has moved into his new home.

Dr. McKinney has had his property in South Union improved by the installing of a furnace in his basement.

Two Sunday school picnics were held here last week. On Wednesday the Presbyterian school held their annual outing at Goodbrod Lake in South Union, and on Friday the Methodist boys and girls were entertained at the home of S. E. Miller in the north end of town. At both places refreshments were served and the youngsters enjoyed games and other similar amusements.

Last Tuesday a grass fire was started by sparks from the engine on the Central railroad, just across from the old planer site. The blaze was soon extinguished and very little damage done.

Last Monday night Dr. Gilmore was called to Troy to attend a typhoid fever case. The doctor started about 9:00 and made the trip of nearly one hundred miles to the Wallowa county town. Mrs. Gilmore accompanied the doctor on the trip. They arrived home on Wednesday.

Miss Margaret Phy is reported on the sick list.

MAY BE VICTIM OF FOUL PLAY

Disappearance of Pilot Rock Newspaperman Causes Relatives to Fear for the Worst.

PENDLETON, Aug. 28.—That Jean Kirkpatrick, former editor and publisher of the Pilot Rock Record, met with foul play before he left Pendleton is the belief expressed today by Hugh Kirkpatrick, brother of the newspaper man.

A thorough check on the personal affairs and effects of his brother has been made at Walla Walla since the disappearance of Jean Kirkpatrick, the brother stated this morning, and the effect of this check has caused the local men to opinion that foul play is responsible for the disappearance to be strengthened.

Quite a quantity of reading matter had been set up at the Record plant to be used in the new publication at Walla Walla, it has become known. The advertising matter, however, was in Kirkpatrick's possession when he left Walla Walla, and he was taking it to Pilot Rock to set it up to be used in the current issue.

There is also a possibility that Kirkpatrick stopped in Pendleton to solicit further advertisements from local men and firms to be used. Whether he did this has not been ascertained but an effort to find out whether Kirkpatrick was so engaged during the time he was in Pendleton before he dropped from sight is now being made.

Mrs. Kirkpatrick, wife of the publisher, is said to be intensely nervous and shocked as a result of the disappearance of her husband. The marital relations of the couple are said to have been ideal, and Mrs. Kirkpatrick is fearful that her husband has met with foul play.

No news of any kind from missing man or about him has been received since he left here August 15, according to Hugh Kirkpatrick.

POWER COMPANY INSTALLING A MAMMOTH FLUME

BAKER, Aug. 28.—A view of Powder River Valley from one of the mountain tops west at an altitude of between 5,000 and 6,000 feet was the great privilege of A. A. Smith, A. S. Shockley, John Schmitz, Mose Fuchs and I. B. Bowen, Sr., Thursday afternoon as the guests of J. P. Lottridge, general manager of the Eastern Oregon Light and Power company, on a trip of inspection of flume construction on Rock Creek. The point of observation was from the forebay and the clear atmosphere enabled a view not only of the valley but of all the eastern part of the county as far as the Snake River range of mountains. It was an impressive sight and the picturesque grandeur of the valley and environs was one long to be indelibly imprinted on memory.

Leaving the forebay the journey to the Rock creek head gate was made on foot over the flume now under construction to convey the waters of Rock creek to the forebay for storage when required.

One of the principle generating plants of the Eastern Oregon Light and Power Company is on Rock creek about twenty miles west of Baker. This plant has no storage other than a small forebay which has a capacity capable of running the plant ten hours. The generating equipment consists of two 450 Kilowatt machines and the output per year runs about four and a half million kilowatt hours, which is about a third of the total output of all the plants of the company.

The 20 second feet of water necessary to operate this plant, has been carried through a native wood box-type flume 3 ft. by 6 ft., a distance of about 9,000 feet from the point of intake on Rock Creek with the forebay. From the latter point it is carried in a steel pipe line about half a mile, in which there is a drop of about 960 feet.

The flume has been constructed about 16 years and has now reached the point where it is necessary to rebuild it. The company is this year replacing about 6,000 feet with 42-inch semi-circular type flume, constructed of Coast Fir impregnated with creosote, at a cost of about $20,000.00. They plan next year to replace the balance of the flume at a probable cost of $10,000.00 more. The construction is extremely difficult on account of the small continuous curves. One of the biggest problems was to distribute the material, which weighed about 280,000 pounds.

While the general supervision of the work is under the jurisdiction of J. H. King, the general superintendent of the company, the establishing of the grades and curves has been under the supervision of L. R. Stockman, and the laying of the flume has been done by the Continental Pipe Manufacturing Company of Portland.

MRS. J. F. CROPP DIES.

The wife of Dr. Cropp, who was known in this county as a sister-in-law of former County Commissioner Cropp of Baker county, who resided at Eagle Valley, died in Walla Walla yesterday.

She was enroute home by auto from Seaside, Oregon, and took ill near Pasco. She was taken to a hospital and an operation performed. Dr. Corpp had stopped in Seattle, but arrived in time to see her before she died. Mrs. Cropp was accompanied by her son-in-law and daughter, Mr. and Mrs. George B. Day, and her sister, Miss Laura Hungate. Mrs. Cropp was a native of California, the daughter of H. H. and Mary Hungate, pioneers of Walla Walla. She was married here in 1879 to Dr. Cropp shortly after his graduation from the Jefferson Medical college.

DR. RUCKMAN TO HOLD SALE

There will be a public sale of live stock and farm machinery Thursday beginning at 10 o'clock at the Dr. Ruckman ranch two miles east of Alicel. 8-28-2t

NOTICE OF EXCOMMUNICATION

Dr. Verne Johnson will be at his office about Aug. 29th. Phone Main 96. 8-25-2t

CAUSE OF APPENDICITIS.

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.—Adv.
