(By The Associated Press.)

HAMBURG, Dec. 20.—(By Mail)—South African livestock has now been pitted against United States and Argentine meats in the German markets. A shipment of cattle intended for slaughter arrived here a short time ago as an experiment to determine the extent to which a demand for this kind of meat might be expected in Europe.

Carbon Monoxide Is Dangerous to Drivers

(By Associated Press)

BUFFALO, Jan. 11.—A lungful of carbon monoxide is just as deadly as a draught of carbolic acid to which it is related, Dr. Frances E. Fronczak, health physician, says in a bulletin issued to automobile owners.

"It is strange," Dr. Fronczak says, "in spite of all that has been said on the subject, how automobile owners are generally ignorant of the danger of this gas.

"Steel and iron workers know its properties and avoid inhaling it as they would avoid drinking a deadly poison, yet the motorist thinks of it only as an ordinary gas.

"Illuminating gas, which we are too careful to turn off, suffocates, but does not poison like carbon monoxide, which is just as apt to kill as the chlorine and mustard gasses used during the war."

The bulletin warns against using a rich mixture of gasoline and racing engines in small garages with closed doors, which is the most frequent cause of carbon monoxide poisoning.

CHOLERA HURTS SWINE

IMBLER, Jan. 11.—What is said to be hog cholera has caused a serious loss to some stockmen in the island city section. Tom Johnson, a farmer residing in Union county, has destroyed more than 40 head of diseased hogs. Every precaution is being taken to prevent spread of the disease.

HARVEST YEARS END

IMBLER, Jan. 11—Fruit packing houses here have but six weeks left in which to finish packing and ship their 200 carloads of apples. The Clearwater exchange for the Gem of Imbler, reports that he has yet about nine carloads for Louisiana, etc. A few growers have realized as high as $1.14 a box for their products, while many others have received as low as 46 cents in carload lots. New bearing orchards will bring the 1923 crop up to 30 carloads if the year is favorable.

WESTERN MAN IS BOOSTED

WASHINGTON, D. C., Jan. 11.—Representative McArthur called on President Harding Monday and urged the appointment of a western man for secretary of the interior after the resignation of Secretary Fall becomes effective, states the Oregonian.

Mr. McArthur told the president that he would like to see Representative Mondell of Wyoming receive the appointment, but that he is more concerned about the selection of some competent western man than about any particular individual.

Upon leaving the White House Mr. McArthur said: "The president is very sympathetic with our western problems and I am sure he realizes the importance of having at the head of the interior department a man who is also in sympathy with our great undeveloped section of the country, and who understands its needs."

PASCO MAN SUICIDE

PASCO, Wash., Jan. 11.—Willam Reno, 53 years old, proprietor of the Mission barber shop, killed himself at 10:30 today. The deed was committed with a shotgun, the muzzle of which Reno had placed against his breast and then pulled the trigger.

Beside the body was found a note, which read:

"This trouble is more than I can bear so I am going to end it all. Notify Stanley Hoskill, care of the John Doran company, Spokane."

The will, carefully made out, was also found. It disposes of considerable property in this city. Reno was one of the best known residents of Pasco, having conducted a prosperous business here for 12 years. Recently he had obtained a divorce from his wife and his domestic troubles evidently preyed on his mind.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that has its color and lustre, or which it fades, turns gray, dull and brittle, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound" which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

POWDER MAYOR IS INSTALLED

NORTH POWDER, Jan. 11. (Special). — The installation of Mayor L. D. Russell and six councilmen on Monday evening, January 8, will be an event long remembered. The old and new council met in joint session at the city hall where the new officers were sworn in. After a short session they adjourned to the Chrissen restaurant where a fine banquet was given. Fifty people were seated at the tables. Toasts were made and responded to by old and new members of the council.

At the conclusion of the banquet an adjournment was taken to the Bungalow theater. Here dancing was indulged in until a late hour. Music was furnished by a La Grande orchestra to a very large crowd.

Several prominent people were present from other towns. Mayor Palmer of Baker and several other people from that city were present.

This get-together meeting promises well for North Powder and new officers and everyone is going to boost for a larger and better town.
