Issue Drops 56 Points Following Skyrocket Trip

NEW YORK, Aug. 11 (AP)—A violent break of 56 points in the common stock of the Manhattan Electrical Supply company started a general reaction in the stock market just before midday after an opening outburst of buying had lifted a dozen specialties to new high levels. A handful of other high-priced pool specialties broke from 5 to 15 points, while declines of 1 to 3 points took place throughout the general list.

The break in Manhattan Electrical Supply came while the stock exchange was investigating reports of a "technical corner" in that issued, following its sensational advance from a low of 32¾ this year to a high of 152 a few weeks ago. The stock closed last night at 120½, fluctuated erratically within a five-point range in the first hour, then broke precipitously to 75, rallied above 90 and then collapsed again to 54½ early in the afternoon.

Houston Oil dropped 15¾ points to 128 and rallied to 135; Timken Roller Bearing dropped 10 to 123½ and snapped back to 130 and Dupont, Commercial Solvents "B" and Delaware and Hudson sold down 5 points or more.

The closing was weak. The lowest prices of the session were registered by many stocks in the final hour, following another dive in Manhattan Electrical Supply to 62 after it had recovered to around 70. U. S. Cast Iron Pipe crashed 9 points; Sterling Products 8 and General Motors and White Sewing Machine around 5. New York Central was an exception, advancing two points. Total sales approximated 2,600,000 shares.

Rail Petition Is Forwarded to I.C.C.

Formal petition of intervention on behalf of the Chicago, Milwaukee and St. Paul railway in the proposed merger of the Great Northern and Northern Pacific railroads was forwarded yesterday to the I. C. C.

In announcing its move to intervene to prevent the proposed merger, H. E. Byram, president of the Chicago, Milwaukee and St. Paul railroad, said that the public interest generally, as well as the interest of the St. Paul will be "pre-judicially affected." If the application of the Hill lines to merge is approved by the commission.

"So powerful a combination of railroads would seriously impair railroad competition in the northwest," said Mr. Byram. "Once formed it could never be dissolved."
