TO THE AFFLICTED.—Dr. L. J. CZAPKAY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of Chronic diseases of the Lungs, Liver, Kidneys, digestive and genitive organs, and all private diseases, viz: Syphilitic ulcers, gonorrhœa, gleet, strictures, seminal weakness, and all the horrid consequences of self abuse, and he hopes that his long experience and successful practice of many years, will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patient in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest *treatment*, and implicit secrecy.

Suffer Not!

When a cure is guaranteed in all stages of

SECRET DISEASES,

Self-abuse, Nervous Debility, Gleet, Stricture, Gravel, Diabetes, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus' Dance, and all Diseases arising from a derangement of the Secretary Organs.

Such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver disease, eruption upon the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause or causes the disease may have been long standing to obstruct the cure, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice, in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted who may place themselves under my care, a perfect and speedy cure. Private diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the cases falling into the hands of, incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death prematurely, and the victim marrie—Two sexes is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy of health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims, through a few years of suffering, down to an untimely grave. It destroys the nervous system, rapidly wears away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption, and a train of evils more to be dreaded than death. With the fullest confidence I assure the unfortunate victims of Self abuse, that a permanent and speedy cure can be effected, and with the abandonment of unsound principles, my patients can be restored to robust, vigorous health.

Irregularities, and all diseases of males and females, treated on principles established by fifteen years of practice in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patient in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest *treatment*, and implicit secrecy.

Of all diseases, the great first cause
Springs from neglect of Nature's laws.

When the constitution is once shattered by the secret vice, it requires the skill of a physician to restore the patient to perfect health. Many who have been cured by other physicians, who at first regarded my disease as of trifling importance—but alas, after a few weeks, and in several instances months, of their treatment, I found to my unutterable horror, that instead of relief, the symptoms became more alarming in their torture; and being told by one that my disease, being principally confined to the brain, medicine would be of little consequence, I despaired of ever regaining my health, strength and energy; and, as a last resort, and with but a faint hope, called upon Dr. Czapkay, who, after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to his directions and advice, my head became clear, my illess collected, the constant pain in my back and groin, the weakness of my limbs, the nervous reaction of my whole body on the slightest alarm or excitement; the misanthropy and evil forebodings; the self distrust and want of confidence in others; the incapacity to study, and want of
