The supreme test of a pair of glasses is not the cost but the satisfaction they give. Dr. Lowe's glasses satisfy whether they cost \$2 or more. They represent the result of years experience, not experiments. The proper fitting of the proper glasses is his business. For more than 21 years he has made it his exclusive business. The result is absolute satisfaction. He does not go from house to house. Consult him at St. Helens Hotel, Wednesday, July 23, one day only. Remember the day and date. Scores of references. Rainier 24th, Clatskanie 25th.
