HICKS VISITS AT MAXVILLE

Member of the Bowman-Hicks Lumber Company Looks Over New Camp and Is Pleased.

MAXVILLE (Special)—George Hicks, of the Bowman-Hicks Lumber company, is here overlooking the new camp. He expresses himself as being very much pleased with Maxville.

There was no old fashioned sunrise held at the Cecil Nauls home Easter Sunday morning.

P. G. Cottrell went to town and purchased a new Ford recently.

Mrs. C. Lewis, who has been ill for some time, is able to be out.

Maxville enjoyed a perfect Easter Sunday, with warm weather and sunshine. The many bright and fresh Easter bonnets added to atmosphere of the day.

George Gilmore had his new Hupmobile out Easter Sunday.

B. Templeton is the owner of a number of beautiful yellow chicks hatched Easter morning.

The Sunday school teachers hid Easter eggs in the woods Saturday morning and in the afternoon the children of the camp enjoyed the time finding them.

Joe Mead rode into camp Monday morning on his black mare with a beautiful colt running along at the side.

Miss Vera Reinschmidt returned to Maxville after spending the week end in La Grande.

H. N. Addis, who has been at Maxville for the past few days, has returned to La Grande.

Mrs. Hendshaw and several other ladies went into the woods Sunday to gather wild flowers with which to adorn their respective homes. The colors of the flowers are beautiful and combinations that cannot be equaled in large cities.

Automobile [illegible] coming into Maxville now, which indicates that the roads are much improved.

Mrs. Clara Middleton is ill with a sore throat.

GIRL HOBO IS FRILL HATER

LOS ANGELES (AP)—"Well, you can believe it or not, but I hate to get into those things again!" So declared Eleanor Seymore, 15, at Juvenile Hall, here, where her mother handed her a clean dress and other pretty things worn by women, to replace a travel-stained suit of men's clothing in which the girl, known as "Mickey the Tramp," had "hobbed" more than 500 miles during her brief experience "on the road."

And when "Mickey" of the footloose fraternity put on the dress she did not take long down the curtain on one of her most cherished experiences—that of being a boy.

Several years ago the girl whose home is New York in summer and Los Angeles in winter, longed for the eastern metropolis. She didn't want to be a girl, anyhow, and according to her story, has always exhibited a well-developed "tomboy complex."

"Mickey" says the hem of her skirt spells suppression and that dolls were made for children of the Stone age.

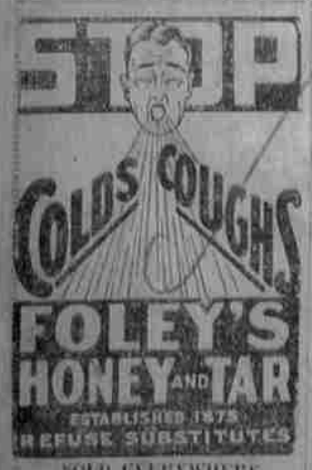
She donned a suit of clothes belonging to her brother and hopped a freight out of Los Angeles. She was so successful in assuming her disguise as a boy that she evaded police detection in several cities and was voted a promising member of the brotherhood after "initiating" a hack driver for a meal at the instance of her fellow hobos. After learning how to ride freight trains, "Mickey" said she learned the art of riding the fast passenger trains.

After sightseeing all over the state of California she was finally caught in San Francisco while preparing to hoist toward New York. She was then returned here.

BONES POINT TO KILLING

GRANTS PASS, Ore.—Bones, classed as human, have been found near the cabin occupied by Gus Lindholm, previous to his disappearance last December, Deputy Sheriff Lisey, who made a trip there to investigate, reported indications that a big fire had been made and a body burned.

A reward of $300 has been posted for information leading to the discovery of Lindholm, dead or alive. He disappeared after Christmas and foul play is suspected. He was a miner on Josephine creek near Holland.



SOLD EVERYWHERE

First Boat Lettuce Appears

THE DALLES, Ore.—The first boat crop local lettuce of the year was marketed in The Dalles bringing $5.50 a crate. It was grown by George Hallenbeck of the Chenowith district. Local produce growers are looking forward to a successful year, both from the product and sales standpoints. Prices were expected to be high, because of the situation in California and the Oregon embargo against importation of vegetables from the southern states. Local produce growers report hampers crops.

'PEACH YELLOW' WARNING GIVEN

Eastern Washington Fruit Growers Told of Disease Affecting the Peach and Apricot Trees.

SPOKANE, Wash. (AP)—Warning eastern Washington fruit growers of the grave consequences which might result should the "peach yellow," a disease affecting peach and apricot trees, gain a foothold in the state, John R. Wilev, horticulturist of Spokane county, in a statement issued here urges increased vigilance in the orchards and a closer cooperation between the growers of this county and the horticultural office.

"One of the greatest dangers confronting peach and apricot growers of this state is the introduction of yellows into the orchards," Mr. Wiley declared. "By a strict quarantine against the importation of trees from east of the Mississippi river and from Nevada we have so far been able to keep out the distressing peach and apricot disease, but we are not receiving the proper cooperation of some of the growers.

"Only recently we grabbed a shipment of diseased trees from New York. The man who ordered these trees possibly failed to realize that his attempt to evade the quarantine law might have caused his fellow citizens tremendous loss.

"One diseased tree introduced into this state could spread the yellows throughout the whole fruit growing district."

Kills Self, Shoots Teacher Who Had Punished Him

BERGAMO, Italy (INS)—Irritated by punishment inflicted upon him by Professor Mariano, Mario Riva, 17, waited in a side street and fired two shots at the professor and then committed suicide. Professor Mariano was only slightly injured. He explained that Riva had been suspended for writing unbecoming words on the test of a composition. Riva left a letter stating that he had been unduly aroused and imploring his mother to forgive him.

Spring Water to be Tested

EUGENE, Ore.—Plans are being made to test the water in a large spring on W. B. Orr's ranch above Oakridge with a view to furnishing water from it to the town, according to Mr. Orr, who was here. He said the supply will be sufficient for the town's needs for some time unless there is a very rapid growth in the near future.

Fred Reunion Appointed

PENDLETON, Ore.—Fred Reunion, county agent, was appointed by the county court to have charge of the organization in Umatilla county that will function to prevent the establishment of the foot and mouth disease here. H. E. Wilson, deputy federal fruit inspector of Milton, will be in charge of fumigating shipments received from California, Reunion said. Later, county veterinarians may be appointed.

We Offer

A 5-room modern plastered house. It has good stone foundation. Two lots of good soil, some fine trees. New garage. Close to school, shops or business. This property can be purchased by a person wanting to use soldiers' bonus loan, providing they can pay $500 cash, balance arranged. Priced right, $3250.

A very choice 5-room house, modern, full basement, furnace. The three front rooms have floors hardwood, with hardwood all built-ins are good. There is a lot and half of ground located on Oak street, now being paved. It is a good home if you want one this. Priced right.

This property will please you if you want a good 5-room house (not modern), fine barn and henhouse. Two good lots, fine trees, good barn, splendid home for someone not wanting a close in place. $1875. $400 cash.

Pershing Not Eager For Vice Presidency

WASHINGTON (AP)—A flat statement stating that if by any chance nomination for the vice presidency "should be offered to me I should decline to accept it" was made Thursday by General John J. Pershing.

"Any statement that has been made that I would be candidate for vice president has been made without my authority," said the general in a formal statement. "I am not a candidate and if by any chance the nomination should be offered to me I should decline to accept it."

Wishing Pool Aids Hospitals

SYDNEY, Australia (AP)—The Wishing Pool at the Jenolan caves here, into which coins are thrown for two local hospitals, has once more been cleared, the record sum of £1755 being gathered.

This represents about 12 months collection. The collection is made up mostly of small coins including 16,135 three-penny pieces and 13,231 pennies.
