Lumber Industry Decline Is Noted

NEW YORK, Nov. 18 (AP)—The lumber industry experienced seasonable declines in shipments and new business and a slight increase in production for the week end Nov. 12, compared with the week before, it is shown in reports from 501 mills to the National Lumber Manufacturers' association. There was little change in hardwood operations. Unfilled orders of 229 southern pine and west coast mills were 571,562,787 feet, against 569,434,295 feet for 230 mills the preceding week. The 337 reporting soft wood mills had shipments 8 per cent of actual production and orders 83 per cent.

WOOL REPORT
BOSTON, Nov. 18 (AP)—The Commercial Bulletin tomorrow will say:

"There is more general competition and a fair volume of wool is being sold. Manufacturers and topmakers are showing interest especially in fine and half blood domestic wools, especially territory and Texas. Prices show a hardening tendency.

"The fall Texas wools were all sold this week, prices having moved from 35 to 36½c at Del Rio.

"The foreign markets are generally firm. New Zealand opened the season high. Montevideo has reduced export asking prices somewhat on finer qualities. Australia is very strong.

"Mohairs in moderate request at unchanged prices.

"The Commercial Bulletin will publish the following wool quotations tomorrow:

Scoured basis: Oregon—Fine and F. M. staple $1.10@1.12; fine and F. M. clothing 90@95c; valley No. 1 $1@$1.

Mohair: Original bag average Southern Oregon 55@55c.
