HOUSEWIVES URGED TO START CANNING

Vegetables Plentiful on Portland Mart; Strawberry Prices Low

PORTLAND, Ore., June 15 (AP)—Vegetables of all kinds are more plentiful on the local fresh market with strawberries in particular practically of season's height and virtually lowest prices reached. Housewives are being advised to begin strawberry canning now and during the next week. Strawberries of good quality are down to five cents per box retail. Even fancy stock selling a little higher are a little more attractive bargains to those quantity purchases. Crate prices range from $1.60 to $1.85.

California stock raspberries continue a little higher than they will be a little later when the supply increases, at 25 cents per box.

Small supplies of apricots are going at 15c per dozen and local cherries sell at 18 cents per pound.

Extra grade eggs are unchanged in price, but firsts are down a cent wholesale to 22 cents, while current receipts are advanced a cent on the dairy exchange.

The week end market for light hens has caused shorter supplies with a corresponding price gain of from one to two cents. Lights opened today around 13 cents per pound, with further gains expected.

Country dressed meats continue steady.

PORTLAND PRODUCE

PORTLAND, Ore., June 15 (AP)—Wholesale prices: Butter—Extras cubes, city, 37½c; standards, 37c; prime firsts, 36c; firsts, 34½c. Creamery prices: Prints 3c above standards; butterfat, 40c f. o. b. Portland.

Gasoline, regular, retail, 23c.

Specialties And Rubber Are Weak On Wall Street

NEW YORK, June 15 (AP)—The stock market displayed splendid recuperative power today after yesterday's sharp break. Weakness cropped out in the rubbers and a few specialties, but the secondary selling elsewhere was well absorbed and prices of many issues rallied 2 to 12 points. The advance was halted now and then as "bear" traders put out experimental short lines to test the character of the buying.

Commercial Solvents, which was one of the weak spots yesterday, had rallied 12 points before the end of the third hour. Texas and Pacific Land Trust, Houston and Texas Coal and Oil recorded rather substantial gains.

Rock Island crossed 111 to the highest price ever recorded. The closing was strong. Rock Island reached 112¾ and Baldwin, General Motors, Timken Roller Bearing and U. S. Cast Iron Pipe were marked up materially. Federal Mining and Smelting rose 10 points to 170, a new high record, and Commercial Solvents "B" extended its gain to 15 points. Total sales approximated 2,000,000 shares.

Corn Closes Firm; Wheat Unsettled

CHICAGO, June 15 (AP)—Opening ¼ to 1¼c off, corn soon ascended to well above yesterday's finish. Wheat started ¼ to ⅜c lower and continued relatively weak. Oats were easy. Provisions tended to sag.

Corn closed firm, 1⅞ to 2⅛c net higher; wheat unsettled at ¼ to ⅝c gain; oats ½ to ⅝ @ ⅞c up and provisions varying from 5c decline to an equal advance.

DRIED FRUITS

NEW YORK, June 15 (AP)—Dried fruits steady.

Water High In Wallowa County

WALLOWA, Ore., June 15 (Special)—Warm weather, together with several heavy rains, caused the snow in the mountains to melt rapidly. Wallowa river, Bear creek and other streams have been running bank full. Bear creek has been higher than ever before according to some of the older residents of the Diamond Prairie section.

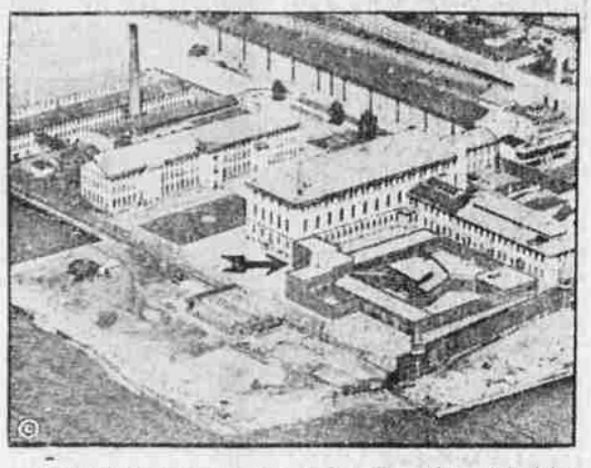
One of the bridges of this stream was nearly washed out, blasting away of debris being necessary to save it. The river has gone over the bank covering a considerable portion of land. A part of the county road crew working in the upper part of the valley was called into service to help in confining the river to the main channel. So far no serious damage has been reported.

A simple way of protecting chickens from ticks is to provide readily demountable roosts direct from the floor and not touching the walls, or to suspend the roosts from the ceilings by means of small wires. The roosts are prevented from swinging by similar wires from the roosts to the walls of the house. Nests should be located away from roosting places. If constructed of metal they can be disinfected quickly from time to time by burning out the straw.

FIRST VIEW OF JULIAN STOCK BOOKS

Here is the first picture of the Julian Petroleum Corporation stock books figuring in the largest high finance scheme of years on the Pacific coast. The accountant who has examined them says nearly 12,500,000 shares have been issued. The picture shows the upstanding pile of books, nearly eight feet tall, with Julia Saunders perching the last book on the pyramid.

WHERE RUTH IS TO ATONE



A remarkable bird's-eye view of Sing Sing prison at Ossining, N. Y., where Ruth Snyder and Henry Judd Gray are to be electrocuted the week of June 28 for the murder of her husband, Albert. It is in the death house (arrow) that the electric chair is located and in nearby cells that the couple are to be confined until the day of atonement arrives.

GRANGE HALL PERSONALS

GRANGE HALL, (Special)—Mr. and Mrs. Frank Wright left Friday morning for Corvallis where they will attend the state grange convention as delegates from Blue Mountain grange. They were accompanied by their two daughters, Mrs. William Helvey and Miss Deane Wright and Mrs. Helvey's little daughter, Maxine.

Mr. and Mrs. Frank Greiner and children, of Imbler, were Sunday visitors at the Bert Greiner home.

Dave Hutchinson, who has been running the Bonnie View dairy at the Zender farm that is located on the Gebeler lane, has sold his business and moved to La Grande. He has purchased an interest in the Mt. Emily dairy.

H. E. Brown, dairyman of south La Grande, has contracted to put up the alfalfa that is raised on the Zender place this season.

Mr. and Mrs. William Hughes are visiting in Olympia, Wash., with Mr. Hughes' sister, Mrs. M. Henderson. They intend to be gone two months.

C. B. Gebeler is having some alterations and improvements made in his home. Roy Spencer is doing the work.

Mrs. Lee Reynolds and her mother, Mrs. Evans, both of La Grande, called on friends in this district Saturday afternoon.

Mr. and Mrs. William Sherwood were Hot Lake visitors Tuesday afternoon.

The county is doing considerable work on the foot hill road that leads from Ladd Canyon to La Grande.

Where the chicken lot is large enough it is a good plan to make it into two yards. In one yard plant a quick-growing grain crop. Let the chickens run in the other lot. When the green crop becomes two or three inches high, turn the birds in that yard and then plant the other yard to a green crop.

Good morning, boys, how are you? I am saying good morning to you this morning so that you can read it this evening. You know, I have been telling you a good deal about the 100% pure Monarch paint. It contains not one single ounce of adulteration, as it is made from pure white lead and linseed oil with zinc added. There are old painters who have been wielding the brush for around a half century. They never knew until a few weeks ago that there was any such paint put up in cans in America. The awful Claud did not know that there was a 100% pure paint put up in cans in America until a few months ago. However, I have seen hundreds of cans of paint labeled "pure paint" but that doesn't spell anything, as pure silica that is used to adulterate paint is made of pure sand. But there is no pure sand, or pure chalk, or pure ground rock or any other adulteration goes into Monarch. No, sir, she am the pure quill. It covers more, wears longer, looks better and costs you no more than adulterated paint.

And furthermore, people that are putting it to actual use are carrying it away, and we don't blame them, either; do you? The best is none too good when it costs you no more.

Amazing results in plant production by means of electrocuting are being obtained by Henry Sacher, a Swiss. The apparatus isolates elements from the air and feeds them to the plant roots, making fertilizer unnecessary. Maximum strength, reached at the end of the fifth year, remains at that point indefinitely.

You'll know it's summer some evening when you come home to the aroma of boiling tomato catsup.
