CLUB PREPARES FOR GOLF MEET

Directors of the La Grande Country Club held an important session last evening following the dinner at the Country Club. The chief business of importance to come up was final action on arrangements for the golf tournament here next Saturday and Sunday, at which time 16-men teams will be present from Boise, Baker, Pendleton and Walla Walla.

Just what La Grande men will make up the local team has not been announced by the handicap committee.

A social program has been arranged for Saturday evening at which the visiting players will be guests and local members will be asked to attend dancing. Lunches will be served the players at the club house.

Caddies of experience will be in demand, the call having been sent out for 50. A. W. Nelson, who has been appointed caddy master, will register caddy boys prior to Saturday morning.

TEN MAMMOTH ENGINES MADE

SALT LAKE CITY, Utah, Oct. 4.—The Denver and Rio Grande Western railroad recently secured ten locomotives which are said to be the largest ever constructed for passenger service. They are ninety-five feet long, weigh 644,600 pounds and cost approximately $80,000 each.

At the present the new engines are used in freight service but after surfeiting hauling up they will be put on passenger runs. Officials of the road believe they will be able to haul passenger trains over grades where now two or three of the smaller type are required.

OREGON TRAIL HEADS TO MEET

Directors and vice presidents of the Old Oregon Trail Association will meet in Portland Monday morning, and will appear before the Portland Chamber of Commerce, the Kiwanis, the Rotary and the Ad clubs in an effort to have the Oregon Trail designation apply to the highway between Pendleton and The Dalles, which at the present time is known as the Columbia Highway. Union and La Grande have promised to have representatives present.
