Protect Club Room Walls.

Protection for the walls in the Commercial Association club rooms is being given by the construction of rim boards on all sides of the room. These rim boards are being placed today and will, when properly tinted, add much to the attractiveness of that already attractive room.

Train Jumps Track

The Walla Walla-Pendleton train, when 10 miles from Walla Walla last night, jumped the track, the front wheels of the front truck of the tender getting off the track. GERMAN FILM MAKERS LOOK FOR U. S. MARKET

BERLIN, March 5.—(Carl D. Groat, U. P. Staff Correspondent.)—Experiencing more or less of a "crisis" in disposing of its goods, the German film industry is looking to America, England, France and Italy for a market.

The success of the first German films sent to the states since the war has encouraged film makers to believe that they can enter the American market. This hope is largely based on their idea that America is tired of her own films, on the ground that they are built too much on one theme.

The American "crisis" in the film business is attributed by the German makers, not to a decreased love for movies, or the "Kino," as the German calls it, but to a change in the American taste. The German makers hope to meet this changed taste.

There is a movement for consolidation of concerns, squeezing out the "small fry," and purifying the tone of the films by also driving out men attracted to the business at the time when large profits could be made with low grade goods. This movement is succeeding, and it can be foreseen that within the next few years only a few major concerns will be operating here.

And the effort to put the German film on a higher plane is likewise succeeding. A year and two years ago many of the German products were revoltingly obscene. They could not have played in any movie house in the states. But, this is gradually altering, and while one still finds many perverted presentations, there is a gradual trend toward a better moral and mental tone.

Great events in history and literature are being spectacularly staged at large costs and with big casts. There is quite an actor colony in Berlin, and this attracts many young girls, just as Los Angeles studios do, but the glamour is not so great as in the states.

Among the German stars are Henry Porten, Fern Andra (formerly America) Mia May, Pola Negri, Asta Nielsen, Harry Piel, Sahret (formerly America), Paul Gegener, Enrich Raiser-Dietz.
