# WHEAT MARKET SHOWING WEAK

## Kansas State Crop Report of Large Yield is Cause of Decline

CHICAGO, May 19.—Pronounced weakness developed in the wheat market today owing more or less to announcement that the KaKnsas state crop report indicated a larger yield than of late had been looked for. Prices closed unsettled, 7-8 to 4 1-4 cents net lower, with May 1.39 7-8 to 1.40 and July 1.24 3-8 to 1.24 1-2. Corn finished unchanged to 3-8 cent down, oats at 1-4 cent decline to half cent advance, and provisions varying from unchanged figures to ten cents off.

Heavy selling of the July delivery of wheat came from the principal long interest in May. Most of the activity showed itself in the last hour of the session, but had been preceded by early selling on the part of foreign holders on September delivery. Aside from 3,000,000 bushels increased estimates of the probably KaKnsas yield, the trade seemed to be impressed with the liberal volume of receipts at this time of the year and with the absence of any import or export business. Todays's arrivals here totalled 313 carloads, and there were advices that St. Louis olane was loading 25 cars with wheat for Chicago. A year ago the day's total receipts of wheat in Chicago was 101 cars. Tomorrow's receipts at KaKnsas City were estimated at 200 cars, and Monday's at 300.

During the last hour of the board of trade sessions, prices crumbled rapidly in the wheat pit. From the lowest point reached May recovered about 2 1-2 cents but there was little rallying power displayed by the latter months.

Corn and oats prices sympathized a little with the weakness of wheat, although the greater part of the day's attention was chiefly given to reports of wet weather hinderance to corn planting.

Provisions prices were inclined to sag as a result of lower quotations on hogs. A good cash demand for meats, however, was reported.

# SPECULATION IS AGAIN REVIVED

## Easier Money Rates Cause —Virtually All Forms Fall to Low Levels

NEW YORK, May 19.—Speculative activity in the stock market was revived on a comprehensive scale today, mainly as a result of easier money rates, virtually all forms of accommodation falling to lowest levels in almost five years. Aside from call loans which were freely obtainable at 3½ down to 3 per cent, 30-day money eased to 3¾ per cent; 60-day money was offered at 4 per cent.

A very parge proportion of the day's funds came from interior sources, especially New England and the middle west, but the higher ratio of reserves reported in the weekly statement of the local federal reserve zank bespoke relaxed conditions at this center. Steels, oils, sugars, coppers and motors were in the forefront of the day's broad operations at gross advances of one to almost five points. Outstanding individual issues embraced United States Steel and New Haven, both at record quotations for two or more years, and closing at net gains of 1⅞ and 2¼ points, respectively.

Reading made a net gain of 1⅜ and concurrent strength of other coalers gave color to rumors that the federal administration had formulated tentative plans for a settlement of the coal strike. Pacifics, grangers, trunk lines and cotton carriers also made more or less substantial gains. Sales amounted to 1,735,000 shares.

## Prices Well Maintained in Eastern Wool Market

BOSTON, May 19.—The commercial bulletin tomorrow will say:

"The demand for wool in the eastern seaboard markets has been hardly so keen perhaps, although prices are well maintained. In the country, the new clip continues to move freely at prices whic hare slightly stronger. The manufacturers are inclined generally to resist the upward swing of prices, but are obliged to meet the market when they buy. At the mills there is little change, either as regards the strike situation or thevolumeof new business, except that some improvement continues to be noted in worsted goods. The trade would be glad to see an early settlement of the tariff but hardly hope for that eventuality."

FRUIT

NEW YORK, May 19.—Evaporated apples nominal. Prunes quiet. Peaches quiet.
