A Democratic Institution

MEN'S STORES are usually classified as popular-priced or exclusive. But THE STORE FOR MEN is not limited by either definition.

It is a big enough institution to be democratic. It is both popular and exclusive in the sense that it carries the widest possible range of worthy merchandise. It covers the field of men's wear completely.

While the standard throughout is one of quality, yet the price range is wide enough to cover every requirement of economy or of luxury. At every price, the value is attractive, because the buying is from the best recognized manufacturers.

UNION SOCIAL NEWS OF WEEK

UNION, Ore. (Special)— Mrs. Martin, who has been ill for some time was taken to the hospital at Hot Lake Monday, her condition having become quite serious. Her brother, John McIlroy, came up from Portland Sunday in response to a message sent him in regard to his sister's condition.

Walter Cook and Rev. Hodge went to Baker Sunday to attend a Presbyterian meeting. Several returned missionaries from Central and South American countries were to speak and the Union men went up to hear them, but owing to car trouble they did not arrive in Baker until the meeting was about over.

Mrs W. E. Mulholland was taken to Hot Lake Monday owing to serious illness.

Members of the M. I. A. of the local Mormon church repeated their performance of the play "Dust of the Earth" at the gym Tuesday night. The parts were well given and were appreciated by a fair sized audience who were in attendance.

A. B. Ferre, who is upkeep man for this section of the state highway, was taken to Hot Lake Monday, seriously ill.

Union people this season are taking more interest than usual in tennis. Two courts, one at the Ed Miller home, and the other at the Burwell place, are already in use and one or two more are being planned.

Mr. and Mrs. F. E. Divens were over from La Grande for a short time Wednesday.

Much trouble has been caused by a leak in the water main beneath the pavement in front of the post office and the street department has finally been obliged to tear up the hard surface to repair the leak.

A boy was born Thursday to Mr. and Mrs. Gordon Houck. Mr. Houck is the science teacher in the local high school.

The Woman's club met Thursday afternoon at the home of Mrs. Nell Hutchinson, southwest of town. About forty members were present and part of the program was a farce put on by several of the ladies. It was called "Trouble Brewin" and had to do with political conditions. Mrs. Perry Rolfing put on a comic costume dance, Mrs. Hutchinson and Mrs. Laughlin sang and played. Light refreshments were served.

FISH HATCHING AT ENTERPRISE

Salmon Growth Described From Embryonic Stage Until 10 Months of Age.

ENTERPRISE (Special to The Observer)—The Wallowa salmon hatchery at Enterprise is a very interesting place these days, as salmon eggs are being gathered and hatched out. After securing the eggs they are first taken to the creek and washed, then placed in cans of water to undergo the freezing stage, making them so they can be handled without difficulty, after which they are placed in troughs. The troughs are about 14 feet long and 12 inches wide and the baskets are about 24 inches long and will just fit into the troughs. Six baskets are placed in a trough.

About 20,000 eggs are placed in these baskets, which are measured with a graduated glass, enabling one to tell the amount put in. It is all according to temperature as to how fast the little fish will form.

After the fish are hatched and placed in the pond they are fed on liver. The first six days they don't eat much but after a few days they cultivate a great appetite. The liver is ground into small pieces. When these fish are about 10 months old they are liberated, a large number being marked so that a correct tab can be kept on their growth. This marking is done by clipping off the two little fins on the stomach and the one above the tail. This takes considerable care.

Early this week 128,000 Eastern Brook trout were placed in the feeding pond at the head of Wallowa lake and will remain there until this fall, when they will be put into the lake and new supplies will be received to replace those let go.

Wallowa lake is a favorite place for anglers and the longer you look at nature's work the more glorious it looks.

Erudite Pourers of Oil Is the Latest

CHICAGO (INS)—Gasoline and oils are now being poured into tanks of automobiles at numerous filling stations of the "Standard" Oil company (Indiana) in and about Chicago by scientific methods. Scientific graduates of the company's Service Station school are handling oil in a manner resulting from condition obtained through advanced study of the industry.

The men were selected for the training out of the thousands employed by the company. The factors taken into consideration in selecting the young men were personality, education, experience, aggressiveness, courtesy and what the company believed were inherent possibilities.

After attending classes from 8:30 to 5 o'clock for some days the young men were handed diplomas which they will show on request as "Master" to prove that cold water has to receive scientific handling.

New South Methodist Pastor in La Grande

Reverend F. W. Dick, new pastor of the South Methodist church taking the place left vacant by Reverend Wood, who was forced to leave owing to bad health, arrived in La Grande, accompanied by his wife and baby, yesterday. He will deliver his first sermon tomorrow.

Mr. Dick comes to La Grande from Louisiana where he has spent the past year. Prior to that he made his home in West Virginia.
