

On a recent Sunday evening Miss Gertrude Eakin of Salem gave a very pleasing talk during our chapel exercises. She has a most gracious personality.

Julia Forsman went to Portland on Dec. 3, for an operation on her eyes by Dr. F. A. Kiehle. At last reports, the patient was doing well, and the operation and treatment were successful.

Mrs. Weniger and daughter, Miss Ethel, of Salem, were guests of Mr. and Mrs. Smith during Thanksgiving. Mrs. Weniger is a teacher in the Junior High School of Salem.

Miss Marie E. Roberts arrived not long ago from Colorado Springs, Colorado, to accept a position as teacher in our academic department. We hope that she may find the position and the place attractive.

The Phoenix, Arizona, school recently issued a collection of views of the various buildings, etc., which go into the making of that splendid institution. The work of printing was most creditable and we are pleased to boost for the printing art and the school that stands back of it.

On the afternoon of November 19th the O. A. C. freshman football team played us on the home field. We made good on a pretty sloppy and choppy sea of mud and water, but it was no soft job. We rubbed their noses in the slime of the field to the tune of 13 to 0 and they went to sleep to the strains of our "lullaby." It was some game, a good tune well sung.

Fairview, Okla.—Some of the Indian babies shown at the contest here scored high in the examinations conducted under the direction of agricultural and mechanical college professors. Stella Mixhair, 10 months old, and Mary Mixhair, sisters, scored 91 and 90. The Indian babies would have scored even higher had it not been for roughness of their skins and lack of grooming. The Indians took great interest in the baby show, and the mothers were proud of their children, asking knowledge of how to care for them as white mothers do.—St. Louis (Mo.) Star.

In his introduction to the concerts given by our String Quartet in the different cities Mr. Kennedy states that this is the only Indian String Quartet in the world, the only quartet on the coast engaged in concert work, and the only string quartet ever sent out by a school, college or university in this country, and claims that not even a conservatory of music has ever sent out a standard string quartet bearing its name. Wherever the quartet appears new interest is awakened in Chemawa, and the people marvel that an Indian School should be the first to develop a string quartet.
