A MORMON BISHOP.—Bishop Johnson, of Salt Lake City, has ten wives, of whom four are sisters and his own nieces, two others are sisters, and two are a mother and daughter. They all live together in the same house. A beastly set!

☞ A citizen of Scio sends us word that we ought to have stated that both of the parties to the prize-fight there were citizens of Marion Co. We didn't know that they were, or we would. We understand they are, and not bad citizens, either.

Wouldn't free negroes do well there?—*Onion.*

Why! Do you wish to get "free papers" from Avery, and immigrate? If so, we say no; *Hibben* tried it, and didn't "do well" most emphatically.

INFORMAL.—One of the clerks of the South Portland precinct had not the qualification of an elector, as required by law; the precinct gave Logan 108 majority.

Invaluable for burns, wounds, sprains, dyspepsia, chilblains, sores, swellings, scrofula, &c. As a Pain Extractor, it cannot be excelled, affording immediate relief from the most excruciating pains. 1y19

Lyon's Magnetic, or Flea Powder.—Will destroy Garden Insects, Cockroaches, Bed-Bugs, Fleas, Ants, Moths, and all pests of the vermin kind. The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists from the Horticultural Society of Paris, while amidst the flora of Asia, observed that all insects fighting upon a certain kind of plant were soon dropped dead.—This fact was made use of to guard their night camps from the intruders. Quantities of the plant were brought home by Mr. C. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the governments of England, France, Germany and Russia, from the World's Fair, and numerous medical and horticultural colleges and societies.

LETTER FROM THE PRESIDENT OF THE UNITED STATES.

"*Executive Mansion, Washington, Jan. 21st, 1858.*

"MR. EBENEZ. LYON—*Dear Sir:* I have the pleasure to inform you that the Royal Commission of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magical Powders, &c.

"MILLARD FILLMORE, CHAIRMAN."

The above was accompanied by a certificate of Prince Albert.

IT IS FREE FROM POISON.

New York, October 1st, 1858.

MR. E. LYON—*Dear Sir:* We have analyzed and tested your Magnetic Powders and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants and insects.

JAMES R. CHILTON, M. D., CHEMIST,
LAURANCE REID, PROF. CHEMISTRY, N. Y. HOSPITAL.

Mr. John L. Rose, Superintendent of the New York Hospital, says, "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Powder, and finds it of immense value."

Every gardener and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to judge Meigs President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, I. M. Pease, of the Five Points Mission, &c., &c. Judge Meigs says, "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made through Messrs. BARNES & PARK, of New York, to have it sold throughout the world. Many worthless imitations are advertised. Be cautious!

"*New York, November 8th, 1858.*

"In retiring from business, I have sold all my Insect Powders and Pills, Letter Patent, and the secrets pertaining thereto, to Messrs. Barnes & Park. This Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. "E. LYON."

Rats and mice cannot be reached by a powder, and are killed by a Magnetic Pill. Order them through any merchant.

To Lyon's Powder kills insects in a trice,
But Lyon's Pills are aimed for rats and mice.

Dr. L. J. Czapkay.—We would direct the especial attention of invalids to a perusal of Dr. L. J. Czapkay's advertisement, to be found in another column of this paper, in order to place the services of a learned and experienced physician within their reach. So much ill has been inflicted on the human family from the pernicious and ignorant practices of empirics, that it seems as if we were fulfilling a bounden duty to make known where relief can be obtained. To those unfortunate enough to suffer from the effects of sexual or private diseases, or their ill treatment, we cheerfully commend Dr. L. J. Czapkay as a man of rare scientific and medical acquirements, possessing all the requisites, from long experience and acknowledged skill, for the successful practice of his profession. Having made sexual complaints an especial study, like the celebrated Ricord, of Paris, he is enabled to guarantee a permanent and speedy cure in all cases of private or chronic diseases, whether the effects of contagion, self-abuse, or loss of virility; and in order that patients at a distance may avail themselves of his advice, free consultation is open to them. The knowledge that we have of the numerous cures he has effected, some of which were of long standing, leads us to place much faith in Dr. C's efficacy, and commend him to the confidence of those in ill health. Dr. Czapkay's office is on Sacramento street, below Montgomery, nearly opposite the Pacific Mail Steamship Co's Office, San Francisco. 8m9

PHILADELPHIA, Jan. 17, 1859.

To the Editors of the Pacific Medical and Surgical Journal—Gentlemen: My attention has been called to an article in the December number of your journal, in regard to the ad eundem degree granted by the Philadelphia College of Medicine to Dr. L. J. Czapkay.—When the application for the degree was made to the Faculty, it was accompanied by affidavits and testimonials to the effect that Dr. was a regular graduate M. D., of the University of Pesth, had served as Surgeon in the Hungarian army and was a regular practitioner of medicine. On the strength of these the degree was granted. The ad eundem degree, as its name implies, is conferred on graduates only, and gives us new privileges. Had there been the slightest suspicion of irregularity, the application would have been refused. By publishing this in your journal you will do an act of justice to the College and confer a favor on
