SPRING RULES AT CAVES

GRANTS PASS, Ore., Feb. 1—Spring is coming at the Oregon caves, Manager Sabin of the Oregon Caves resort asserted upon his return from that place, where he has made arrangements for added improvements for the season. A bouquet of wild flowers found blooming at the entrance to the caves was brought here by Mr. Sabin. The weather is warm in the mountains and what little snow was there is fast disappearing, he reported.

The caves will open officially this year on May 15. Mr. Sabin stated today that he hopes, in view of the extremely open winter, to have the resort in shape to handle visitors before that date.

Today's snowstorm will keep you cool next summer

Thousands of people will keep cool in the valleys next August with the help of today's snowfall in the mountains.

Electricity will bring them fresh breezes born of melted snow in the mountain streams. A tiny motor will pour coolness and comfort out of an electric fan.

And how much will this modern miracle cost?

The work of giant power-houses—the use of hundreds of miles of copper wires—service day or night at the touch of a button—all this costs less than half a cent an hour as the price of current for your electric fan.

In the meantime, the electric lamp which makes it possible for you to read the evening paper as comfortably as by daylight will burn an hour longer for another half a penny.

Electricity is the cheapest service you can buy.
